Mr. and Mrs. Arthur Hanson
16 Buttonwood Lane
Portland, Maine 04102

Dear Mr. and Mrs. Hanson:

This will acknowledge receipt of your application for a variance (Space and Bulk) for review by the Board of Appeals. This matter will be considered by the Board at their next regular meeting on Thursday evening, February 11, 1988, in Room 209 City Hall, Portland, Maine, at 7 P.M. A copy of the agenda for that meeting will be mailed to you as soon as copies become available for distribution.

Your variance request consists of a request to allow a seven and a half foot setback between the proposed sunroom at the rear of your residence and the inground swimming pool instead of the ten foot setback which the City Zoning Ordinance requires in Section 14-432(3).

Please be prepared to answer the four criteria defining "undue hardship" which appear on the enclosed application form when your item is considered at the public hearing on February 11th. Perhaps you can then provide a better photograph of the site showing the area at the rear of your house, which is where the sunroom will be located.

Sincerely,

Warren J. Turner

Mr. and Mrs. Arthur Hanson
16 Buttonwood Lane
Portland, Maine 04102

Dear Mr. and Mrs. Hanson:

At the meeting of the Board of Appeals on Thursday evening, February 11th, the Board voted by a unanimous vote of five members present to deny your request for a space and bulk variance at your residence at 16 Buttonwood Lane. If it had been granted, you would have been allowed a 7½ foot setback between your propose sun-room addition and the inground swimming pool, which is already in place.

We regret that our reply to you can not be more favorable, but the action of the Board of Appeals is final.

Sincerely,

Warren J. Turner

BUILDING PERMIT REPORT

ADDRESS: 16 Buttonwood Lane DATE: 21/APR/89

REASON FOR PERMIT: renovations - deck

BUILDING OWNER: Arthur & Irene Hanson

CONTRACTOR: Northwood Assoc.

PERMIT APPLICANT: _____

APPROVED: *6 *7 *8 *9 DENIED: _____

CONDITION OF APPROVAL OR DENIAL:

- 1.) Before concrete for foundation is placed, approvals from Public Works and Inspection Services must be obtained.
- 2.) Precaution must be taken to protect concrete from freezing.
- 3.) All vertical openings shall be enclosed with construction having a fire rating of at least one(1) hour, including fire doors with self-closers.
- 4.) Each apartment shall have access to two(2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
- 5.) The boiler shall be protected by enclosing with one(1) hour fire rated construction including fire doors and ceiling, or by placing over the boiler, two(2) residential sprinkler heads supplied from the domestic water.
- *6.) Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches (1118 mm) above the floor. All egress or rescue windows from sleeping rooms must have minimum net clear openings of 5.7 square feet (0.53m²). The minimum net clear opening height dimension shall be 24 inches (610 mm). The minimum net clear opening width dimension shall be 20 inches (508 mm).
- *7.) In addition to any automatic fire alarm system required by Sections 1018.3.5, a minimum of one single station smoke detector shall be installed in each guest room, suite or sleeping area in buildings of Use Groups R-1 and I-1 and in dwelling units in the immediate vicinity of the bedrooms in buildings of Use Group R-2 or R-3. When actuated, the detector shall provide an alarm suitable to warn the occupants within the individual unit (see Section 1717.3.1).

In buildings of Use Groups R-1 and R-2 which have basements, an additional smoke detector shall be installed in the basement. In buildings of Use Group R-3, smoke detectors shall be required on every story of the dwelling unit, including basements.

In dwelling units with split levels, a smoke detector installed on the upper level shall suffice for the adjacent lower level provided the lower level is less than one full story below the upper level. If there is an intervening door between the adjacent levels, a smoke detector shall be installed on both levels.

All detectors shall be installed in an approved location. Where more than one detector is required to be installed within an individual dwelling unit, the detectors shall be wired in such a manner that the actuation of one alarm will actuate all the alarms in the individual unit.

* 8.) Private garages located beneath rooms in buildings of Use Groups R-1, R-2, R-3 or I-1 shall have walls, partitions, floors and ceilings separating the garage space from the adjacent interior spaces constructed of not less than 1-hour fire-resistance rating. Attached private garages shall be completely separated from the adjacent interior spaces and the attic area by means of 1/2-inch gypsum board or equivalent applied to the garage side. The sills of all door openings between the garage and adjacent interior spaces shall be raised not less than 4 inches (102 mm) above the garage floor. The door opening protectives shall be 1 3/4-inch solid core wood doors or approved equivalent.

* 9.) A guardrail system located near the open side of deck or elevated walking surfaces shall be constructed. Guards in buildings of Use Group R-3 shall be not less than 36 inches in height. Open guards shall have intermediate rails, balusters or other construction such that a sphere with a diameter of 6 inches cannot pass through any opening.

10.) Section 25-135 of the Municipal Code for the City of Portland states: "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year.

11.) The builder of a facility to which Section 4594-C of the Maine State Human Rights Act, Title 5 M.R.S.A. refers, shall obtain a certification from a design professional that the plans of the facility meet the standards of construction required by this section. Prior to commencing construction of the facility, the builder shall submit the certification to the Division of Inspection Services.

Sincerely,

P. Samuel Hoffes
Chief of Inspection Services
