NOTES

AP 849 Forest Avenue-I

October 6, 1947

Portland Lumber Company
849 Forest Avenue
Portland, Maine

Subject: Permit for construction
of wood frame storage shed 22'
x 75' at rear 849 Forest Avenue

Gentlemen:

Permit for the above work is issued herewith subject to following construction details agreed upon at conference with Mr. Jackson:

1. Instead of construction originally shown on plan, 4x6 sills and girders at floor line will be used. The space beneath the sills, except for that of front wall will be stuffed with 2x4's, 16" on centers between mud sills and underside of 4x6 sills and covered with wood sheathing.

2. The floor joists are to be 2x8, 12" on centers in head of the construction shown. These will be supported on the 4x6 sills and girders which will be placed on edge. Spacing of supports beneath girders should be no more than three feet six inches.

3. The rafters, if of dressed lumber, will be spaced no more than 12" on centers or, if full size, will be 16" on centers. If desired, dressed 2x8's, 20" on centers may be used.

Very truly yours,

Inspector of Buildings

AJJ/S

DEPT. OF ADG. INSP.
CITY OF PORTLAND

Memorandum from Department of Building Inspection, Portland, Maine
847-867 Forest Ave.-----Shed over lumber piles for Portland Lumber Co.-----9/24/41

To Gener:

It is understood that you will use roof covering bearing the label of the Underwriters Laboratories, Inc., and the permit is issued on that basis.

Size and spacing of intermediate supports of 4x8 purlins. I assume that the posts will be no less than 4x4, properly supported and braced at the bottom at ground level, that the 4x8's will be set with the 8-inch dimension upright, and the posts spaced not more than 10 feet from center to center.

Jordan Lumber Corp.
By Eric Johnson, Pres.

Memorandum from Department of Building Inspection, Portland, Maine
851-855 Forest Ave.-New Lumber Storage Shed for Portland Lumber Co.--6/4/41

To Owner:

Check of framing shows that a slight readjustment of framing is necessary to comply with the Building Code. Your application for the permit says that framing lumber is to be either hemlock or pine.

The 2x6 roof joists could not be more than 16 inches from center to center instead of 24 inches shown, and would have to be hemlock rather than pine. If you want to use pine roof joists they would have to be increased in depth.

The 6x8 girders under roof work out all right if hemlock but not if Pine. The 4x3's over door openings may be either pine or hemlock. It is understood the bottoms of the sills are to be at least 8 inches above the ground and that the 2x4 studs in outside walls are to be no more than
10 inches on centers

Dear Sir:

Your application for a building permit to change 853 Forest from a storage warehouse to restaurant and office is herewith issued subject to the following Building & Fire Code Requirements.

1. Section 312.0 of the building code states "mixed uses shall be completely separated, both horizontally and vertically, by fire separation walls and floors/ceiling assemblies having a fire resistance rating corresponding to the highest fire grading prescribed in table 1402 for the separate uses, which is (2 hrs) two hrs."
2. Max. occupant allowed for the restaurant & Lounge would be 66.
3. In all buildings having an occupant load of 50 or more, all required means of egress shall be indicated with approved internally illuminated signs reading EXIT visible from the exit access and, when necessary, supplemented by directional signs in the access corridors indicating the direction and way of egress. All Exit Signs shall be located at exit doors or exit access areas, so as to be readily visible.
4. All Plumbing & Electrical Permits must be obtained by masters of their trade.
5. Meaning of egress lighting shall be provided from an independent power source or other approved auxiliary source of power to assure continued illumination in case of emergency or primary power loss for a duration of one hour in the restaurant area.

If you have any questions on these requirements, please call this office.

Sincerely,

P. Samuel Hoffser
Chief of Inspection Services
