Gentlemen:

Permit to cut in a 40"x40" opening as per plan is issued  
herewith provided you supply us with information concerning  
the type of header to be used over the opening.

Please have your engineer sign the enclosed certificate of  
design for the pre-cast header which I assume you will use  
over the opening.

Very truly yours,

Earle S. Smith  
Plan Examiner

Nelson E. Gortwright

Inspector

R.G.S.

Inspector of Buildings

Notice: This certificate identifies lawful use of building or premises, and ought to be transferred from  
owner to owner when property changes hands. Copy will be furnished to owner or lessee for one dollar.

*Please file*  
Store #2 (next to Canal Bank) at Pine Tree Shopping Center

Jan. 15, 1960

AJS:

Mr. Blair, Vice-Pres. of the Shopping Center owners, phoned today to say that they had two doctors interested in establishing their joint offices in Store #2, and could they use wood stud partitions for sub-divisions. He was told that they could not and at some length the general Building Code requirements as to class of construction for large areas. It was suggested that he could use 4" cinder blocks or the like. He complained that they could not get the appropriate decoration and ornamentation which the doctors would like. It was explained to him that we would go into the matter more thoroughly but any partitions with a combustible frame could not be used.

He said that one of the doctors, Dr. Wyatt and William Mahoney, former engineer during shopping center construction, would be in Portland about 10:30 Monday, January 18th and would like to meet you or me to see what could be worked out to satisfy the prospective tenants and still comply with the Building Code.

W McD

1/18/60 - Mr. Mahoney, Engineer, and Doctor Wyatt and Mahoney and Contractor John Robinson of Weall work were in to-day. After discussing several approaches to the use of combustible partitions allowable under the Building Code, it was decided that partitions constructed with steel studs and covered with gypsum wall board would be used. If plywood or bannistering was used, it will be stuck directly to wall board backing. Mr. Robinson will apply for permit for work. Ceiling system of combustible acoustic tile similar to that in use of building to be used.
