File: Rept. 454C-I

October 7, 1937

Mr. C. William Petersen,  
133 Coyle Street  
Portland, Maine

Dear Sir:

Enclosed is the building permit covering construction of your combined dwelling house and garage at 483-486 Baxter Boulevard.

We understand that you have purchased four feet additional land on the rear of the original lot. This four feet provides sufficient room as the location is staked out.

Protection inside the garage will be required on the garage side of the partition separating the garage and dwelling house and on the ceiling over the garage.

The Code requires the chimney extend at least three feet above the roof. This height shall only two feet on the plan. Where the outside chimney is to be built on the side of the house, the wall of it is not permitted to be closer than one inch to the wall sheathing but the side walls of the chimney may be closer to the weather boarding or to a filler piece provided to make the job weather tight.

Very truly yours,

Inspector of Buildings

McD/H  
CC: C. Potholm & Sons  
Hartford, Conn.
