cc to: Ted & Philip Sloan  
9 Bailey Avenue

Dear Mr. Cox:

Building permit for constructing additions on side and rear of existing garage on lot with dwelling at the above named location is issued herewith subject to the following conditions:

1. Additional 2x4 studs are to be provided in walls of existing buildings so that maximum spacing will not be in excess of 24 inches.
2. New 2x4 rafters spaced not over 24 inches on centers are to be provided to strengthen roof of existing building.
3. It is understood that studs in wall adjoining side addition are to be left in place except for a short space where opening is to be left for car door, this space not to exceed five feet in length on the basis of the 4x4 header to be provided across the opening.
4. The 4x6 sills of additions are to be all one piece in cross section (not made up of two pieces of 2x6) and are to be set with the six inch dimension upright.
5. Piers supporting sills are to be no more than eight feet on centers.

Very truly yours,

Albert J. Sears  
Deputy Inspector of Buildings

Mr. Frederick H. Cox  
23 Alba Street

Ted & Philip Sloan  
9 Bailey Avenue

Gentlemen:

Examination of existing garage on lot with dwelling at the above named location where application has been filed for permit for construction of additions on side and rear of it discloses that its construction is very much substandard as regards Building Code requirements, so much so in fact that it is extremely doubtful if we can issue a permit for any additions to it. Unfortunately you have already done considerable work even though no permit has been issued authorizing it. It is therefore necessary that all work be stopped at once and that no further work be done until a permit has been issued to cover any work that can be authorized. Under these circumstances please let us know how you wish to proceed.

Very truly yours,

Albert J. Seams  
Deputy Inspector of Buildings
