CITY OF PORTLAND, MAINE Department of Building Inspection

# Certificate of Occupancy.

LOCATION #47 Canco Road

Issued to Carl Selberg

121 Carlyle Road

This is to rertify that the building, premises, or part thereof, at the above location, built—altered coupancy or use, limited or otherwise, as indicated below.

PORTION OF BUILDING OR PREMISES

Date of Issue February 12, 1969

Date of Issue February 12, 1969

LUCATION #41 Canco none

February 12, 1969

Approved location, built—altered and Building Code of the City, and is hereby approved for PORTION OF BUILDING OR PREMISES

Approved Occupancy

One family dwelling unit.

Limiting Conditions:

This certificate supersedes certificate issued

L.P.- 47 Canco Read

May 9, 1968

Rr. Carl Selberg 121 Carlyle Road

Dear Er. Selberg:

Femilt to construct second story level over existing building 18' x 10'5" as per plan is being issued subject to plans received and in compliance with Zoning Ordinance and Building Code restrictions as follows:

- 1. Bills for platform for wooden fire escape from the second floor level will need to be solid 4x6 inch members with all joints lap spliced whose length is no less than the largest cross-sectional dimensions of the sills.
- 2. The bottom of these steps seem to rest on a concrete slab according to the plans filed. If this is so then it will be necessary that a foundation be provided for this slab or to have the steps separate from the slab resting on their own foundation, such as 9<sup>n</sup> senotubes 4<sup>1</sup> below grade.

Vory truly yours,

A. Allan Soule Acting Deputy Director of Publishing & Inspection Services

AAS:m

3

A.P.- 47 Canco Road

Carl Selberg 121 Carlyle Road

Dear Hr. Selbergs

In checking your application to construct second story level over existing building 18' x 10'-5" at the above named location we find that we are unable to continue processing your permit until further information is provided as follows:

We will need a framing plan of the outside stairway and will also need to know how the bottom steps will be supported.

Very truly yours, 🔨

A. Allan Soule
Acting Deputy Director of
Duilding & Inspection Services

7	Do you understand that in case changes are proposed in the location of the work or in any of the details specified in the application that a revised plan work or in any of the application to this office before the changes are made?
	and application must be substituted and splitter a

Memorandum from Department of Building Inspection, Portland, Maine 59-47 Canco Road--Construction of Foundation with Cellar beneath Dwelling House by and for Carl Solberg---9/4/45

It is my impression that this house was built on cedar posts foundation without a cellar. If that is true, new columns will be needed under center girder, and the chimney would have to be extended downward and foundation provided for it.

You have not mean tioned these details on your application, but I presume you are sure of the requirements relating to them. If not it would be best to find out before proceeding faither.

(Signed) Warren McDonald Inspector of Buildings
