ADDRESS 39 Clinton Street

PRESENT USE OF BUILDING _____ NO. STORIES _____

LAST USE OF BUILDING _____ CLASS OF CONSTRUCTION _____

REMARKS The Burt Co., manufacturers of billiard balls and poker chips, have found that their existing steam boiler is too small to meet their needs; so they propose a new boiler in an addition to be built adjoining their present boiler room to house the new boiler - the addition to be of first class or non-combustible construction.

Alonso Burt is the executive

INQUIRY (1) How would Building Code and Zoning Ordinance apply to construction of a one story addition about 15'x24' adjoining the present boiler room to house a new boiler, only connection between the new boiler room and the present building to be a door between the two boiler rooms?

(2) Could the addition be built as close as 4' to another building of the Burt Company which is 19'6" from the building in which the present boiler room is located?

ANSWER There is a question whether or not there manufacturing use in the bldg to have the addition is non-comforming. Also, permit is not issuable under Z. Code. Mr. Jackson is to apply for a permit at once and then this question will be examined.

③ Addn can be built 4 ft from the other

CITY-OF PORTLAND, MAINE
MEMORANDUM

TO: J. H. Jackson & Son, 39 Clinton St.

DATE: May 9, 1956

FROM: Albert J. Sears, Deputy Inspector of Buildings

SUBJECT: Construction of addition to office building at The Burt Co., Morrill St.

Building permit for construction of a one-story concrete block addition 16' by 24' on rear of office building at the above location is issued herewith. Notification is to be given this office for an inspection before lath or wallboard is applied to walls, partitions, or ceilings. If wood strapping is used on inside of masonry walls, incombustible firestopping is required between the strapping at the ceiling line.

Very truly yours,

Albert J. Sears
