~~WORKING ON LOWER FLOOR~~

#3213A-I

October 2, 1930

Mrs. Geneva M. Hayden
119 Brentwood Street
Portland, Maine

Dear Madam:

Enclosed is the building permit covering erection of a private garage at 142-142 Brentwood Street.

Upon your application, you have stated that the sills were to be 2 x 4, but that the foundation was to consist of a concrete wall with a concrete slab floor. It will be necessary, if this construction is used, to use at least a 4 x 6 sill, as it is assumed that the construction that you propose will give 6" sills across the building between the sills. It is customary to permit the use of a smaller sill if flat slab construction is used for foundation and floor combined, the sill in such a case being bolted to the slab.

Please be governed accordingly.

Very truly yours,

Inspector of Buildings.
