100 Madeline Street

Dear Mr. Sylvester:

Permit to demolish existing 1-story rear entrance and to construct a 1-story frame addition 23'x30' on rear of building is being issued subject to the following:

1. There is to be a double 2x12" header member over the 8 foot wide garage door opening rather than the single member indicated on plans.
2. The 4:6 inch sill for this addition is to be kept at least 6 inches above the grade.
3. It was understood in our discussion and noted by you on the file plans that because no fire separation is being provided between the basement of the addition and the house that no motor vehicles or gasoline engines are to be kept in the basement.

Very truly yours,

Gerald E. Mayberry

CITY OF PORTLAND, MAINE
BOARD OF APPEALS

MISCELLANEOUS APPEAL

George J. Kern, owner of property at 100 Madeline Street
under the provisions of Section 23 of the Zoning Ordinance of the City of Portland, hereby respectfully petitions the Board of Appeals to permit construction of a shed roof dormer 24 feet long on one side of two and one-half story dwelling at this location. This permit is presently not issuable because, by construction of the proposed dormer, the area at a height four feet above the third floor would exceed two-thirds of the floor area of the story immediately below it, thus making it necessary to classify the building as three stories high, a height of more than two and one-half stories being forbidden by Section 4-B-5 of the Ordinance applying to the R-3 Residence Zone in which the property is located.

LEGAL BASIS OF APPEAL:

Such permit may be granted only if the Board of Appeals finds that enforcement of the terms of the Ordinance would result in undue hardship and desirable relief may be granted without substantially departing from the intent and purpose of the Ordinance.

George J. Kern

APPELLANT

DECISION

After public hearing held January 14, 1960, the Board of Appeals finds that enforcement of the terms of the Ordinance would result in undue hardship and desirable relief may be granted without substantially departing from the intent and purpose of the Ordinance.

It is therefore, determined such permit should be issued.

Gentlemen:

Building permit for construction of a shed roof dormer 24 feet long on one side of two and one half story dwelling at the above named location is not issuable because, by construction of the proposed dormer, the area at a height four feet above the third floor would exceed two-thirds of the floor area of the story immediately below it, thus making it necessary to classify the building as three stories high, a height of more than two and one-half stories being forbidden by Section 4-B-5 of the Zoning Ordinance applying to the R-3 Residence Zone in which the property is located.

This matter is subject to appeal, and if the owner desires to exercise his appeal rights, he should go to the office of the Corporation Counsel in Room 208, City Hall, where appeals are filed and where a copy of this letter is being sent.

Very truly yours,
