(a) In General No building intended for use as a habitation shall be erected on a lot which has its only street frontage on a street less than thirty-five (35) feet wide. No building shall be erected on a lot, except on the islands in Casco Bay, which does not abut a street meeting the minimum requirements for street improvements set forth in this section. For purposes of this section, street shall be as defined in section 14-47, except that a dedicated street which may no longer be accepted due to lapse of time and an accepted street which may have been discontinued by abandonment shall also be deemed to be streets, provided that an applicant for a building permit respecting any lot abutting such street shall, without compensation or claim for damages, and at his own cost and expense, first submit to the building authority (a) a deed from the owner of such lot conveying to the city all his right, title and interest in and to such street or any portion thereof; and (b) an agreement by such owner forever releasing the city from any and all claims for damages for the laying out and taking of such street and indemnifying the city against any and all other such claims, both such instruments to be executed and in recordable form acceptable to the corporation counsel and to encumber and run with the land.

(b) Minimum Requirements for Street Improvements on Unimproved and Improved But Unpaved Streets. For a lot abutting any portion of a street which is unimproved or improved but not permanently paved, that portion which abuts the lot, and any like portion between such portion and the nearest permanently paved street or portion which is the principal access to such lot, shall be improved, including sewers, storm drains, pavement, curbs and, if located on a designated school walking route, sidewalks, in accordance with the minimum technical standards promulgated by the public works authority pursuant to section 14-498(a) of article IV of this chapter. Where the nearest permanently paved street does not have granite curbing, the public works authority may waive the requirement of curbing under this section if it determines that an acceptable alternative drainage plan will be provided.

Portland Resource Recovery Project  
Turbine and Administration Building Foundation

Gentlemen:

Enclosed please find the following information for our application for a permit to construct the concrete foundations for the Turbine and Administration building foundations for the above referenced project:

DRAWINGS: 4 prints of each

ECS-1302 Turbine / Generator Mat Plans & Details Rev. 1  
ECS-1307 Turbine / Administration Building Foundation Rev. 0

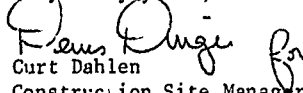

The following specifications have been previously transmitted to you in our transmittal dated July 7, 1986:

SS-1 Structural Steel Supply                      SS-9 Concrete Testing & Evaluation  
SS-3 Miscellaneous Metals                      SS-10 Reinforcing Steel Supply  
SS-8 Concrete Supply and Construction

Also enclosed is our check for the amount of \$500.00 made payable to the City of Portland for the cost of the permit. Our estimated cost to construct the building is \$96,000.00

If you have any questions or require any additional information, please feel free to contact us at 775-5072

Very truly yours,

  
Curt Dahlen  
Construction Site Manager
