ABOVE-GROUND POOL

Blue Ridge

The perfect combination of quality and affordability. The BLUE RIDGE is designed to complement any backyard. Its classic blue woodgrain wall is enhanced by a white pool frame with two-piece top clamp.

The Wall ...

The BLUE RIDGE is produced from alkaline cleaned steel with G-90 hot dip galvanized protection for years of dependable corrosion-free use. The classic blue wood grain wall is lithographed over a two coat paint system that is formulated to resist weathering and corrosion.

The Frame ...

The 6" topseats and uprights are constructed from heavy gauge steel with a G-110 hot dip galvanized coating. The pool frame has a three coat protective paint system with a white baked enamel finish. The bottom rim features galvanized steel construction with a baked enamel finish that resists weathering and corrosion year after year. The BLUE RIDGE's two piece seat clamp with baked enamel finish adds strength to the pool frame and a quality appearance to this affordable pool.

Assembly ...

The unitized frame assembly is engineered with interlocking top and bottom rims for extra strength. All joints are secured by cadmium coated machine screws for optimum frame strength.
