### Certificate of Occupancy

Date of Issue September 23, 1948

Issued to Victory Development Corp.,

This is to certify that the building, premises, or part thereof, indicated below, and built—  
~~under Building Permit No. 43/811~~ ~~at 145-147 Bancroft Street~~  
under Building Permit No. 43/811, has had final inspection, has been found to conform substan-  
tially to requirements of Zoning Ordinance and Building Code of the City, and is hereby approved  
for occupancy, limited or otherwise, as indicated below.

PORTION OF BUILDING OR PREMISES

APPROVED OCCUPANCY

One-family Dwelling House

Entire Building

Limiting Conditions:

This certificate supersedes  
certificate issued

Inspector of Buildings

Notice: This certificate identifies lawful use of building or premises, and ought to be transferred from  
owner to owner when property changes hands. Copy will be furnished to owner or lessee for one dollar.

BP 48/311-4.1st. #1-1

June 29, 1948

Victory Development Corp.  
37 Casco Street  
Portland 3, Maine

Subject: Amendment #1 to permit  
48/311 covering change in  
foundation wall at 145 Ban-  
croft Street

Gentlemen:

The amendment for the above work is issued herewith sub-  
ject to the following:

1. The footing beneath the 8" concrete trench wall is re-  
quired to be at least 12" thick instead of the 8" thickness shown.  
See Section 307c3.7 of Building Code.

2. It is noted that the foundation of the building is to  
rest partly upon ledge and partly upon earth. Wherever possible  
the walls should be carried down to ledge even though some extra  
excavation and concrete is required; but, if the ledge drops off  
too sharply to permit this to be done, care should be taken in  
preparing an adequate bearing for the foundation where the transi-  
tion from ledge to earth takes place.

Very truly yours,

Inspector of Buildings

*Raymond H. Brown*

AP 137-139, 141-143 and  
145-147 Bancroft Street-I

May 26, 1943

Victory Development Corp.  
37 Casco Street  
Portland 3, Maine

Subject: Permit for construction of three  
one-family dwellings at 137-139, 141-143  
and 145-147 Bancroft Street

Gentlemen:

The permits for the above work are issued herewith subject to the following:

1. The plans for constructing these buildings filed with the applications have been designated as Victory Development Corporation Standard Plan D and this designation may be used in future applications covering buildings to be erected under the same plans.
2. The upright 2x8 member of the box sill at the end of the floor timbers has been omitted from cross section of building shown on plan, but, of course, must be provided. The bolts for fastening the bottom member of the sill to the concrete wall are required to be provided at the corners and at intervals of not over 6' instead of the 8' noted on plans. Care must be taken in finishing off the top of the concrete foundation wall to provide a flat even bearing surface for the bottom 2x8 member of this sill.
3. Foundations extending at least 4' below grade by way of concrete wall or pier, cedar posts, or iron pipe columns not less than 3" in outside diameter are required beneath steps and platform.
4. It is not clear what framing is to be provided where the roof over front projection on building joins the main roof, as to whether valley rafters are to be provided or whether a timber is to be provided across kitchen to support the rafters of the main house and the rafters over the projection supported on them. Before any framing of building is started, it is necessary that information by way of a framing plan be furnished to show how this situation is to be taken care of.

Very truly yours,

Inspector of Buildings

AJS/S

CC: Mr. R. S. Honan  
R.F.D. #2  
So. Portland, Maine

CITY OF PORTLAND, MAINE  
Department of Building Inspection

June 24, 1948

Subject: SPECIAL REQUIREMENT OF NOTICE  
TO BUILDING DEPARTMENT AND CHECK  
AND APPROVAL OF LOCATION BEFORE  
FOUNDATION IS STARTED.

Location: 145 Bancroft Street  
141 Bancroft Street

Victory Development Corp.  
27 Casso Street,  
Portland, Maine

Gentlemen:

Due to carelessness in a number of cases in maintaining stakes or other marks of location of new buildings after our inspector had checked and approved the location as in compliance with the law, it becomes necessary to require that notice of readiness to pour concrete in foundation forms or of readiness to start laying unit masonry foundations be given at this office and that no pouring of concrete or laying of unit masonry be started until the location has been rechecked and approved.

Hereafter notice of this requirement will be given as a condition of issuing the building permit, but this notice is given to you by letter because you are responsible for the new building at above location for which permit has already been issued. It is my belief that the above job has not yet reached the stage of starting the actual foundation.

It is with great reluctance that this decision has been reached to require this recheck of location not only because it represents one more minor delay in construction work, but because it represents additional work for an already overburdened personnel in this department. It seems the only thing to do, however, because a number of cases have occurred where the actual foundation and part of the superstructure have been built in the wrong location. Thus carelessness, or perhaps honest mistakes on the part of a few, make necessary this additional precaution to serve neighboring property owners and the future owners of the new buildings.

Very truly yours,

*Warren W. McDaniel*

Inspector of Buildings
