AP 132-136 Caspian Street-1

October 27, 1951

Bond Realty Company, Inc.
18 Monument Square
Portland, Maine

Copy to: Bond Realty Company for use
of Foreman on Job

Gentlemen:

Building permit for construction of a single family dwelling with attached breezeway and garage on the lot at 132-136 Caspian Street is issued herewith based on the plans filed with the application for permit. It is noted that these plans are similar to those filed with the application for a previous permit which were designated as your Standard Plan A. This permit is therefore issued subject to the conditions listed in a letter sent with the previous permit, as follows:

1. The sills of the garage are to be 4x6, all one piece in cross section, instead of the 2x6 shown on the plans.
2. On the basis that the girders are to be full size 6x8 as given in the application for permit, the lally column shown between the end of the fireplace chimney and the rear foundation wall of the building may be omitted if desired.
3. The rafters of both dormer windows are to be 2x8 spaced 20" on centers as given in the application instead of 2x6, 20" on centers as shown on plans.
4. Since the second floor joists over the living room are to run parallel to the front and rear walls of the building, provision will need to be made to provide a tie across the building from front to rear at the plate line of that section.
5. Floor of breezeway is to be framed with at least 4x6 sills and no less than 4x6 plates are to be provided for support of the outer ends of the rafters of the breezeway.

Very truly yours,

Warren McDonald
Inspector of Buildings

INSTRUCTIONS

- First - The applicant is to complete front of this form. The Tax Map Reference can be found on your Real Estate Tax Bill directly following owners name and address in the center of your Property Tax Bill. Billing name and address should be copied from your Water & Sewer Bill as well as the Portland Water District Account Number which is in the lower left corner of the Water and Sewer Bill.
- Second - Mail completed application form to
 City of Portland
 Dept. of Publ. Works
 422 City Hall
 Portland, Maine 04101
 ATTN: MR. WILLIAM GOODWIN
- Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (below) will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded to the City Plumbing Inspector and one will be filed back to the Applicant. If the application is denied, one copy will be made and mailed to the applicant showing reasons for denial.
- Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install a sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 775-5451 Ext. 234 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Water District will be requested to seal the sub-meter and arrange to have an automatic reading system (if applicable - See General Information) instituted where by the volume shown by the sub-meter will be credited on the Sewer User Charges of the Bill.

GENERAL INFORMATION

Section 322.60 of the "Municipal Code of the City of Portland, Maine" reads as follows:

Submetering of Water Volume. Any person who feels that recorded water records are not a reliable index of his discharge volume may install an additional water meter of a type approved by the District to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting meter readings not less often than every two months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be accessible for reading by the City or its agents at all reasonable times.

The City and the District have arranged to relieve the customer from the reporting responsibility required above if both meters can be read simultaneously by the District Meter Readers during their regularly scheduled visits to read the pre-existing service meter. This can be accomplished by locating the sub-meter directly adjacent to the pre-existing service meter or by equipping the sub-meter located elsewhere with a remote reading register located so both readings can be made at the same time.

Approved meters are: Neptune and Rockwell meters, conforming to the following specifications:

1. shall meet or exceed ANSI accuracy test requirements and be accompanied by a certificate of test accuracy.
2. the meters will have straight reading, cubic foot registers.
3. the meters will have the meter number stamped into the main case.
4. the meters shall be magnetic drive
5. shall have either a nutating disc or oscillating piston.
6. shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District pays them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

TO BE COMPLETED BY PUBLIC WORKS
