Lot 7 Birchvale Drive

August 27, 1973

B & M Construction
33 Allen Avenue

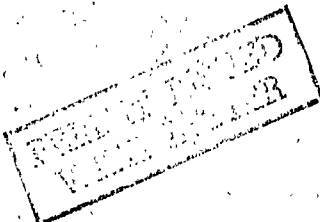

Gentlemen:

We are unable to process your application to construct a 2-story family dwelling, 24' x 77' at the above named location because no plot plan was submitted with this application. If you will bring this plan in we will be glad to proceed to check the requirements of the Zoning requirements and the Building Code.

Very truly yours,

A. Allan Soule
Assistant Dir. Building & Inspection Services

AAS:m

PERMIT ISSUED
WITH LETTER

45-49

Lot 7 Birchvale Drive

Sept. 13, 1973

B & M Construction, Att: Robert Hamilton
33 Allen Avenue

Gentlemen:

Building permit to construct a 2-story frame one family dwelling 24' x 77', including attached garage and breezeway, is being issued subject to plans received with the application and in compliance with Building Code restrictions as follows:

1. We will need to know before a form inspection is called for, how the porches are to be framed.
2. We will also need to know what type of foundation is to be provided for the porches.
3. We assume that box sills are to be provided for this dwelling and not just a 2x6" member as shown on the plans and have been stated on the application.
4. Anchor bolts are required at each corner and not more than 6" from center to center between corners.
5. Bridging is required in that area where the floor joists exceed 14' of clear span.
6. Your plans do not show how the floor joists are to be supported on the girder. It is assumed that you are going to use steel hangers. If this is not so, let us know how these joists are to be supported before you ask for form inspection.
7. Your plans show that the rafters will have a rise of 7/12 however, the application states the rise will be 4/12, either way, 2x6 rafters spaced 16" o. c. do not figure out. If rise is 7/12, then rafters will need to be at least 2x8" members 16" o. c. If the pitch is 4/12 or less, rafters will need to be at least 2x6, spaced 12" o. c. or larger member is required.

B & M Construction

Page 2

Sept. 13, 1973

8. Strapping is required over the living room area on the first floor and over the bedroom area directly above on the second floor. This is to provide a tie from the front to the rear of your dwelling on this building.

Very truly yours,

A. Allan Soule
Assistant Director Building & Inspection
Services
