Copy to: Easternoil & Equipment Co.
27 Portland St.

Dear Madam & Gentleman:-

We are issuing to Easternoil a permit to cover installation of a steam boiler and oil burning equipment at 879 Brighton Ave. to be used in connection with pressing machine and retail pressing and tailoring business there.

The application by Easternoil indicates that the boiler and oil burning equipment are to operate dry cleaning equipment. However, this property is located in a Local Business Zone under the Zoning Ordinance where use as a dry cleaning plant is not allowable. I have just called Mr. Abbey who says that he is merely to conduct a retail pressing and tailoring business there and that there will be no dry cleaning attempted on the premises.

The permit is issued on that condition.

Very truly yours,

Warren McDonald
Inspector of Buildings

ADDRESS _____

PRESENT USE OF BUILDING _____

CLASS OF CONSTRUCTION _____ NO. OF STORIES _____

REMARKS: there are two buildings on this property used for filling stations

purposes--one sort of an office, storage etc., the other building is a small

service garage lubricating automobiles

INQUIRY: Can a retail business and service of furnishing and installing glass in

motor vehicles be conducted on these premises? The installing and other parts of the

business would be conducted in the rear part of the large building where there are

no facilities for drive -in. In good weather the glass would be installed in the

open air. In bad weather the glass would be installed in the small lubritorium. This

business is to be retail, installing the glass directly for the owners of the motor

vehicles and not indirectly for other repair garages for their customers.

ANSWER: These are allowable uses.

City of Portland, Maine
Board of Appeals
--ZONING--

Denied
5/16/52

52/43

.....April 30....., 1952

To the Board of Appeals:

Your appellant, Marie Addario, who is the owner of property at 879 Brighton Avenue, respectfully petitions the Board of Appeals of the City of Portland to permit an exception to the regulations of the Zoning Ordinance relating to this property, as provided by Section 18, Paragraph E of said Zoning Ordinance.

Permit to authorize construction and maintenance of eight temporary and portable stands (each about 2' wide by 5' long and standing 3'6" above the ground) for the display of goods for sale in front of the retail store at 879 Brighton Avenue and to include the location and maintenance of a portable sign in the space between the front of the store and the street line of Brighton Avenue, is not issuable under the Zoning Ordinance because the temporary stands would be closer than 125' to the Residence C Zone which lies 100' from Brighton Avenue and because the stands and sign would constitute an encroachment upon the front yard required to be kept open the full width of the lot between the store and the street line.

The facts and conditions which make this exception legally permissible are as follows:

An exception is necessary in this case to grant reasonable use of property and can be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

Marie Addario
By *Marie Addario*
Appellant

After public hearing held on the 16th day of May, 1952, the Board of Appeals finds that an exception is not necessary in this case to grant reasonable use of property and can not be granted without substantially departing from the intent and purpose of the Zoning Ordinance.

It is, therefore, determined that exception to the Zoning Ordinance may not be permitted in this specific case.

Mr. H. Merrill Luthé,
Chairman Board of Appeals,
Portland, Maine.

My dear Mr. Luthé;

May we enter our objections to the granting of permission asked for by the owners of property at 879 Brighton Avenue to place advertising signs and fruit stands in the front of the store located at the same address.

Our objections are based on the unsightliness of a display of this nature and these signs, if permitted to be placed as requested by the owner or owners, will obstruct a person's vision going from Kent Street into Brighton Avenue, thus making a hazardous driving condition.

Yours very truly,

Corporation Counsel ✓

Dear Mrs. Addario:

Building permit to authorize construction^{and} maintenance of eight temporary and portable stands (each about 2' wide by 5' long and standing 3'-6" above the ground), these stands to be for display of goods for sale in front of the retail store at 879 Brighton Avenue, corner of Kent Street, is not issuable under the Zoning Ordinance and the locating and maintaining of a portable sign in the space between the front of the store and the street line of Brighton Avenue is not allowable under the Zoning Ordinance because:

1. The temporary stands would be closer than 125' to the Residence C Zone which lies 100' from Brighton Avenue; contrary to Section 15E of the Ordinance.
2. The stands and a sign would constitute an unlawful encroachment upon the front yard required to be kept open the full width of the lot between the store and the street line of Brighton Avenue, according to Section 6B of the Ordinance, applying to the Local Business Zone where your property is located.

Mr. Bernstein has indicated your desire to seek an exception from the Board of Appeals; so there is enclosed an outline of the appeal procedure.

