Mr. Robert Moulton,
122 Hazel Street

cc to: Arthur Bernier,
35 Craigie St.

Dear Mr. Moulton:

Permit to construct a 13'x13' addition on rear of dwelling
and to construct a 12'x12' attached garage at the above location as
per plan received with application is being issued subject to compliance
with the following:

Besides the knockout fire protection between the garage
and the addition there will need to be a 1 3/4-inch solid
core wood door with self-closing device and a 6-inch raised
threshold or 6-inch step-up from the garage at the opening
between the garage and the addition.

Very truly yours,

Gerald W. Hayberry

AP 33-37 Craigie St. (Lot 32)--New Dwelling

The Minat Corporation
34 Preble St.

Gentlemen:

Building permits for superstructures of new dwellings at the above locations are issued subject to the following:

- the concrete base beneath front entrance is to extend at least four feet below the grade of the ground.
- depending upon the nature of the soil, adequate provision is to be made to spread the weight of the three inch pipe columns to be used for foundation of side porch.
- as arranged with Mr. Cope, on the higher section of the building (Garrison type) at least 6 20-penny spikes are to be used at three locations on each ceiling joist above second story--where the joist is spliced over bearing partition, and where the joist connects to rafters both front and back.
- at the front of the lower part of the building up-rights are to be used on each side of the wall running full height of the wall to the underside of the roof plate, and extra care is to be used to provide as many spikes as possible where corner or ceiling beams connect to both rafters.

Very truly yours,

Warren McDonald
