Dear Mr. Terry:

Permit to construct 1-story frame dwelling with attached two-car garage 75'x30'-8" is being issued subject to plans received with application and in compliance with building Code restrictions as follows:

1. Sills are to be bolted at corners and not more than six feet from center to center between corners.
2. Row of cross bridging or block bridging shall be installed at mid-span of floor joists.
3. Floor joists running parallel to non-bearing partitions and intended to support them shall be doubled wherever the net vertical area of the partition is 80 square feet or more.
4. A self closer is required on solid core door from the dwelling to the garage area.

Very truly yours,

A. Allan Soule
Field Inspector

Dear Mr. Terry:

In checking your application to construct a one-story frame dwelling with attached two car garage 75' x 30'8" we find that we are unable to continue processing your permit until further information is provided as follows:

1. A more detailed plan of the roof framing is needed to show how the ell on front and the end of the dwelling will be constructed.
2. What size headers will rafters on front of ell rest on? What kind and size of post on front of dwelling that supports roof of ell? 4"x4"
3. How are ceiling joists between the living room and dining room to be supported?
4. How much of a step down will there be from the kitchen to the garage floor? 1/2" 6"x6"

Very truly yours,

A. Allan Soule
