File 2250-I

September 16, 1937

Mr. Luke Manette,
22 Caleb Street,
Portland, Maine

Dear Sir:

I am unable to issue the building permit to cover moving a portion of an existing poultry house to make an addition to an existing garage exactly as you have asked for it, because the portion of the poultry house is of such unsubstantial construction that the Building Code will not allow it to be attached to the garage which, it is understood, is of permanent construction.

It appears that the sills of the proposed addition are only double 2x4 and the studs are 2x3.

If you will revise your application to cover taking the former poultry house completely apart and constructing from the ground up the proposed addition, using whatever material may be used in the new work (the use of 2x3's will not be permitted in any part of the addition) and giving the framing of the proposed addition according to Building Code standards with 4x8 sills, 4x4 or doubled 2x4 corner posts, 2x4 studs in the outside walls not more than two feet from center to center and 2x4 rafters not more than twenty-four inches from center to center, and including the 4x8 header which you indicated in the original application, we shall be able to issue the permit.

The inspector reports that you have already started the work although there is no permit in your possession. This is illegal. Please refrain from any further work until the permit card is actually in your possession and posted upon the premises.

Very truly yours,

Inspector of Buildings.

McD/W.

STATEMENT ACCOMPANYING APPLICATION FOR BUILDING PERMIT

addition to 1 car garage for storage

22 Caleb Street

Date 9/15/37

1. In whose name is the title of the property now recorded? Luke Marretto
2. Are the boundaries of the property in the vicinity of the proposed work shown clearly on the ground, and how? unstakes
3. Is the outline of the proposed work now staked out upon the ground? --- If not, will you notify the Inspection Office when the work is staked out and before any of the work is commenced? ---
4. What is to be maximum projection or overhang of eaves or drip? 6"
5. Do you assume full responsibility for the correctness of the location plan or statement of location filed with this application, and does it show the complete outline of the proposed work on the ground, including bay windows, porches, and other projections? yes
6. Do you assume full responsibility for the correctness of all statements in the application concerning the sizes, design and use of the proposed building? yes
7. Do you understand that in case changes are proposed in the location of the work or in any of the details specified in the application that a revised plan and application must be submitted to this office before the changes are made? yes

Luke Marretto
