INSPECTION COPY

Rept. 44806-I

June 3, 1939

Mr. S. C. Stevens,
21 Aldworth Street
Portland, Maine

Dear Sir:

I am unable to issue the building permit to cover construction of a proposed summer house at 21 Aldworth Street because the information as to framing which you have given on the application is so incomplete that I cannot tell whether you propose to build the building according to Building Code requirements or not.

You had some disagreement with our permit clerk as to what is required. May I remind you that it is our duty to apply the Building Code as it has been adopted as law, and the Code contains certain specific requirements even for such a small building as you propose. Until you give us enough information and that information is found to reasonably comply with the requirements, we are not allowed under the law to issue your permit.

I suggest that you make a pencil sketch in perspective showing all framing members, spaces and spans in the floor and sills together with the location of the posts for the foundation.

In the meantime it is illegal for you to proceed with any of the work until the permit card is actually in your possession and posted upon the premises.

Very truly yours,

WMcD/H

Inspector of Buildings

CITY OF PORTLAND, MAINE
BOARD OF APPEALS

MISCELLANEOUS APPEAL

Granted 5/16/58
58/47
May 6, 1958

Charles Knudson, owner of property at 19-21 Aldworth Street under the provisions of Section 23 of the Zoning Ordinance of the City of Portland, hereby respectfully petitions the Board of Appeals To permit construction of a platform without roof about $5\frac{1}{2}$ feet by 6 feet at a distance back from the street line of about $3\frac{1}{2}$ feet in a jog at the front of the dwelling. This permit is not issuable because such construction would be an unlawful encroachment upon the required front yard set back of 25 feet specified by Section 4-B-4 of the Zoning Ordinance applying to the R-3 Residence Zone in which the property is located.

LEGAL BASIS OF APPEAL:

Such permit may be granted only if the Board of Appeals finds that enforcement of the terms of the Ordinance would involve practical difficulty or unnecessary hardship and desirable relief may be granted without substantially departing from the intent and purpose of the Ordinance.

Charles A. Knudson
APPELLANT

DECISION

After public hearing held May 16, 1958, the Board of Appeals finds that enforcement of the terms of the Ordinance would involve practical difficulty or unnecessary hardship and desirable relief may be granted without substantially departing from the intent and purpose of the Ordinance.

It is therefore, determined such permit should be issued.

NOTES

11/16/84
 Chief of Insp. again
 refuses to issue in
 answer to a complaint
 inspected the location of
 the garage & talked with the
 owner. The note was
 returned to him. The
 garage company calls
 Jim Johnson for a look
 & side walks etc. then places
 their slab, returns some times w/ it's
 later to build. In this case they were
 concerned with a sudden drop in temp
 to a freezing condition so after checking
 with the building dept. placed the slab.
 This is a set of it that enters onto
 an unaccepted dirt street the owner can
 enter from either Aldworth St or
 Baydon St; this street has a
 history of community conflict of who
 can deposit waste - maintain it
 etc. As requested under complaint.

BUILDING PERMIT REPORT

ADDRESS: 21 Alderth St DATE: 8/sep/91
REASON FOR PERMIT: To construct a 26'x32' garage
with breezeway
BUILDING OWNER: Eugene E White
CONTRACTOR: owner
PERMIT APPLICANT: "
APPROVED: *1 *9

CONDITION OF APPROVAL:

*1.) Before concrete for foundation is placed, approvals from Public Works and Inspection Services must be obtained.

- 2.) Precaution must be taken to protect concrete from freezing.
- 3.) All vertical openings shall be enclosed with construction having a fire rating of at least one(1) hour, including fire doors with self-closers.
- 4.) Each apartment shall have access to two(2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
- 5.) The boiler shall be protected by enclosing with one(1) hour fire rated construction including fire doors and ceiling, or by providing automatic extinguishment. Sprinkler piping serving not more than six sprinklers may be connected to a domestic water supply system having a capacity sufficient to provide 0.15 gallons per minute, per square foot of floor throughout the entire area. An INDICATING shut-off valve shall be installed in an accessible location between the sprinkler and the connection to the domestic water supply. Minimum pipe size shall be 3/4 inch copper or 1 inch steel. Maximum coverage area of a residential sprinkler is 144 square feet per sprinkler.
- 6.) Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches (1118 mm) above the floor. All egress or rescue windows from sleeping rooms must have minimum net clear openings of 5.7 square feet (0.53m²). The minimum net clear opening height dimension shall be 24 inches (610 mm). The minimum net clear opening width dimension shall be 20 inches (508 mm).
- 7.) All single and multiple-station smoke detectors shall be of an approved type and shall be installed in accordance with the provisions of the building code (BOCA National Building Code 1990, and N.F.P.A. 74).

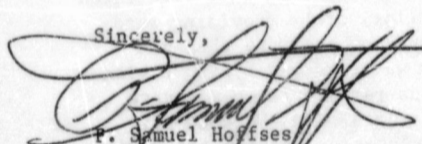

8.) Private garages located beneath rooms in buildings of Use Groups R-1, R-2, R-3 or I-1 shall have walls, partitions, floors and ceilings separating the garage space from the adjacent interior spaces constructed of not less than 1-hour fire-resistance rating. Attached private garages shall be completely separated from the adjacent interior spaces and the attic area by means of 1/2-inch gypsum board or equivalent applied to the garage side. The sills of all door openings between the garage and adjacent interior spaces shall be raised not less than 4 inches (102 mm) above the garage floor. The door opening protectives shall be 1 3/4-inch solid core wood doors or approved equivalent.

*9.) A guardrail system located near the open side of deck or elevated walking surfaces shall be constructed. Guards in buildings of Use Group R-3 shall be not less than 36 inches in height. Open guards shall have intermediate rails, balusters or other construction such that a sphere with a diameter of 4 inches cannot pass through any opening. Handrails on stairs shall be no less than 34 inches nor more than 38 inches. Handrails within individual dwelling units shall not be less than 30 inches nor more than 38 inches.

10.) Section 25-135 of the Municipal Code for the City of Portland states: "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year.

11.) The builder of a facility to which Section 4594-C of the Maine State Human Rights Act, Title 5 M.R.S.A. refers, shall obtain a certification from a design professional that the plans of the facility meet the standards of construction required by this section. Prior to commencing construction of the facility, the builder shall submit the certification to the Division of Inspection Services.

Sincerely,

P. Samuel Hoffses

MONACO - LIFESTYLE™

Anyone nostalgic for the vanishing art of craftsmanship will appreciate the elegance and durability of the Monaco. It is a logical step forward into the world of the style conscious nineties. The secret is a heavy hot-dipped galvanized steel construction plus a glamorous protective layer of textured vinyl on the frame and the wall. The beauty of the Arctic Ice White Resin seats contrasts smartly with the Contemporary Grey. Structurally, it's HOME & ROAM at its best. Our unique construction locks the wall with interlocking top and bottom wall channels, and utilizes this assembly with the frame. The seat joints are covered with an exclusive triangulated seat clamp, which is contour engineered to hold to the top seats by bolting back onto the vertical uprights. But most important is the Patented Series 300 Stainless Steel Panel that extends the life of the wall... far into the next century. The Monaco is tangible evidence that you don't have to sacrifice quality for good looks. Designed to be architecturally compatible with today's homes—this pool is perfect for everyone's backyard... especially yours.

MONACO SPECIFICATIONS:
