Dear Mr. Cloutier:

In checking your application to change the use of this building at the above named location from a freezer locker to a Class A Tavern as per plans on file here at this office we find that we are unable to continue processing the permit until further information is provided as required by the Zoning Ordinance for parking for this use. Sec.602.14B.9 of the Ordinance states that one parking space for each 100 sq. feet or major fraction thereof of floor area not used for bulk food or food preparation requires one parking space. Taking the area shown on the plan of 1,695 sq. feet we come up with a figure of 17 parking spaces required.

We will need a plan showing the location of this parking on this lot or a plan of parking on parking lot nearby, as I understand that you have. We will need to know the distance from the property where your tavern is to be located to the parking lot.

If you have any questions please do not hesitate to contact me and I will try to answer them.

Very truly yours,

A. Allan Soule
Assistant Director
