cc: Corporation Counsel

Dear Mr. Seeley:

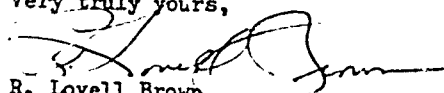

As you were recently requested by the Fire Department to supply a certificate indicating that your tent had been satisfactorily fireproofed and as that request has not been met and is a mandatory part of the permit request you have made, and the permit has not been issued to you because of this, you are now advised the use of this tent shall cease until the Fire Department and the Inspector of Buildings are satisfied that you have met with their request.

This violation is in accordance with the Building Code Section 205 which states that when any violation of this Code is found or when any structure, device or object within the jurisdiction of this Code is found to be weakened or out of repair so as to threaten danger the Inspector shall notify the party responsible for the violation or the party in control of the dangerous situation and shall order such change, repair or alteration as deemed necessary to correct the violation or permanently correct the dangerous condition.

In accordance with Section 206.1.2 the Inspector may order the owner to correct the dangerous condition as provided as above and in accordance with Section 206.1.3 he may order a closing order in the interest of public safety, the dangerous structure to be closed and that use of such to be discontinued.

The continuance of use of this tent beyond receipt of this notice will mean a Court order.

Very truly yours,

File R.4401B-I

May 27, 1935

Mr. C. A. Silver,  
72 Holm Avenue,  
Portland, Maine.

Dear Sir:

Following my letter to you of May 21, 1935 concerning the garage at 66 Holm Avenue and referring to the application for a permit to move this garage to a lot on Dale Street in the name of Chester A. Woodis, I understand that you have sold or given this garage to Mr. Woodis, but Charles F. Wilbur represents to this office that you did not own the building.

This Department has no intention of entering into any controversy between two individuals. Neither do we intend to issue a permit for any building construction contrary to the wishes of the owner of the building. If you can establish beyond a reasonable doubt that you owned the building and had a right to sell it or dispose of it in any way to Mr. Woodis, will you explain those rights to the undersigned as soon as possible.

I also find that when the garage was originally built, the studs in the outside walls were placed flat, that is the two inch dimension was placed at right angles to the face of the wall instead of parallel with it as is the usual procedure. This type of construction does not lend itself to keeping the building in shape while it is being moved, and I am doubtful that the building can be moved without going entirely out of shape. Furthermore when you secured the permit to construct the building you agreed on the application for the permit to cover the outside walls with asphalt roofing. This has not been done. The outside walls are covered with tarred paper held in place with wooden battens.

If you are able to prove ownership of the building it will still be necessary for you to brace the building thoroughly so as to withstand the strain of moving before the permit is issued.

How many cars now accommodated on same lot none, to be accommodated 1

Total number commercial cars to be accommodated none

Will automobile repairing be done other than minor repairs to cars habitually stored in the proposed building? no

Miscellaneous

Will above work require removal or disturbing of any shade tree on a public street? no

Will there be in charge of the above work a person competent to see that the State and City requirements pertaining thereto are observed? yes

INSPECTION COPY Oliver C. Wilbur Signature of owner Chester A. Woodis

OFFICE OF FIRE DEPT.

Mr. C. A. Silver --2

In the meantime it is illegal for you to take any steps toward moving or demolishing the building until the permit card is actually in your possession and posted upon the premises.

Very truly yours,

McD/H

File Inquiry 66 Holm Ave.  
Permit 34/1656-I

Mr. C. A. Silver,  
c/o Mr. Small  
72 Holm Avenue,  
Portland, Maine.

Dear Sir:-

With reference to the garage which you erected at 66 Holm Avenue last Fall, under building permit No. 34/1656, I have information that you are trying to dispose of this building either to be demolished and the material removed from the premises or to move the building bodily from the premises.

This letter is to advise you that before the building may be legally demolished or moved from the premises, a permit is required from this Department whether the work is done by yourself or some other person. Also, we have information that there is a question as to the ownership of this building and before any such permit is issued it will be necessary to establish beyond a reasonable doubt just who the owner of the building is. If it is the intention to move the building bodily, there is a question about the structural soundness of the building to be moved as the building was not built very substantially in the first place.

Very truly yours,

Inspector of Buildings.

May 25, 1935

Charles F. Milbur,  
Gorham,  
Maine

Dear Sir:-

Referring to your call at this office a few days ago concerning the garage at 60 Main Avenue, a permit was issued for today to move this building to property presently owned by Charles F. Woods on Main Street.

A day or two will elapse before we are in a position to issue the permit, and I am asking Mr. Silver to establish his rights to the building. In the meantime if you are interested in the matter it will be well for you to establish beyond doubt your ownership of the building.

This office cannot enter into any controversy between two individuals, and, after a reasonable time if we do not hear from you and Mr. Silver is able to establish reasonably his right to dispose of the building, I shall feel inclined to issue the permit.

Very truly yours,

Inspector of buildings.

Dear Sir:

Referring to the private garage which you secured a permit for on March 28th, 1927, an Inspector from this department reports that you have covered the roof of this garage with wooden shingles, and that you have set up a stove in the garage apparently for heat with an unlawful vent cut in the roof, both of these conditions being in violation of the Building Ordinance of the City of Portland, and of your signed application for a permit on file in this office.

If these details are not remedied in accordance with law on or before December 15th, 1927, it will be the duty of this office to complain against you for violation of the Building Code.

Very truly yours,

Inspector of Buildings
