CITY OF PORTLAND, MAINE Department of Building Inspection

## Certificate of Occupancy

LOCATION 64-68 Perry Ave.

Poter Dancinio 38 Hayland St.

Date of Issue April 24, 1961

This is to pertify that the building, premises, or part thereof, at the above location, built—altered—changed as to use under Building Permit No. 60/1013, has had final inspection, has been found to conform substantially to requirements of Zoning Ordinance and Building Code of the City, and is hereby approved for occupancy or use, limited or otherwise, as indicated below.

PORTION OF BUILDING OR PREMISES

APPROVED OCCUPANCY

Entire

Limiting Conditions:

One family dwelling with attached one car garage.

This certificate supersedes certificate issued

Approved:

Inspector Notice: This cortificate identifies lawful use of building or premises, and ought to be transferred from owner to owner when property changes hands. Copy will be furnished to owner or lessee for one dollar.

AP- 64-68 Barry Ave. August 5, 1960 Mr. Peter Dascanio 38 Mayland Street Dear Mr. Dascanio: Permit is being issued according to our conversation of August 5, 1960 which is listed below with some other requirements not previously mentioned: 1. Distance of 8 feet from let line at left side yard to ° be measured at right angles to lot line. The 2x4 inch studs at the second story to extend down to the double 2x4 inch plate instead of at the shoe resting on the second floor subflooring. Corner posts at this elevation to be 4x6 inch members or equivalent to extend in one piece from sill to plate at roof eaves with lap splice's of no less than 18 inches permitted. Coiling joists are to be 2x6 inch spaced at a maximum of 20 inches on centers hung from the ridge over the garage section. (Geiling joists over the living room, kitchen and dining room areas are to be 2x8 space of at kitchen and dining room areas are to be 2x8 space of at a maximum of 20 inches on centers.) - 2x6-16 0.C. ON 12 5PAN 4. A 4x6 inch sill, either flat or on edge, is required on top of the garage foundation wall and at the separation wall between laundry-den and kitchen-living room areas. 5. Either den floor must be 6 inches above garage floor or a 6 inch high curb or threshold placed in the doorway between garage and dan. 6. Header over micture window to be either 4x6 inch fir or hat inch hemlock if stude are concealed in mullions. If header is to span complete opening then you will be required to submit header size and material to this office for approval. Very truly bours, Gerald E. Maybarry Deputy Inspector of Buildings GEMan

\$4-68 Perry Avoing

January 17, 1961

Antonio J. & Rose Mangino 64-68 Berry Avenue

co tos Mr. Peter Descanão 36 Mayland Street

Dear Hr. & Hrs. Menginos

You may consider this letter as a temporary certiffe to  $\alpha^{\mu}$  occupancy.

When the rear platform and steps have been completed and this office notified for another inspection, when it at that time all is found in order, the certificate of occupancy required by law will be issued.

Very truly yours,

ESS/jg

Earle S. Smith Field Inspector
