Dear Mr. Zuke,

Your recent application for a building permit to build a deck 9' X 12' at 12A Bradley Street is being held due to insufficient information in the following areas:

No construction plans were submitted with your application. We will need to know what size sono-tubes will be used showing them to be at least 4" below grade.  
We will also need structural plans showing the sizes of the joists and sills and how it will be connected to the existing building.

Please supply this office with the required information so that we may complete a plan review and issue a permit.
