APPLICATION FOR SUBMETER

For Sewer User Charge Adjustments

The undersigned hereby requests permission to install additional water meter(s) in accordance with Section 322.6C of the "Municipal Code of the City of Portland, Maine".

It is understood that all expenses related to the purchase, installation and maintenance of the meter(s) is to be borne by the applicant.

To be Completed by Applicant

Address where sub-meter is requested BRAMHALL TERRACE LEDGEWOOD DRIVE

Property owner name LedgeWOOD OWNERS ASSOCIATION

Tax Map Reference (on Real Estate Tax Bill) 174-B-2 FROM ASSESSOR'S MAP

Property owner address 6 FIELDSTONE COURT

Person to be contacted to schedule inspections John M. McERRILL 775-5661
(Name and Telephone Number)
Bill Cope

Portland Water District Acct. No. (on bill) D-92-D3587

Billing Name & Address (on bill) LedgeWOOD OWNERS ASSN.
6 FIELDSTONE CT. PORTLAND ME 04103

Location and size existing Portland Water District Service Meter 2" Ø
In manhole off LedgeWOOD Drive, feeds Bramhall Terrace + Pool

Proposed location and size of sub-meter 3/4" Ø
In Pool Pump House

Will a remote reading register be utilized? NO YES (If yes, state location)
Outside of Pump House

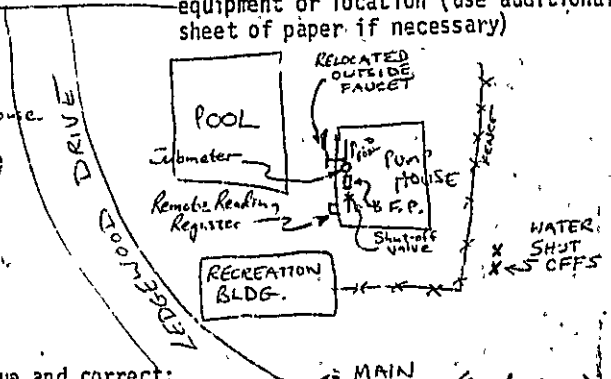

Description of proposed changes in plumbing required for submetering:

RAINBOW MALL RD.

Sketch plan showing proposed changes in plumbing and the location of existing and proposed meters. Show water flow through submeter to non-discharge equipment or location (use additional sheet of paper if necessary)

Filling pool.
Add backflow preventer and submeter in 3/4" pool feed line. Relocate faucet to be after submeter and outside pump house. The volume of water to be submetered can be shown not to enter the sewerage system by virtue of its use for:

Filling pool,
pool washdown.

I certify the above information is true and correct:

MAIN METER (in Manhole)
Date 5-1-84

INSTRUCTIONS

First - The applicant is to complete front of this form. The Tax Map Reference can be found on your Real Estate Tax Bill direct by following owners name and address in the center of page - Property Tax Bill. Billing name and address should be copied from your Water & Sewer Bill as well as the Portland Water District Account number which is in the lower left corner of the Water & Sewer Bill.

Second - Fill completed application form to:

City of Portland
Dept. of Public Works
324 City Hall
Portland, Maine 04121

ATTN: MR. WILLIAM GOODWIN

Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (bottom) will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded to the City Planning Inspector and one will be mailed back to the applicant. If the application is denied, one copy will be made and mailed to the applicant showing reason for denial.

Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the sub-meter as approved. In doing installation the applicant or his plumber must call the Chief Plumbing Inspector at 778-3411 ext. 202 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to seal the sub-meter and arrange to have an automatic reading system (if applicable - See General Information) instituted where by the volume shown by the sub-meter will be credited on the Water User Charge on the Bill.

353

GENERAL INFORMATION

Section 32.21: The Municipal Code of the City of Portland, Maine reads as follows:

"Water & Sewerage. Any person who feels that recorded water meters are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which it is shown not to enter the sewerage system. A person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting meter readings not less often than every three months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be accessible for reading by the City at its expense at all reasonable times.

