Allied Const. Co., Inc. 9 Circus Time Road So. Portland, ME 04106

Westbrook College 716 Stevens Avenue Portland, ME 04103

#### Gentlemen:

Permit to construct an addition as per plans at the above address, is issued herewith, subject to the following Building Code requirements.

No. 6 wire ties are to be used where the brickwork is tied to the concrete blocks. These ties are to be spaced no more than 16" vertical, and 2' horizontally.

Please find enclosed a Certificate of Design for the bar joist which is to be signed by Mr. Ingalls, and forwarded to this office.

Very truly yours,

Earle S. Smith Plan Examiner

ESS/mt

NOTES 5-18-71

Memorandum from Department of Building Inspection, Portland, Maine

September 18, 1968

## Location: 716 Stevens Ave. (Chapel & Humanities Bldg.)

When such a syst has been I stalled, the owner and lessee of the building are responsible for keeping the system in working order at all times so that the system may always be on guard to warn the occupants of the building in case a fire starts. To discharge this responsibility and to have good assurance that he will not be held either financially or criminally liable in case of injury or loss of life in this building due to fire, it is my belief that the owner and lesses must see to it that the alarm system is tested every twenty-four hours. This may be done by merely pressing very briefly the test button to see if the bells ring loud and clear.

Most of these systems have dry batteries for their power, and the batteries will deteriorate in time so that they will not ring the alarm bells satisfactorily, if at all. If the batteries are used briefly by this test every

day they will last longer than when tested less frequently.

Because this is a safety device whenever it is found that the bells do not ring loud and clear or any other defect appears in the system, the owner or his agent should notify immediately some predetermined party who has agreed in advance to come at once and service the system, whether day or night, Sundays

It is recommended that the name of such a party and the address and telephone number be posted permanently on or in the control box of the system. R5 RESIDENCE ZONE

A.P. - 716 Stevens .ve.

April 26, 1968

Langford & Low, Inc. Eoz 662 Portland, Maine cc to: Westbrook Jr. College 716 Stevens Avenue

### Gentlemen:

In checking your application to make alterations in entire building as per plans and specifications at the above named location we find that we are unable to continue processing your permit until further information is provided as follows:

1. We will need revised plans showing a new stairway from the basement area to the outside at the location called Conference Room to on the plans. An exit light will be required over this door opening with anwhite light inside the new enclosure and outside the rear exit door.

24

2. The same as above will be required for the room marked Listoning Room #10.

09

3. We will need to know the size of the header for the new opening from the corriror #23 to the short hallway which have Doors #1 and #2. We will need to know what size header will be used over the double doors in the bearing partition on the first floor marked #10.

OH

The following Euilding Code requirements will also have to be met:

- 1. Remove the jamitors closet room #19 under the stairs. The Remove Building Gode requires that no closets shall be located beneath any stairs serving as means of egress.
- 2. Access panel to crawl space under Assembly Hall must have  $\cupge{0.05cm}\mathcal{K}$  door designed for 1-hour fire separation.

The requirements of the Portland Fire Department will also have to be met. See letter addressed to you dated April 24, 1968.

Very truly yours,

A. Allan Soule Acting Deputy Director of Building & Inspection Services

AAS:m

## PORTLAND FIRE DEPARTMENT FIRE PREVENTION BUREAU

April 24, 1968

Mr. Edward Y. Blewett, President Westbrook Junior College 716 Stevens Avenue Portland, Maine

Dear Mr. Blewett:

As the result of an inspection of the structure known as Alumni Hall, for which we have renovation plans for classrooms in the basement area and upper floors, I noted that the fallowing requirement, namely an approved standard automatic fire detection and alarm system, is not included.

The City of Portland Building Code 509.6.3 reads:
"Every building of Type A use and every building where the
principal use is Type B for schools, colleges, academies and
seminaries shall be equipped with a private fire alarm system
adequate to meet each particular situation. The fire alarm
system shall be approved by the board of Fire Engineers."

The State of Maine Exit Code, Nineteenth Edition, Paragraph 1607 reads:

"In all buildings or structures of such size, arrangement or occupancy that a fire may not itself provide adequate warning to occupants, fire alarm facilities shall be provided where necessary to warn occupants of the existence of fire so that they may escape or to facilitate the orderly conduct of fire exit drills."

The same State of Maine Exit Code, Paragraph 4503 states that all alarm systems and equipment shall be of standard approved type suitable for the purpose for which installed.

As the auditorium is directly associated with this building, heat detectors will be required in that area.

Before any work is performed, a permit must be obtained from the Department of Building Inspection, and be posted on the premises where thewwork is to be done.

Sincerely,

Samuel Gerber Captain - Fire Prevention Bureau

cc: Building Inspector

> Re: Westbroom Junior College

Gentlemen:

Enclosed is one ocpy of drawing R-1 showing changes and enclosed is one ocpy of drawing rel showing changes and additions to the basement exits to meet your requirements as outlined in your letter of April 26, 1968 and discussed with mr. Cartwright on May 3, 1968.

A 4"x 10" wood header has been instelled to bear the walls over doors 1, 2, & 10 as noted in item No 3.

The janitor's closet mentioned in item No.1 has been deleted and the space totally enclosed. Item No. 2, crawl space access
