APPLICATION FOR PERMIT FOR HEATING, COOKING OR POWER EQUIPMENT

Portland, Maine, December 2 1970

PERMIT ISSUED 445

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

City of Portland

The undersigned hereby applies for a permit to install the following heating, cooking or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location 15 Bradley St. Use of Building Dwelling No. Stories 2 New Building Existing 0
Name and address of owner of appliance Louis Garmari, 15 Bradley St.
Installer's name and address Walter Lewis, 142 Duck Pond Road Westbrook Telephone

General Description of Work

To install Oil-fired forced hot water boiler (replacement)
Basement

IF HEATER, OR POWER BOILER

Location of appliance basement Any burnable material in floor surface or beneath? none
If so, how protected? Kind of fuel? oil
Minimum distance to burnable material, from top of appliance or casing top of furnace 3'
From top of smoke pipe 3' From front of appliance over 4' From sides or back of appliance 2'
Size of chimney flue 8x12 Other connections to same flue none
If gas fired, how vented? Rated maximum demand per hour
Will sufficient fresh air be supplied to the appliance to insure proper and safe combustion? yes

IF OIL BURNER

Name and type of burner WeilMcLain-gunttype Labelled by underwriters' laboratories? yes
Will operator be always in attendance? Does oil supply line feed from top or bottom of tank? bottom
Type of floor beneath burner concrete Size of vent pipe 1 1/2"
Location of oil storage basement Number and capacity of tanks 275 existing
Low water shut off Make No.
Will all tanks be more than five feet from any flame? yes How many tanks enclosed?
Total capacity of any existing storage tanks for furnace burners

IF COOKING APPLIANCE

Location of appliance Any burnable material in floor surface or beneath?
If so, how protected? Height of Legs, if any
Skirting at bottom of appliance? Distance to combustible material from top of appliance?
From front of appliance From sides and bac. From top of smokepipe
Size of chimney flue Other connections to same flue
Is hood to be provided? If so, how vented? Forced or gravity?
If gas fired, how vented? Rated maximum demand per hour

MISCELLANEOUS EQUIPMENT OR SPECIAL INFORMATION

[Blank lines for miscellaneous information]

Amount of fee enclosed? 5.00 (Additional fee for heater, etc., in same building at same time.)

APPROVED:
12/2/70 [Signature]

Will there be in charge of the above work a person competent to see that the State and City requirements pertaining thereto are observed? yes

Dear Sir:

We have issued to Floyd L. Barnett a building permit to erect a one family dwelling house at 13-16 Bradley Street, and you are named as the contractor.

In his application, it is stated that he proposes to make the columns or piers in the cellar of concrete block. Please be referred to Section 254 of the Building Code which states that if isolated piers are to be built of hollow concrete block, the blocks must be solidly filled with concrete, and be governed accordingly.

Yours truly,

Inspector of Buildings

AP - 15 Bradley St. - New Dormer Window and other Alterations

Mr. Floyd L. Barnett
15 Bradley St.
Mr. Herbert McKenney
Gorham, Maine

Bert: It will be much appreciated on future jobs if you will apply for the permit in the name of the owner and give the necessary information. Mr. Barnett, with the best intentions in the world, gave us wrong information, and, as a result, there was much extra work here and considerable unnecessary delay in issuing the permit.

Gentlemen:-

Warren McDonald

Building permit for construction of dormer window and certain interior alterations in the above building is issued to Mr. Barnett, herewith, subject to the following conditions. If these conditions are not understood, or, if you are unable or unwilling to comply with them, it is important that you do not start the work but that you contact this office with more information to show compliance with the Building Code.

Mr. Barnett has given substantial alterations of his application over the phone, and we are attempting to issue the permit on the basis of them.

Instead of being a shed roof dormer with roof joists on spans of 13 feet, the dormer is to have a hip roof very similar to the dormer window now on the front and on the other side of the building.

Instead of just building the dormer window to serve a toilet room on the second floor, it is the intention to construct one or more non-bearing partitions to form a toilet room and another room in addition to the two finished rooms already existing on the second floor. It is important that Mr. McKenney notify this office of readiness of closing-in the interior of the new partition, ceiling and walls of the dormer and any other work intended to be closed in in connection with this job--before any of the closing-in whatever is started. None of the closing-in is to be done until our inspector has left his tag of approval at the job.

I believe Mr. Barnett said over the phone something about a relative living on the second floor. If there are to be any cooking facilities whatever on the second floor or anywhere else in the building other than in the existing kitchen, the building would then be classified as a two-family dwelling house, and a certificate of occupancy to that effect is required from this department before the additional living quarters, especially the cooking facilities, are established.

If there are to be additional cooking facilities, whether or not there is a sink, Mr. Barnett should file application for amendment to the permit now issued stating that fact and that the building will be a two-family dwelling house--this before the notice for closing-in inspection is given.

Very truly yours,

Warren McDonald
Inspector of Buildings
