Gentlemen:

The following is the additional information that you requested in connection with my application to construct a garage addition to the existing office building at 13 Campbell Rd.

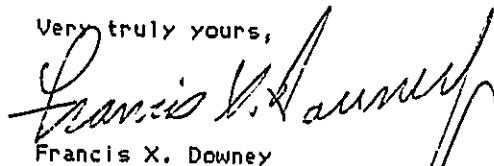

1) The framing will be of two by fours, 16" on center. The framing around the overhead door will be two by twelve with a 5/8" plywood core. The framing for the side door will be two by six with a 5/8" plywood core.

2) The roof trusses will be a pre-manufactured type by Wood Products of Biddeford and will be located 2' on center. The roof pitch will be 5/12" and the live load rating according to the manufacturer will be 50 lbs. per square foot.

3) The fire wall against the present building, in accordance with Lt. Collins instructions, will be framed with two by fours, again 16" on center with both sides of the wall sided with 5/8" fire-rated sheet rock which will afford a one hour rating. The door and the door frame that will be part of this wall, will also have a one hour fire rating and will be so stamped.

Should you require any additional information, I can be reached at 781-4439. My mailing address is 43 Carroll St., Falmouth, Maine 04105.

Very truly yours,

Francis X. Downey