The City and the District have arranged to leave the customer from the reporting meter hours during their regularly scheduled visits to read the pre-existing service meters. This can be accomplished by locating the sub-meter directly adjacent to the existing register or meter or by equipping the sub-meter located elsewhere with a remote reading register or meter so both readings can be made at the same time.

Approved meters are: Neptune and Mitchell meters, conforming to the following specifications:

1. shall meet or exceed ANSI accuracy test requirements and be equipped with a certificate of test accuracy.
2. the meters will have straight reading, cubic foot registers.
3. the meters shall be magnetic drive.
4. shall have either a magnetic disc or oscillating piston.
5. shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District pays them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you.

TO BE COMPLETED BY PUBLIC WORKS

Pre-installation inspection by Rich Conyer
on May 1, 1984

Automatic reading system requested YES NO

A Watts No 9 (3/4") Back Flow Preventer or equal shall be installed in-line in the pool water feed line.

Application Approved Denied

Comments _____

TO BE COMPLETED BY THE PLUMBING INSPECTOR

An inspection of the completed installation of the submetering system approved on this application was conducted on 5/9/84 by Ernald R. Goodwin, Chief Plumbing Inspector of the City of Portland.

- The submetering system was installed as approved.
- No cross connections were found.

The installation is approved dis-approved Ernald Goodwin

TO BE COMPLETED BY THE WATER DISTRICT

CITY OF PORTLAND

JOSEPH E. GRAY, JR.
DIRECTOR OF PLANNING
AND URBAN DEVELOPMENT

July 14, 1983

The Dartmouth Company
489 Congress St.
Portland, ME 04101

Dear Sir:

Your application to construct 1 building with 4 dwelling units (condominiums) (Bldg. #1) Ledgewood Drive and 2 foundation (frost wall) at same site has been reviewed and a building permit is herewith issued subject to the following building and fire code requirements.

Site Plan Review

Building Div: Sept. 18, 1978 change of zone
Fire Dept. Sept. 20, 1978 o.k.
Public Works: Approved by Public Work through subdivision review.
Planning Div: 1. Ledgewood Drive to be a public street.
2. Foot paths to have durable, hard surface for yearround use and will be maintained and plowed by the association.
3. Exterior lighting in the vicinity of all public streets on the site to be directed downward and away from motorists vision. Sept. 20, 1978.

Building & Fire Code Requirements
Use Group Classification R-2
Type of Construction Classification 4-B

1. In all building and structures, walls shall (fire wall and party walls) be continuous from foundation to 2' 8" above roof surface, except as provided. The party wall or fire wall may terminate at the underside of a roof deck in type 3 and 4 construction, if properly firestopped, and if the roof sheathing or deck is constructed of approved non-combustible material or fire-retardant treated wood for a distance of 4 feet on either side of the wall, and combustible material does not extend through the wall.
2. All fire and party walls shall have a fire grading of 1½ hrs.

3. Each apartment shall be equipped with a single station smoke detector wired to the house current. These detectors shall be placed in a manner which will protect the sleeping area.

4. Every sleeping room below the fourth story in buildings of Use Group R. shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches above the floor. All egress or rescue windows from sleeping rooms must have a minimum net clear opening of 5-7 square feet. The minimum net clear opening width dimension shall be 20 inches. The minimum net clear height dimension shall be 24 inches

5. Floor/ceiling assemblies between dwelling units and between a dwelling unit and a public or service area within the structure shall have an impact insulation class (IIC) rating of not less than 45 when tested in accordance with ASTM E492.

6. Walls, partitions and floor/ceiling assemblies separating dwelling units from each other or from public or service area shall have a sound transmission class (STC) of not less than 45 for airborne noise when tested in accordance with ASTM E490.

7. Every bath, toilet and laundry room shall be lighted and ventilated by one of the methods prescribed. Exterior windows not less than 3 square feet in area with one half of what area available for unobstructed ventilation. Mechanical ventilating capable of producing a change of air every 12 minutes.

8. Illumination shall be provided in all bath and toilet rooms to afford an average intensity of 3 foot candles measured at a level of 30 inches above the floor.

If you have any questions on these requirements, please call this office.

Sincerely,

P. Samuel Hoffses,
Chief of Inspection Services