It is to be borne in mind that the permit for the temporary stands, if issued, will allow the stands to be maintained only six months in this year, at the expiration of which time they will have to be removed. If the same arrangement were desired for not more than six months next year, similar procedures would be necessary, then.

Very truly yours,

Warren McDonald
Inspector of Buildings

CITY OF PORTLAND, MAINE
BOARD OF APPEALS

May 6, 1952

TO WHOM IT MAY CONCERN:

The Board of Appeals will hold a public hearing in the Council Chamber, City Hall, Portland, Maine on Friday, May 16, 1952 at 10:30 a. m., Daylight Saving Time, to hear the appeal of Merie Addario requesting exception to the Zoning Ordinance to permit the construction and maintenance of eight temporary and portable stands, each about 2' wide and 5' long and standing 3'6" above the ground, for the display of goods for sale in front of the retail store at 879 Brighton Avenue, and also to permit the location and maintenance of portable sign in the space between the front of the store and the street line of Brighton Avenue.

This permit is not issuable because the temporary stands would be closer than 125' to the residence C Zone which lies 100' from Brighton Avenue and because the stands and sign would constitute an encroachment upon the front yard required to be kept open the full width of the lot between the store and the street line.

This appeal is taken under Section 191 of the Zoning Ordinance which provides that the Board of Appeals, by unanimous vote of its members, may permit exceptions in specific cases so as to grant reasonable use of property where necessary to avoid confiscation and without substantially departing from the intent and purpose of the Zoning Ordinance, subject always to the rule that said Board shall give due consideration to promoting public health, safety, convenience, and welfare, encouraging the most appropriate use of land and conserving property values, that it shall permit no building or use injurious, noxious, offensive, or detrimental to a neighborhood, and that it shall prescribe appropriate conditions and safeguards in each case.

All persons interested either for or against this appeal will be heard at the above time and place, this notice of required public hearing having been sent to the owners of property within 500 feet of the premises in question as required by law.

Portland, Maine

Dear Madam & Gentlemen:-

On May 16th, the Zoning Board of Appeals denied the Zoning Appeal with relation to location of temporary stands and a sign at 879 Brighton Ave., corner of Kent Street, and under these circumstances I am unable to issue the permit for the temporary stands anywhere on the property.

The objection to the sign was that it was proposed and has been located in what is called the front yard of the store, which is the space between the front wall of the building and the street line of Brighton Ave. (inside edge of public sidewalk toward the building) from the street line of Kent Street the full width of the Addario lot. Thus you are not permitted to have the sign in this area, and the same objection exists under the Zoning Ordinance to having the sign in the area between the building and the street line of Kent Street along the side of the building.

The night before the public hearing you still had the sign, or perhaps a different sign located in the front yard. This sign or any other that you may decide upon is to be kept out of the front yard and the side yard toward Kent Street.

At the same time I noted that the temporary stands in question were piled in the rear of the building. Since these may not now be used in the open air on the property, I suggest that they be disposed of off the property entirely.

The proprietors of the Market are well aware that one of the principal objections of the neighborhood, expressed at the public hearing, was the matter of unsanitary and disreputable conditions in the rear of the store, by way of rubbish and especially by way of garbage in open containers. While this is not the field of this department, it is to be hoped that you will clear up the entire situation and keep it clear.

Very truly yours,

Inspector of Buildings

Corporation Counsel

Dear Mrs. Addario:

Building permit to authorize construction^{and} maintenance of eight temporary and portable stands (each about 2' wide by 5' long and standing 3'-6" above the ground), these stands to be for display of goods for sale in front of the retail store at 879 Brighton Avenue, corner of Kent Street, is not issuable under the Zoning Ordinance and the locating and maintaining of a portable sign in the space between the front of the store and the street line of Brighton Avenue is not allowable under the Zoning Ordinance because:

1. The temporary stands would be closer than 125' to the Residence C Zone which lies 160' from Brighton Avenue, contrary to Section 15E of the Ordinance.
2. The stands and a sign would constitute an unlawful encroachment upon the front yard required to be kept open the full width of the lot between the store and the street line of Brighton Avenue, according to Section 6B of the Ordinance, applying to the Local Business Zone where your property is located.

Mr. Bernstein has indicated you desire to seek an exception from the Board of Appeals; so there is enclosed an outline of the appeal procedure.

It is to be borne in mind that the permit for the temporary stands, if issued, will allow the stands to be maintained only six months in this year, at the expiration of which time they will have to be removed. If the same arrangement were desired for not more than six months next year, similar procedures would be necessary, then.

