cc to: Mr. & Mrs. Richard K. Newell
Paine Road
West Scarborough, Maine

Dear Mr. Cagne:

Permit to construct a 2-story frame dwelling 28'x45' with attached open carport 19'x21' is being issued subject to plans and computations submitted with application and further Building Code compliance as follows:

1. The following minimum clearances will need to be maintained from the chimney to combustible material throughout its height.
1" at the sides.
2" at the back.
2. The hung platform at the front entrance. We will need to know what is to be used for hangers and the means of attachment to the beams above.
3. 4" extra heavy pipe will need to be used for columns at the carport instead of the 3 1/2" diameter lally columns indicated.

Very truly yours,

Archie L. Seekins
Deputy Building & Inspection Director

Memorandum from Department of Building Inspection, Portland, Maine

472-486 Capisic Street—Construction of a single family dwelling, breezeway and garage for Frank Casasa by C. E. Waring & Son

September 11, 1953

Building permit for construction of a single family dwelling, breezeway, and attached one car garage on the lot at 472-486 Capisic Street is issued herewith based on the plans filed with the application for permit but subject to the following conditions:

1. There is no indication as to the size of headers to be used over the two picture windows in the front wall of the building. The permit is issued on the basis that the header for each of these windows is to be not less than 4x8.

2. We understand that there are to be supports between each section of the flexivent windows shown in the side and rear walls of the dwelling. If this is not the case, information as to size of headers to be used over these openings is to be provided before framing is started.

3. Since no valley rafters are indicated for roof framing, it is assumed that the roof framing of the projecting rear gable is to be extended into the building far enough so that the rafters of the main roof can be supported on top of it. The permit is issued on this basis.

To The Health Officer:

Application for building permit identified as above has been filed in this office; indicating that a septic tank installation is proposed, as a means of sewage disposal. Applicant represents that connection to a public sewer is not feasible. Copy to owner and contractor is attached.

Your approval as to the method of sewage disposal is requested before a building permit is issued, therefore will you complete and return the appended report as expeditiously as possible.

September 4, 1953

Copy to: Health Officer

Mr. Frank Casasa,
22 Devon Street,

H. E. Waning & Son
349 Woodford St.,
Portland, Maine

Gentlemen:

Application today by Mr. Waning to construct a dwelling house and garage at Capisic Street (Assessors Lots 259-C-1-6) indicates that no connection is possible to a public sewer, and that sewage disposal is proposed by septic tank.

The Building Code directs, where connection to a public sewer is not possible, that the proposed method of sewage disposal must be approved by the Health Officer before any building permit is issued.

That the Health Department may be aware of the proposed method of sewage disposal, you should explain, by plan or otherwise, the details and location of the septic tank system, including nature of the soil where overflow lines will be located, to Sanitary Engineer Norman Winch.

Very truly yours,

WMcD/H

Inspector of Buildings

Mr. Richard Newell
480 Capisic St.
Portland, ME 04102

re: 484 Capisic St.

Dear Sir:

Your application to extend the garage to make a two-car garage has been reviewed, and a permit is herewith issued subject to the following requirements: This permit doesn't preclude the applicant from meeting applicable State and federal laws.

No Certificate of Occupancy can be issued until all requirements of this letter are met.

1. Before concrete for foundation is placed, approvals from Inspection Services must be obtained. (A twenty-four hour notice is required prior to inspection.)

2. This permit doesn't authorize any increase in the number of dwelling units.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
Chief of Inspection Services
