**INSTRUCTIONS:**

- First - The applicant is to complete front of this form. The Tax Map Referrer's can be found on your Real Estate Tax Bill directly following owners name and address in the center of your Property Tax Bill. Billing name and address should be copied from your Water & Sewer Bill as well as the Portland Water District Account number which is in the lower left corner of the Water and Sewer Bill.
- Second - Mail completed application form to:  
 City of Portland  
 Dept. of Public Works  
 405 City Hall  
 Portland, Maine 04101  
 ATTN: MR. WILLIAM GOODWIN
- Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (below) will be completed. Following this inspection Public Works will make copies of one application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded by the City Plumber-Inspector and one will be mailed back to the Applicant. If the application is denied, one copy will be made and mailed to the applicant in writing reason for denial.
- Fourth - Immediately at top of the approved application, the applicant can purchase and install the sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 775-5151 Ext. 234 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to seal the sub-meter and arrange to have an automatic reading system (if applicable - See General Information) installed where by the volume shown by the sub-meter will be credited on the Sewer User Charges of the Bill.

**GENERAL INFORMATION**

Section 22.0 of the Municipal Code of the City of Portland, Maine reads as follows:

**Submetering of Water Volume.** Any person who feels that recorded water records are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting meter readings not less often than every three months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be accessible for reading by the City or its agents at all reasonable times.

The City and the District have arranged to relieve the customer from the reporting responsibility required above if both meters can be read simultaneously by the District meter readers during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by locating the sub-meter directly adjacent to the pre-existing service meter or by enclosing the sub-meter located elsewhere with a remote reading register located so both readings can be made at the same time.

Approved meters are, Hept and Rockwell meters, conforming to the following specifications:

1. Shall not exceed ANSI accuracy test requirements and be accompanied by a certificate of test accuracy.
2. The meters will have straight reading, cubic foot registers.
3. The meters will have the meter number stamped into the main case.
4. The meters shall be magnetic drive.
5. Shall have either a rotating disc or oscillating piston.
6. Shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District pays them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

**TO BE COMPLETED BY PUBLIC WORKS**

Pre-installation inspection by Norman Twaddel on April 15, 1980

Automatic reading system requested  YES  NO

A Watts # 34 Back Flow Preventer or equal shall be installed on hose bibb of outside sillcock
