

CITY OF PORTLAND, MAINE  
MEMORANDUM

TO: Tom Valleau, Asst. City Manager  
FROM: Marge Schmuckal, Building Inspector  
DATE: 8-31-77  
SUBJECT: 92 and 94 Forest Avenue and 217 Woodford Street and 89 Mackworth Street

An inspection of 92-94 Forest Avenue revealed no junk cars at that location. Next door is a parking lot, however, none of these cars are junk. Let me know if there is any other information concerning this complaint so I might be able to determine where the junk cars are located.

At 217 Woodford Street, corner of Nevens, the junk on the lawn has been removed. The owners do have an unusual amount of lawn chairs that they use, often causing an unsightly appearance. However, the chairs are used and I wouldn't consider them junk. Let me know if there is any more concern on this complaint.

Concerning 89 Mackworth Street, I have had the police department make several night inspections, and they have seen no work activity at all after 10 P.M. I will consider this matter closed unless I hear from you.

  
Marge Schmuckal  
Building Inspector
