Dear Mr. Dowd,

During the course of a recent inspection of the above structure it was noted that certain plumbing and electrical work has been performed without the proper permits having been applied for or issued. It was also noted that oil burner and hot water heater installations have been made, also without the proper permits having been applied for or issued.

Performance of the above work without proper permits and resultant inspections is a violation of Municipal Codes and could also present a threat to the life, health and property of the inhabitant of this structure.

Please contact this office within five(5) days of the receipt of this letter in order to correct these violations of the Municipal Code.

Sincerely,

Kevin W. Carroll