Very truly yours,

Warren McDonald

Portland, Maine

Dear Madam & Gentlemen:-

It appears that the smaller of the two filling station buildings at 875 Brighton Avenue not only has a small sign on the roof advertising general automobile repairs, but such repairs are being carried on in the building. This is contrary to both the Building Code and the Zoning Ordinance.

Under the Building Code establishing a repair garage is not allowable in a wooden frame building, such as this one is. Even so, a permit should have been applied for at this department before the change was made from a lubritorium to a repair garage at which time it would have been found out the change would be in violation of the law.

Under the Zoning Ordinance the property is located in a Local Business Zone where a repair garage is not allowable use of premises, as provided by Section 6 of the Zoning Ordinance, applying to Local Business Zones.

It is important that the sign be taken down and all such use of the premises be discontinued permanently.

The record shows that the smaller of the two buildings was only allowed in 1935 after successful petition to the Municipal Officers of the City, and the use then allowed was a lubritorium only. That use, of course, may be continued.

Violation of Zoning Ordinance at 879 Brighton Ave., corner Kent Street

An exasperating and somewhat defiant violation of the Zoning Ordinance is taking place, and continues after notice, at the above location, by way of displaying goods for sale on stands in the front yard space of the store building there and by way of a large sign occupying the space required to be kept clear by corner clearance requirements in the Local Business Zone where the property is located. The tenant evidently means to continue this violation over the week end, there being a victualer's license here; and would have a stimulating effect on the attitude of the neighborhood toward the practical effectiveness of the law, if he could be stopped immediately.

Section 6P of the Zoning Ordinance requires by reference that there be a yard 15 feet in depth in front of the building extending the entire width of the lot, that there be on each side of the building a yard at least 7 feet wide. This building complies very closely with these requirements both at the front and at the side toward Kent Street. The Ordinance also provides that a triangle on private property be kept clear at the intersection of the street lines, formed by measuring back ten feet along each street line from their point of intersection and joining the two points thus established.

Despite my notice to them yesterday, and a promise from them to immediately discontinue these encroachments, today at noon they had some 7 or 8 stands in front of the store containing fruit and produce, these stands projecting from the front of the store three or four feet into the front yard. The large sign was obviously in the corner clearance area. Last evening these same conditions existed and in addition there was a large pile of cartons in the space between the building and Kent Street.

The owner, whom I have been unable to contact by phone, is Mrs. Marie Adario of 234 Taft Avenue. She leases the store to Archie W. L'Heureaux of 147 McKinley Street, South Portland, who sub-lets the greater part of the front of the store to Big Ben Markets, Inc.-Pres., William Kovensky of Raymond; Vice-Pres., Louis Kovensky of 100 Anthoine St., South Portland, reas., Joseph Stillman (inactive) of 98 Exchange Street.

As above, these spaces are required, and with reference to Section 203d2.1 of the Building Code, to be kept open for the full required length, width, depth and area from their lowest point to the sky unobstructed. Section 18j of the Zoning Ordinance seems to make the Kovenskys responsible for this violation.

Signature of owner James Kovensky

AP 879 Brighton Avenue
(Roof Sign)

April 24, 1952

Messrs. William and Louis Kovensky
879 Brighton Avenue
Portland, Maine

Mr. Raymond Bean
48 North Harriner Street
South Portland, Maine

Gentlemen:-

The plan accompanying application for permit to erect a roof sign about 2' high by 16' long on the roof of the store at 879 Brighton Avenue is far inadequate to show compliance with Building Code requirements for strength and permanency, and, in fact, to show precisely how you propose to frame and erect the sign.

You will need a finished and complete plan made after the usual manner of making plans, to a definite scale, showing the size and spacing of all members, the precise method of connecting the members of the sign itself together, the method of connecting the frame to the roof structure and the method in detail of connecting the roof structure through to the rafters of the roof.

The plan should be made by somebody capable of figuring the strain and stress of the materials and of working out the details of connections, who shall attach his signed statement of design to the plan.

It is my impression that this sign is proposed on the front of the hip roof facing Brighton Avenue, although I also have the impression that the sign which you started without a permit was to face the side street. That is not particularly important, but the plan should show clearly where the sign is to be located on the roof and how it is to be secured to the existing roof framing, not the roof boarding.

When I talked with Mr. Kovensky about the sign, he had in mind an addition to the straight sign, something on top of it resembling a clock, which he said would contain about 16 square feet. Evidently, you have abandoned that part for the time being, but it should be clear to you that all that you want should be applied for now, as a permit would be required for any addition and almost any addition to the sign now indicated on the application would be contrary to the Zoning Ordinance.

