 1. Increase of the 4:1 slope extension to 3:1 **CODE**

Section 9.3 (c) Bed Width
 1. Bed Width **CODE** **FEET**
 If (1.) is coded nothing greater than 30 feet is to be allowed and no increase in bed width is allowed for original ground slopes in excess of 8 per cent.

STATEMENTS

STATEMENT OF OWNER

I, _____ the undersigned, am the owner of the property indicated in the application and state that the property is not for sale in the foreseeable future. I understand that the installation explained above and illustrated on the HHE-200 FORM accompanying this request is not in total compliance with the Maine State Plumbing Code. This system is to replace an existing direct discharge or subsurface wastewater disposal system. Should the proposed replacement system malfunction or create any nuisance or environmental problems or affect my water supply, I release all concerned with this waiver provided they have performed their duties in a reasonable and proper manner. Further, should a malfunction occur, I will take every step possible to correct it.

Charles P. Blouin 10-2-79
Signature of Owner Date
Charles P. Blouin

STATEMENT OF SOIL EVALUATOR

I, PHILIP D. SPILLER the undersigned certify that the information I have submitted on the HHE-200 FORM accurately represents the conditions that exist on the applicant's property. A waiver to the Maine State Plumbing Code is necessary since no system can be installed which will completely satisfy all Code provisions.

Philip D. Spiller SEP 7 1979
Signature of Soil Evaluator Date

Municipality's Findings

The proposed system (does) (does not) conflict with any municipal or shoreland zoning ordinances, and has been shown to the Code enforcement Officer.

CONCLUSIONS

I, _____ the undersigned, have visited the above property and find that it is not possible to conform to certain provisions of the Plumbing Code. The waiver request submitted by the applicant is the best alternative for a replacement subsurface wastewater disposal system on this property.

Based upon my conclusions, I permit the installation of the sewage disposal system as proposed and shown on the HHE-200 FORM.

Samuel J. [Signature] 10/2/79
Signature of Local Plumbing Inspector Date

WAIVER CONDITIONS

- A. **APPLICABILITY.** These variances relate to existing single family dwellings only. Any variances requested on the reverse side of this application must maintain as near as possible the requirements of the Part II, Plumbing Code on "Subsurface Wastewater Disposal Regulations". For example, if a disposal area can be 90 feet from the owner's well then the 90 feet is to be allowed; not the bare minimum of 60 feet. If the restriction is such that it is less than the requirements here given, then a state variance is required. Any variances or waiver requests not covered in this agreement involving other types of structures or other conditions require submission to the Division for review. All local ordinances must be complied with.
- B. **SOIL EVALUATOR'S RESPONSIBILITIES.** The property shall be visited by a qualified soil evaluator who shall investigate the site and complete the HHE-200 FORM recommending a wastewater disposal system which can best conform with the requirements of the Code. The investigator shall inform his client that a waiver is required and indicate so on the HHE-200 FORM. He should then refer his client to the local Plumbing Inspector.
- C. **LOCAL PLUMBING INSPECTOR'S RESPONSIBILITIES.** The Local Plumbing Inspector shall review the soil evaluation HHE-200 FORM and complete the waiver request form attached. Once it is determined that the waiver request is the most practical approach to correcting the applicant's problem, the Local Plumbing Inspector shall see that the statement portions of the waiver form are completed by the homeowner and the soil evaluator before giving final approval.
- D. **RECORDS.** A copy of the waiver request forms and the associated HHE-200 FORMS shall be provided to the homeowner, the soil evaluator, the L.P.I. for the municipal files, and other copies determined to be necessary, with the original copy forwarded to the Division with a copy of the plumbing permit.
- E. **LOG OF WAIVERS ISSUED.** The plumbing inspector shall maintain a chronological log of all waivers granted. The total of the waivers granted for each calendar year shall be noted in the annual report which is submitted to the town and to the Division.
- F. **SECTION OF THE CODE WHICH CAN BE WAIVED.** The authority of issuing waivers at the municipal level is restricted to those sections specifically identified on the check-off portion of the waiver request form.
- G. **RESCINDING OF WAIVER RIGHTS.** If the Division, in its review of these waivers, finds that a local plumbing inspector or soil evaluator exceeds the limits and limitations spelled out in this agreement, the Division will remove this privilege from that individual.
- H. **HOLDING TANKS.** The Local Plumbing Inspector is authorized to permit the use of holding tanks in replacement situations (not to include privies) where this is the most practical alternative to serve an EXISTING SEASONAL, SINGLE FAMILY DWELLING. A minimum of 1500 gallon holding tank, along with associated alarms, may be permitted by the local plumbing inspector.

