CITY OF PORTLAND, MAINE  
BUILDING & INSPECTION SERVICES

Date April 22, 1975

To: Portland Wrecking Co  
26 Brackett St

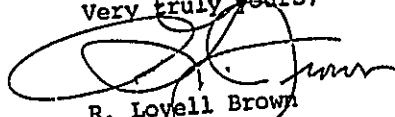

With relation to permit applied for to demolish garage at  
11 Codman St belonging to

Joe Palermo, it is unlawful to  
commence demolition work until a permit has been issued from this  
department.

Section 6 of the Ordinance for rodent and vermin control provides:  
"It shall be unlawful to demolish a building or structure unless  
provision is made for rodent and vermin eradication. No permit for  
the demolition of a building or structure shall be issued by the  
Building and Inspection Services Department until and unless provi-  
sions for rodent and vermin eradication have been carried out under  
supervision of a pest control operator registered with the Health  
Department."

The building permit for demolition cannot be issued until the  
provisions of this section have been satisfied. It is the obligation  
of owner or demolition contractor or both to take up with the Health  
Department the matter of complying with this section, being prepared  
to inform that department what registered pest control operator is  
to be employed.

Very truly yours,

  
R. Lovell Brown  
Director

Health Department comments:

*No rodent activity.*

Oct. 13, 1960

Mr. John Darling  
55 E. Kidder Street

cc to: Mrs. Lucretia Palermo  
73 Emory Street

Dear Mr. Darling:

Permit to demolish and rebuild a 3-story rear piazza  
7'x14' is being issued subject to the following:

1. Your plan indicates that the 2x10 inch floor joists are to rest upon the 4x6 inch members at the end of the porch. If these are to frame against the 4x6 member then they must be notched over a 2x3 inch nailing strip securely spiked or bolted to the side of the 4x6 inch member.
2. The angles supporting the 4x6 inch horizontal members will be required to be fastened with 4- $\frac{1}{2}$ "x4" long lag screws rather than 3 inch lag screws as shown.

Very truly yours,

Merald E. Mayberry  
Deputy Inspector of Bldgs.

GEM:m

October 27, 1947

Mr. Waldo E. Donsmore  
1531 Congress Street  
Mr. Alfred Parent  
11 Codman Street

Subject: Installation of oil burning equipment  
at 11 Codman Street with temporary fuel oil  
tank

Gentlemen:

Due to the present shortage of the usual 275-gallon fuel oil tanks, I am told that there has been installed temporarily on the above job a 50-gallon drum in the cellar with only a single pipe extending to the outside air to serve as both fill pipe and vent pipe.

Use of only a single pipe to serve as both fill pipe and vent pipe is not consistent with safety regulations for oil burning equipment, and may be particularly unsafe at the time of filling the drum which, in view of the small capacity of the drum, may have to be done quite often.

It is only with considerable difficulty that such a drum could be filled from the outside without a separate vent pipe to give the air in the drum a way to escape and it is extremely important that the man actually in charge of the filling operation know the limitations and the danger. The owner is urged to see to it that only a company familiar with the peculiar situation be engaged to fill the drum, since should some employee unfamiliar with the situation make a tight connection between his hose and the fill pipe, the pump on the tank truck would be likely to rupture the drum.

When the permanent 275-gallon tank has arrived, the installer does not need a separate permit to put it in place of the drum, but at that time the usual facilities for a separate vent and fill pipe should be provided, and as soon as the installation is fully and permanently complete, the installer should notify this office for inspection.

Very truly yours,

Inspector of Buildings

WNCd/S