Very truly yours,

Inspector of Buildings

WMOd/G

C-50-60-I
(869-879 Brighton Avenue)
6/15/50/T

June 9, 1950

Mr. Antonio Addario
234 Taft Avenue
Portland, Maine

Dear Mr. Addario:

An inspector from this office reports that a temporary booth or stand about 5' x 12' has been constructed in front of and attached to the store at 869-879 Brighton Avenue which you are reported to own.

Beyond the fact that this stand has been erected without first securing a building permit from this department, it is in violation of the Zoning Ordinance because it encroaches unlawfully upon the space required to be left open between the front of the store and the street line (inside edge of public sidewalk) of Brighton Avenue, according to Section 6B of the Zoning Ordinance; and because it is a temporary stand located closer than 125' to the Residence C Zone at the rear of the property, according to Section 15E of the Ordinance, the property where the stand is located being in a Local Business Zone.

When such a violation of the Zoning Ordinance is found, I am directed to report the violation to the Corporation Counsel of the City for whatever action to get compliance with the law he deems necessary. I suspect, however, that whoever erected this stand and whoever is maintaining it are doing so without knowing the requirements of law in connection therewith.

You are reported to own this property, and it is necessary for me to require that you have this stand completely removed before June 15, and thus avoid a report to and proceedings on the part of the Corporation Counsel of the City.

Very truly yours,

Warren McDonald

Appeal sustained
5/6/55
Winn
357.7

Appeal to the Municipal Officers to Change the Decision of the

Inspector of Buildings Relating to the Property Owned
875-877
by George S. Norton at 875 Brighton Avenue

April 25, 1955

To the Municipal Officers:

Your appellant, George S. Norton
875-877

who is the Lessee of property at 875 Brighton Avenue

respectfully petitions the Municipal Officers of the City of Portland to change the decision of the Inspector of Buildings relating to this property, as provided by Section 13, Paragraph c. of the Zoning Ordinance, on the ground that the enforcement of the ordinance in this case involves unnecessary hardship and because relief may be granted without substantially derogating from the intent and purpose of the Zoning Ordinance

The decision of the Inspector of Buildings denies a permit to construct a one story building for lubricating motor vehicles on the ground that the proposed building is an addition to filling station use of the property which is nonconforming under the Zoning Ordinance in the Local Business Zone where the property is located.

The reasons for the appeal are as follows: The appellant is lessee of this filling station property which was constructed under special permission of the City Council after petition by the owner together with written consents of neighboring property owners. The filling station has existed for several years and has maintained a pit in the open air for lubricating motor vehicles. This pit has fallen out of repair and is not adequate because it has no shelter from the weather. It is the belief of the appellant that a new substantial pit to be covered over with a suitable building will be an addition to the property rather than a detriment to the neighborhood.

We, the undersigned, living within the distance set
opposite our respective names, of the filling station at
Nason's Corner, now operated by George S. Norton, do hereby
consent to the said Norton erecting another building on said
premises to be used by him to cover up the oil pit now on
said premisses, and to act as a lubritorium.

May 8, 1935

To The Municipal Officers:

The Committee on Zoning and Building Ordinance Appeals to whom was referred the appeal of George S. Norton with relation to the construction of a building for lubricating motor vehicles at 375-377 Brighton Avenue, reports as follows:

It is the belief of this Committee that failure to grant this permit involves unnecessary hardships and that desirable relief may be granted without substantially derogating from the intent and purpose of the Zoning Ordinance.

It is recommended therefore that the appeal be sustained and that the permit be granted subject to full compliance with all terms of the Building Code.

May 7, 1955

File Receipt No. 4172B-I

Mr. George S. Horton,
709 Congress Street,
Portland, Maine.

Dear Sir:-

Your appeal with relation to the construction of a lubricating building at 875-877 Brighton Avenue was sustained by the Board of Municipal Officers on May 6, 1955.

I note that you have not filled in fully the information required in the application for the permit. Please have this information all filled in without delay showing the proposed framing of the building, etc. and also furnish a plan of the proposed pit showing especially the slope of the floor, the location, size and material of the ventilating duct and the location and height of fan to be used for exhaust. The floor of the pit should slope toward the intake of the duct. In other words the intake should be at the low point of the floor of the pit. The duct and the fan should be designed to theoretically change the air in the pit at least every three minutes.

Please furnish this information completely as soon as possible in order that we may be in position to issue the permit.

Very truly yours,

McD/H

Inspector of Buildings.