Dept of Building Inspection
City Building
Portland, Me.

Gentlemen:

In conjunction with our request, through Cimino Construction Co., Inc., for a certificate of occupancy for the new WLOB building at 779 Warren Avenue, Portland, the following stipulation is offered:

At no time will there be more than twenty (20) persons at work in this building.

As a matter of fact, because of the operation of broadcast stations on a shift basis, it is highly unlikely that there will be more than 12-15 persons in the building at any one time.

Sincerely,

Melvin Stone

Cimino Construction Company
407 St. John Street

cc to: Casco Broadcasting Company
645 A Congress Street

Gentlemen:

Upon inspection of the above job on Jan. 23, 1963, the following omissions were found:

1. No permits secured from this office for the oil burner, heating system or mechanical ventilating systems.
2. No vestibule latchset on entrance door.
Could find no evidence of anchors on roof joists.
3. No exit signs. (See letter issued with permit- Nov. 7, 1962)

When the above items have been cared for and this office notified for another inspection, and, if at that time all is found in order the certificate of occupancy required by law will be issued.

Very truly yours,

Earle S. Smith
Field Inspector

AP - R 695-789 Warren Ave.

November 2, 1962

Cimino Construction Co.
407 Congress Street
St. John
Gentlemen:

cc to: Cagoc Broadcasters Corp.
645a Congress Street

Permit for construction of a one story masonry radio studio and transmitter building 50 feet by 60 feet at the above named location is issued herewith subject to the following conditions:

1. Ventilation in accordance with Plumbing Code requirements is to be provided for inside toilet rooms.
2. Vestibule latch sets or equivalent are required on front and rear exit doors. *- See letter from NCB*
3. Exit signs adequate in number and location to indicate location of rear exit door and route to follow to reach it are required.
4. *Note* Incombustible fire-stopping is required at ceiling line between wood strapping used on inside of masonry walls.
5. Where roof joists run parallel to walls, they are required to be anchored to walls at intervals of not over eight feet by strap anchors at least 3/8 inches by 1 1/2 inches and long enough to engage at least three joists.
6. Unless a masonry bond is to be used, brick veneer is to be tied to concrete block backing with ties of at least number six gauge galvanized after bending and spaced not over 16 inches vertically and 12 inches horizontally or equivalent.
7. Separate permits issuable only to the actual installers are required for installation of heating and air conditioning systems and for erection of the roof sign.
8. *Rec'd 11/6/62* Before notification is given for check of forms prior to pouring concrete for foundation walls, a statement of design signed by person taking responsibility for design of structural steel and reinforced concrete is to be filed at this office for affixing to the plans.

Very truly yours,

Albert J. Sears
Director of Building Inspector

Oct. 31, 1962

Casco Broadcasters Corporation
645a Congress Street
Simino Construction Company
107 St. John Street

cc to: Norman F. Winch
Health Dept.

Gentlemen:

Because of lack of access to a public sewer at the above named location for connection of sewage facilities for the proposed radio studio and transmitter house, it will be necessary to use a septic tank sewage disposal system. Under the provisions of Section 103-G-3 of the Building Code, it is necessary that the method of sewage disposal be approved by the Health Department before issuance of any permit.

Apparently the Health Department has not as yet been consulted concerning the proposed sewage system. Therefore, it is suggested that Mr. Winch of that department be informed as soon as possible of the details of the system so that arrangements can be made for its approval and allow issuance of the building permit when check of plans against Building Code requirements has been completed.

Very truly yours,

Albert J. Sears
Building Inspection Director

(date) November 2, 1962

Location R. 695-789 Warren Ave. Description Inter Radio & Transmitter House

Owner and Address Casco Broadcaster Corp., 645a Congress Street

Contractor and Address Cimino Construction Co., 407 St. John St.

Architect or Engineer and Address _____

Actual Area of Lot _____ Sq. Ft. Zone _____

Area required by Zoning Ord. if sewer were available _____

Where septic tank systems are required for sewage disposal, the Zoning Ordinance provides that the least allowable area of the lot shall be determined by the rate of percolation of the soil, this being the capacity of the soil to allow liquids to pass through as determined by tests. The Building Code directs that, where a septic tank is to be used, a building permit shall not be issued unless the proposed method of sewage disposal has been approved by the Director of Health.

Since application for the above permit indicates that connection to a sewer is not possible, it is necessary for the owner or his agent to file a site plan with the Health Department, to explain the method of sewage disposal proposed, and to make arrangements for a percolation test to be made under supervision of that department.

