# APPLICATION FOR SUBMETER

RECEIVED

MAY 19 1980

PUBLIC WORKS ENGINEERING

## For Sewer User Charge Adjustments

The undersigned hereby requests permission to install additional water meter(s) in accordance with Section 322.6C of the "Municipal Code of the City of Portland, Maine".

It is understood that all expenses related to the purchase, installation and maintenance of the meter(s) is to be borne by the applicant.

### To be Completed by Applicant

Address where sub-meter is requested 106 Chenery St. Portland

Property owner name J. Duane & Eva Poliner

Tax Map Reference (on Real Estate Tax Bill) 128-K-18

Property owner address 106 Chenery St

Person to be contacted to schedule inspections Eva Poliner 703-3291  
(Name and Telephone Number)

Portland Water District Acct. No. (on bill) D-46-12358

Billing Name & Address (on bill) Same as above

Location and size existing Portland Water District Service Meter 5/8" Ø meter  
basement front left

Proposed location and size of sub-meter 5/8" Ø meter basement rear  
center

Will a remote reading register be utilized? NO  YES (If yes, state location near existing meter)

Description of proposed changes in plumbing required for submetering:

Put outside water  
meter on line to rear  
2 outside sillcocks

The volume of water to be submetered can be shown not to enter the sewerage system by virtue of its use for:

laundry  
swimming pool

I certify the above information is true and correct:

Eva Poliner  
Signature

Sketch plan showing proposed changes in plumbing and the location of existing and proposed meters. Show water flow through submeter to non-discharge equipment or location (use additional sheet of paper if necessary)

**INSTRUCTIONS**

First - The applicant is to complete front of this form. The Tax Map Reference can be found on your Real Estate Tax Bill directly following owners name and address (to the center of your Property Tax Bill). Billing name and address should be copied from your Water & Sewer Bill as well as the Portland Water District Account Number which is in the lower left corner of the Water and Sewer Bill.

Second - Fill out reverse application form to:

City of Portland  
Dept. of Public Works  
406 City Hall  
Portland, Maine 04201

ATTN: MR. WILLIAM GOODWIN

Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (below) will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved a permit will be made, one will be retained to the Portland Water District, one will be forwarded to the City Engineering Inspector and one will be mailed back to the Applicant. If the permit is denied, one copy will be made and mailed to the applicant showing reason for denial.

Fourth - Upon receipt of a copy of its approved application, the applicant can purchase and install the sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 725-5411 Ext. 234 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to seal the sub-meter and arrange to have an automatic reading system (if applicable - See General Information) installed where by the volume shown on the submeter will be credited on the Sewer User Charge of the Bill.

**GENERAL INFORMATION**

Section 322.02 of the "Municipal Code of the City of Portland, Maine" reads as follows:

"Submetering of Water. Any person who feels that recorded water meters are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting meter readings not less than once every three months. Such person shall be credited with the volume shown on the volume shown on such meter, which meter shall be accessible to readings by the City or its agents at all reasonable times."

The City and the District have arranged to relieve the customer from the reporting responsibility required above if such meters can be read simultaneously by the District Meter Readers during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by placing the sub-meter directly adjacent to the pre-existing service meter or by placing the sub-meter located elsewhere with a remote reading register located so both readings can be made at the same time.

Approved meters are Neptune and Beckwith meters, conforming to the following specifications:

1. They meet or exceed with accuracy test requirements and be accompanied by a certificate of test accuracy.
2. The meters will have straight reading, cubic foot registers.
3. The meters will have the meter number stamped into the main case.
4. The meters shall be of metric drive.
5. They shall have either a straight drive or oscillating piston.
6. They shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District buys them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring the copy of an approved application with you at time of purchase.

**TO BE COMPLETED BY PUBLIC WORKS**

Pre-Installation inspection by NORMAN V TWADDEL  
on JUNE 13, 1980

Automatic reading system requested  YES  NO

A Watts #8A NF Back Flow Preventer or equal shall be installed on hosebib of rear two outside sillcocks

Application  Approved  Denied
