CITY OF PORTLAND, MAINE  
DEPARTMENT OF BUILDING INSPECTION

Rayson Park Evangelical Church  
424 Ocean Ave.  
Portland Maine

May 17, 1971

Gentlemen:

With relation to permit applied for to demolish a building or 1-car frame garage  
portion of building at #44 Carlyle Road it is unlawful  
to commence demolition work until a permit has been issued from this  
department.

Section 6 of the Ordinance for rodent and vermin control provides:  
"It shall be unlawful to demolish any building or structure unless  
provision is made for rodent and vermin eradication. No permit for the  
demolition of a building or structure shall be issued by the Building  
Inspection Department until and unless provisions for rodent and vermin  
eradication have been carried out under supervision of a pest control  
operator registered with the Health Department.

The building permit for demolition cannot be issued until the  
provisions of this section have been satisfied. It is the obligation  
of owner or demolition contractor or both to take up with the Health  
Department the matter of complying with this section, being prepared  
to inform that department what registered pest control operator is to  
be employed.

Very truly yours,

R. Lovell Brown  
Director

Eradication of this building has been completed.

*R. Lovell Brown*

Contractor: owners

5/17/71 Inspection this date revealed NO rodent activity

UNITS: GARAGE

BUILDING PERMIT REPORT

ADDRESS: 44 Carlyle Rd. DATE: 14/  
REASON FOR PERMIT: 14' x 16' open deck

BUILDING OWNER: MARJORIE HERRICK

CONTRACTOR: \_\_\_\_\_

PERMIT APPLICANT: \_\_\_\_\_

APPROVED: \*1 \*9 DENIED: \_\_\_\_\_

CONDITION OF APPROVAL OR DENIAL:

- \*1.) Before concrete for foundation is placed, approvals from Public Works and Inspection Services must be obtained.
- 2.) Precaution must be taken to protect concrete from freezing.
- 3.) All vertical openings shall be enclosed with construction having a fire rating of at least one(1) hour, including fire doors with self-closers.
- 4.) Each apartment shall have access to two(2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
- 5.) The boiler shall be protected by enclosing with one(1) hour fire rated construction including fire doors and ceiling, or by placing over the boiler, two(2) residential sprinkler heads supplied from the domestic water.
- 6.) Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches (1118 mm) above the floor. All egress or rescue windows from sleeping rooms must have minimum net clear openings of 5.7 square feet (0.53m<sup>2</sup>). The minimum net clear opening height dimension shall be 24 inches (610 mm). The minimum net clear opening width dimension shall be 20 inches (508 mm).
- 7.) In addition to any automatic fire alarm system required by Sections 1018.3.5, a minimum of one single station smoke detector shall be installed in each guest room, suite of sleeping area in buildings of Use Groups R-1 and I-1 and in dwelling units in the immediate vicinity of the bedrooms in buildings of Use Group R-2 or R-3. When actuated, the detector shall provide an alarm suitable to warn the occupants within the individual unit (see Section 1717.3.1).

In buildings of Use Groups R-1 and R-2 which have basements, an additional smoke detector shall be installed in the basement. In buildings of Use Group R-3, smoke detectors shall be required on every story of the dwelling unit, including basements.

In dwelling units with split levels, a smoke detector installed on the upper level shall suffice for the adjacent lower level provided the lower level is less than one full story below the upper level. If there is an intervening door between the adjacent levels, a smoke detector shall be installed on both levels.

All detectors shall be installed in an approved location. Where more than one detector is required to be installed within an individual dwelling unit, the detectors shall be wired in such a manner that the actuation of one alarm will actuate all the alarms in the individual unit.

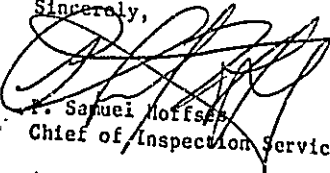

8.) Private garages located beneath rooms in buildings of Use Groups R-1, R-2, R-3 or I-1 shall have walls, partitions, floors and ceilings separating the garage space from the adjacent interior spaces constructed of not less than 1-hour fire-resistance rating. Attached private garages shall be completely separated from the adjacent interior spaces and the attic area by means of 1/2-inch gypsum board or equivalent applied to the garage side. The sills of all door openings between the garage and adjacent interior spaces shall be raised not less than 4 inches (102 mm) above the garage floor. The door opening protectives shall be 1 3/4-inch solid core wood doors or approved equivalent.

\* 9.) A guardrail system located near the open side of deck or elevated walking surfaces shall be constructed. Guards in buildings of Use Group R-3 shall be not less than 36 inches in height. Open guards shall have intermediate rails, balusters or other construction such that a sphere with a diameter of 6 inches cannot pass through any opening.

10.) Section 25-135 of the Municipal Code for the City of Portland states: "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year."

11.) The builder of a facility to which Section 4594-C of the Maine State Human Rights Act, Title 5 M.R.S.A. refers, shall obtain a certification from a design professional that the plans of the facility meet the standards of construction required by this section. Prior to commencing construction of the facility, the builder shall submit the certification to the Division of Inspection Services.

Sincerely,

  
F. Samuel Hoffner  
Chief of Inspection Services
