Mr. Andrew H. Godaro
74 Adams Street

Dear Mr. Godaro:

Permit is being issued to construct a one and one-half story frame dwelling house 24'8" x 30' with an overhang of 1'6" x 13' subject to the following:

1. The 25 foot front yard required as a condition of your recent appeal is to be measured from the street line to the wall of the 1'6" overhang at the front of the building.
2. The parking area is required to extend a minimum distance of 18 feet beyond the 25 foot front yard setback.
3. The porch foundation is to be of 9" Sonotubes extending four feet below grade and six inches above. Three inch pipe columns are to extend from the concrete piers to the 4x6 inch solid sill.
4. The house at this location is to have the style "B" eaves overhang.
5. The 4x10 solid header over the picture window which you plan to use is approved.

Very truly yours,

Gerald E. Mayberry
Deputy Inspector of Buildings

GEH/H

AP- 66-6C Row Avenue -

Sept. 19, 1960

Mr. Andrew R. Gedaro
74 Adams Street

cc to: Corporation Counsel

Dear Mr. Gedaro:

Building permit for construction of a single family dwelling approximately 25 feet by 30 feet on a lot 60 feet wide and 110 feet deep at the above named location is not issuable under the Zoning Ordinance because a minimum lot width of 65 feet is required by Section 4-B-9 of the Ordinance applying to the R-3 Residence Zone in which the property is located. Plot plan also indicates that the setback from the street line is to be only 20 feet instead of the 25 feet specified by Sect. 4-B-4 of the Ordinance. While the plot plan also indicates that the setback of the existing house on the adjoining lot is also 20 feet from the street line, records in this office indicate that this setback is actually 25 feet. If the setback of the existing dwelling is less than 25 feet, a permit can be issued for a setback for the proposed dwelling of the average of 25 feet and the setback of the existing building. If a setback less than that average is desired, it would have to be authorized by the Board of Appeals. Unless there is some compelling reason, it does not seem likely that the Appeal Board would be willing to approve less than a 25-foot setback.

If you wish to exercise your appeal rights concerning one or both of these discrepancies, you should go to the office of the Corporation Counsel in Room 208, City Hall, where appeals are filed and where a copy of this letter is being sent.

Very truly yours,

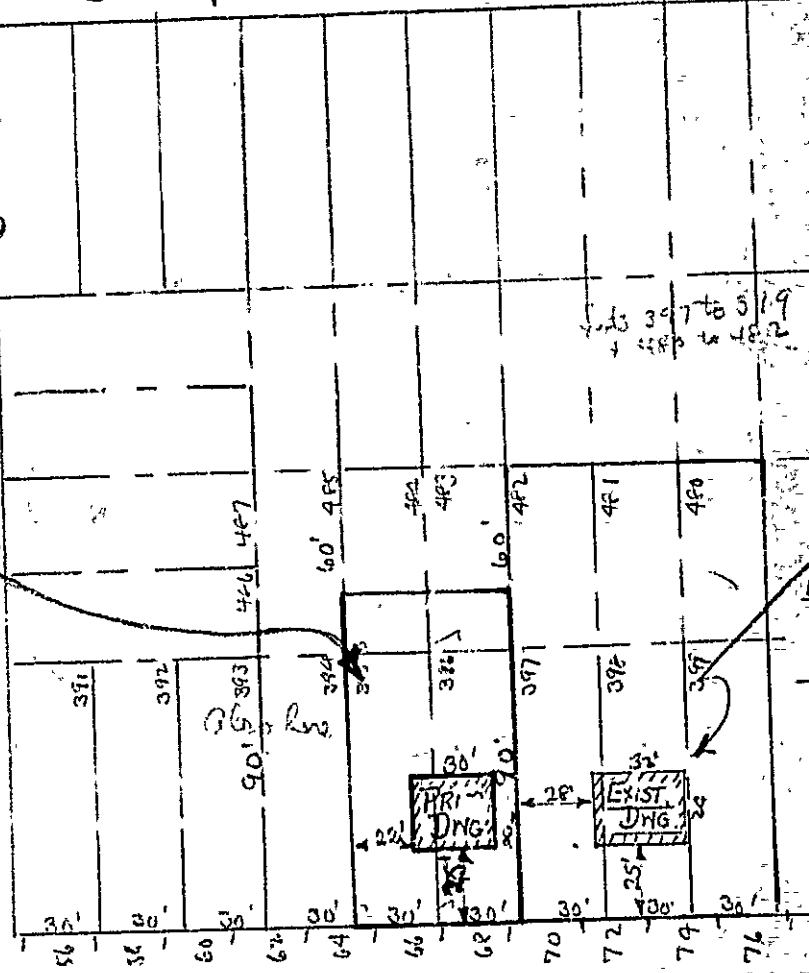

Albert J. Sears
Inspector of Buildings

CITY OF PORTLAND, MAINE
BOARD OF APPEALS

MISCELLANEOUS APPEAL

Sept. 20, 1960

Andrew R. Gedaro, owner of property at 66-68 Rowe Avenue,
under the provisions of Section 23 of the Zoning Ordinance of the City of Portland, hereby
respectfully petitions the Board of Appeals to permit construction of a single family
dwelling approximately 25 feet by 30 feet on a lot 60 feet wide and 110 feet deep at this
location. This permit is presently not issuable because a minimum lot width of 65 feet is
required by Sec. 4-B-9 of the Ordinance applying to the R-3 Residence Zone in which the
property is located and a setback of only 20 feet is to be provided instead of the minimum
of 25 feet specified by Section 4-B-4 of the Ordinance.

LEGAL BASIS OF APPEAL:

Such permit may be granted only if the Board of Appeals finds that enforcement of the terms
of the Ordinance would result in undue hardship and desirable relief may be granted without
substantially departing from the intent and purpose of the Ordinance.

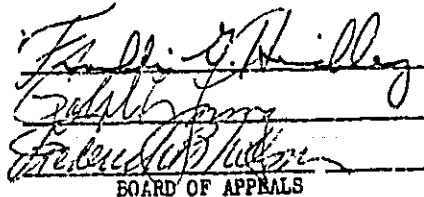

APPELLANT

DECISION

After public hearing held September 29, 1960, the Board of Appeals finds that enforcement
of the terms of the Ordinance would result in undue hardship and desirable relief may be granted
without substantially departing from the intent and purpose of the Ordinance provided that
the dwelling shall not be located closer than 25 feet to the street line.

It is, therefore, determined that exception may be granted in this case provided that the
dwelling shall not be located closer than 25 feet to the street line.

Samandy Construction Company
28 Norwood Street

cc to: Corporation Counsel

Gentlemen:

We are unable to issue permits for construction of a building 24 feet by 30 feet at each of the above named locations because each plot of land in question, consisting of two recorded lots each having a width of 30 feet, is only 60 feet wide instead of the 75 feet width specified by Section 4-8-10 of the Zoning Ordinance applying to the R-3 Residential Zone in which the property is located and because the area of each plot is only 5400 square feet instead of the 6500 square feet specified by Section 4-8-8.

If the owner is interested in exercising his appeal rights concerning these discrepancies, we suggest that you consult the Corporation Counsel, at whose office in Room 208, City Hall, appeals are filed.

Very truly yours,

Warren McDonald
Inspector of Buildings

AJS/jg
