Occupation of Work

Rept 3258-DI

May 29, 1945

Mr. Arthur C. Stanley,
54 Columbia Road,
Portland Maine

Subject: Building Permit for Construction
of Addition to Private Garage at 54
Columbia Road for private storage of
wood for fuel.

Dear Sir:

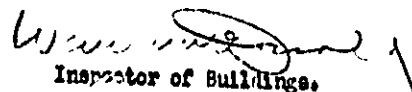

I am issuing the above permit with some misgivings as regards compliance with the Zoning Law. Your property is in a General Residence-C Zone where such a building may only be erected and used if the use of it is one commonly accessory to a dwelling house. Obviously a garage is so commonly accessory to a dwelling house that, under this allowance of the law, it may be permitted. There is a question, however, if a woodshed is common as accessory to a dwelling house in a city such as Portland. The application for the permit does not say that the wood is to be used for fuel. If not, the addition is certainly not allowable.

I have decided to issue the permit, and let you take the chances of what may come up in case it develops that the use of the building is not allowable in the residential. You will understand, perhaps, that anyone can invoke the Zoning Law, - in other words, any person can start proceedings in case of violation of the law. Action need not necessarily come from this department.

If the wood is not intended for fuel exclusively for the dwelling on the same lot, or, if this does not seem to you, like a use commonly accessory or incidental to a dwelling house in Portland, it would be best for you to return the permit and refrain from starting construction.

It seems apparent that you have plan to line up the rear of the addition with the rear of the garage. Please bear in mind, however that no part of the new work (not even the overhang of eaves or drip) is allowed to be closer than 24 inches to your property line.

Very truly yours,

Inspector of Buildings.

GENERAL RESIDENCE ZONE - PERMIT ISSUED
APPLICATION FOR PERMIT

Class of Building or Type of Structure Third Class Permit No. MAY 29 1925

Portland, Maine, May 27, 1925

NOTES
 5/29/43 - Some of posts
 holes large. Blend dig
 The outside edge of the
 one hole is left to
 the cut line on the clay
 plaster dipping away
 about 2" from the
 edge of a 4" or stone
 foundation soil
 which is a fireproof
 wall of existing gar-
 age. It is likely that
 it is from the cut
 line. Evidently it
 is planned to erect
 this structure to
 line with rear wall

of garage. I don't know
 what a minimum of space
 is to be nor spacing
 of posts beneath 6x8
 sill. Perhaps permit
 can be issued with
 memo calling this
 attention to it here.
 Clearances and spacing
 of posts - Ag
 6/9/43 - Work about com-
 pleted. One rod plank
 floor has been pro-
 vided - Ag
