Attn: Mr. McDonald:

Dear Mr. McDonald,

We desire to erect a projecting type sign at 1041 Brigh'tn Ave. for Nicely's Super Market. This property is in a B42 zone and the zoning ordinance does not mention this type of sign as allowable.

Enclosed is a sketch of the proposed sign and a lot plan showing its location.

Mr. Nicely, as property owner, wishes to present this matter to the board of Appeals for their consideration, as this sign does not require a permit.

Very truly yours,

Nicely's Super Market  
1041 Brighton Avenue  
Portland Sign Company, Inc.  
181 Brackett Street

cc to: Corporation Counsel

Gentlemen:

While the sign does not require a building permit to cover its erection because the sign would advertise the place of business to which it is attached, the double-faced sign, each face a maximum of seven feet high and seven feet six inches wide, proposed to be attached to and project from the front of Nicely's Super Market at 1041-1043 Brighton Avenue is not allowable under the Zoning Ordinance because the property is in a B1 Business Zone, where, according to Sec. 8A of the Ordinance applying to such zones, a sign is not allowable unless affixed flat against the building; and because the sign would be set back about 22 feet from the street line (inside edge of existing or future public side-walk) instead of the 40-foot setback stipulated by Sec. 26 of the Ordinance.

Mr. Young has indicated the desire of the owner to seek a variance from the Zoning Board of Appeals. Such an appeal is filed at the office of Corporation Counsel where a copy of this letter will be found.

Although this sign does not require a building permit, because of the exceptions in the Building Code, since the Appeal Board is being asked to grant the sign, if the appeal is successful, we shall expect a detailed plan of the sign itself, and of its fastenings to and supports upon the building in somewhat the same manner as would be required if the sign were on the roof or projecting over the public sidewalk.

Very truly yours,

VARIANCE APPEAL

May 28, 1958

Charles Niceley, owner of property at 1041-1043 Brighton Avenue  
Petitions the Board of Appeals for a variance from the provisions of said Ordinance  
for erection of a double-faced sign, each face a maximum of seven feet high and seven  
feet wide, proposed to be attached to and project from the front of Niceley's Super  
Market. This permit is not issuable because the sign is not to be affixed flat against the  
front of the building or "share public side-walk" instead of the 40 foot setback stipulated by  
the provisions of Section 23 of the Zoning Ordinance.

LEGAL BASIS OF APPEAL: Such variance may be granted only if the Board of Appeals finds that the strict application of the provisions of the Ordinance would result in practical difficulties or unnecessary hardship in the development of property which are inconsistent with the intent and purpose of the Ordinance; that the granting of the variance is necessary in order to avoid confiscation and permit reasonable use of property; that there are exceptional or unique circumstances relating to the property that do not apply generally to other property in the same zone or neighborhood, which have not arisen as a result of action of the appellant subsequent to the adoption of the Ordinance; that property in the same zone or neighborhood will not be adversely affected by the granting of the variance; and that the granting of the variance will not be contrary to the intent and purpose of the Ordinance.

  
Charles Niceley  
APPELLANT

DECISION

After public hearing held June 13, 1958, the Board of Appeals finds that all of the above conditions do exist with respect to this property and that a variance should be granted in this case.

It is, therefore, determined that a variance from the provisions of the Zoning Ordinance should be granted in this case.

Dear Mr. Nicely:

The Board of Appeals will hold a public hearing on Friday, June 13, 1958, at 4:00 p.m. in the Council Chamber of the City Hall, Portland, Maine, to hear your appeal under the Zoning Ordinance.

Please be present or be represented at this hearing in support of this appeal.

BOARD OF APPEALS

TO WHOM IT MAY CONCERN:

The Board of Appeals will hold a public hearing in the Council Chamber at City Hall, Portland, Maine, on Friday, June 13, 1958, at 4:00 p.m. to hear the appeal of Charles Niceley requesting an exception to the Zoning Ordinance to permit erection of a double-faced sign, each face a maximum of seven feet high and seven feet six inches wide, proposed to be attached to and project from the front of Niceley's Super Market at 1041-1043 Brighton Avenue.

This permit is presently not issuable because the sign is not to be affixed flat against the building; and because the sign would be set back about 22 feet from the street line (inside edge of existing or future public side-walk) instead of the 40 foot setback stipulated by Section 20 of the Zoning Ordinance.

This appeal is taken under Section 23 of the Zoning Ordinance which provides that the Board of Appeals by unanimous vote may grant such a variance if it finds that the strict application of the provisions of the Ordinance would result in practical difficulties or unnecessary hardship in the development of property which are inconsistent with the intent and purpose of the Ordinance; that the granting of the variance is necessary in order to avoid confiscation and permit reasonable use of the property; that there are exceptional or unique circumstances relating to the property that do not apply generally to other property in the same zone or neighborhood, which have not arisen as a result or action of the appellant subsequent to the adoption of the Ordinance; that property in the same zone or neighborhood will not be adversely affected by the granting of the variance; and that the granting of the variance will not be contrary to the intent and purpose of the Ordinance.

All persons interested either for or against this appeal will be heard at the above time and place, this notice of required public hearing having been sent to the owners of property within 500 feet of the premises in question as required by the Ordinance.

Description: Some time ago, when addition to store was built, the Coca-Cola sign was erected without a permit approximately as shown on attached sketch. This may also be in violation of Z. Law depending on true size. Will write to Turner Jones who knows that he NOTES: must apply for belated permit.

The Jorden sign is about 10 ft. by 4 ft. was erected by United Neon without a permit more than a year ago. It is with little doubt in violation of the Z. Law. Talked with Mr. Jordan who claims ownership. Conference with Asst. Corpo. and Mr. Curry, and Mr. Curry is to have permit applied for with full design plan bearing designer's statement of design.

Have notified Mr. Nicely of these problems, and that probably zoning appeal is necessary.

1041 Brighton Ave.

Gentlemen:

While we cannot vouch for the fact that our records are exactly accurate, our record does show that the corner of Nicceley's Market toward Westbrook is precisely 15 feet from the street line of Brighton Ave. (inside edge of public sidewalk).

The sketch with the application shows the proposed telephone booth to be in front of the market and practically at this same corner. The Zoning Ordinance requires that a space between the street line and the building of at least 15 feet be kept unoccupied.

Obviously, if our records are right, the telephone booth would be an unlawful encroachment upon this front yard required to be 15 feet in depth.

Please attempt to get this matter cleared up. If you are absolutely sure of your measurements, please notify this office again so that we can check the true location.

Very truly yours,

Re: 1041 Brighton Avenue

Dear Sirs:

We recently received a complaint regarding handicap accessibility at your development located at 1041 Brighton Avenue.

An inspection has verified several problems. The mall has several concrete paths that slope from doors to a concrete sidewalk which measures 50" in width. The ANSI Code does require a landing from a slope to be 60" wide to facilitate turning in a wheelchair.

Also observed to be missing are the required handicap parking signs which are to be mounted on a vertical post.

Other items mentioned in the complaint are addressed to restroom accessibility at Subway Sandwich. I assume the lessee will be responsible for the renovation necessary to comply with the ANSI Code.

Please contact this office with 10 days to discuss the changes and when we might expect to see them underway.

Sincerely,
