Description of Present Building to be Altered

Memorandum from Department of Building Inspection, Portland, Maine

64 Gloucester Rd.-- Alterations for Pauline S. Loring by Karl Furst, Builder----10/20/41

To Owner and Builder:

If the span of these new rafters ~~are~~ is actually 10 feet, they work out all right for strength if not intended to support plaster in any way. If the rafters are to support plaster the deflection or sag of the rafters would be too much taking into account the theoretical roof loads that would come upon them.

If the latter is the case the matter should be taken up with Mr. Sears of this office to see what may be done to satisfy the Building Code.

CC Pauline S. Loring,
64 Gloucester Road

(Signed) Warren McDonald
Inspector of Buildings

the heating contractor.