After the rate of percolation has been determined, the Director of Health will notify this department of the area of lot required on the basis of the results of the test. If the lot area required by the tests is equal to or less than the actual area of the lot and not less than the minimum lot area required in the zone in which the property is located for cases where connection to a sewer is available, the building permit can be issued; otherwise the permit cannot be issued unless authorization is secured from the Board of Appeals.

Albert J. Sears
Inspector of Buildings

2 copies to Health Director

(This space for Health Department use)

Inspector of Buildings

Rate of Percolation is 1 1/2 minutes. On this basis area required by Zoning Ordinance is _____ sq. ft.

Comments in event zoning appeal is filed: Special subsurface sand filter will be built.

Feb. 4, 1963

cc to: Casco Broadcasters Corporation
645a Congress Street

Gentlemen:

Application for belated permit for installation of an oil burning forced warm air heater in new building at the above named location indicates that the fuel oil supply tank is located underground outside the building. An inspector from this department reports that the tank has been installed and buried without the inspection required by the Building Code, and that the entire installation has been made before issuance of the required permit.

Making this installation without first having the required permit in your possession is a violation of the Building Code, as you must be aware. Our inspector also reports that he has previously found a number of instances where your company has made installations before issuance of the required permits. If you continue to carry on such unlawful operations in the future, I shall find it necessary without further notice to you to report the violations to the Corporation Counsel for the taking of such legal action as he may deem advisable.

As regards this particular installation, it is necessary that you either uncover the tank so that inspection can be made as to its depth below grade, its coating with asphalt, the Underwriters' label if it bears one, etc. or that an affidavit be furnished specifying in detail that the installation complies with Building Code requirements in these and all other respects. We shall expect to hear from you at once as to which course you plan to pursue.

Very truly yours,

Albert J. Sears
Building Inspection Director

Portland, Maine, January 30, 1963

PERMIT ISSUED
JAN 31 1963
00625
PORTLAND

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for a permit to install the following heating, cooling or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location R.695-789 Warren Ave. Use of Building Radio Studio & Transmitter House No. Stories 1 New Building Excluding
 Name and address of owner of appliance Casco Broadcasters Corp. 645a Congress St. Telephone 4-7878
 Installer's name and address Resnick Oil Co. 206 Congress St.

General Description of Work

To install Forced hot air heating system and oil burning equipment.

IF HEATER, OR POWER BOILER

Location of appliance boiler room Any burnable material in floor surface or beneath? none
 If so, how protected? first floor Kind of fuel? oil
 Minimum distance to burnable material, from top of appliance or casing top of furnace 5'
 From top of smoke pipe 3' From front of appliance over 4' From sides or back of appliance over 3'
 Size of chimney flue 8x8 Other connections to same flue none
 If gas fired, how vented?
 Will sufficient fresh air be supplied to the appliance to insure proper and safe combustion? yes

IF OIL BURNER

Name and type of burner Jackson-Church-gunit type labelled by underwriters' laboratories? yes
 Will operator be always in attendance? Does oil supply line feed from top or bottom of tank? top
 Type of floor beneath burner concrete Size of vent pipe 1 1/2"
 Location of oil storage outside underground Number and capacity of tanks 550 gal.
 Low water shut off? Make No.
 Will all tanks be more than five feet from any flame? yes How many tanks employed?
 Total capacity of any existing storage tanks for furnace burners

IF COOKING APPLIANCE

Location of appliance Any burnable material in floor surface or beneath?
 If so, how protected? Height of Legs, if any
 Skirting at bottom of appliance? Distance to combustible material from top of appliance?
 From front of appliance From sides and back From top of smokepipe
 Size of chimney flue Other connections to same flue
 Is hood to be provided? If so, how vented? Forced or gravity?
 If gas fired, how vented? Rated maximum demand per hour

Gentlemen:

Your appeal under the Zoning Ordinance concerning the erection of three radio towers and a studio and transmitter building at the above named location has been sustained by the Board of Appeals. However, no further action can be taken by this department until applications for permits have been filed and permit fees paid for erection of the towers and the building. With these applications will need to be filed an accurate plot plan and structural details of the towers and the building.

Rights granted under the appeal will expire unless permits are issued and work started under the project within six months of the date on which the appeal was sustained.

Very truly yours,

Albert J. Sears
Building Inspection Director

June 22, 1962

Casco Broadcasting Corporation
645a Congress Street

cc to: Corporation Counsel

Gentlemen:

Building permit for erection of three radio towers and a one story studio and transmitter building about 50 feet by 70 feet at the above named location is not issuable under the Zoning Ordinance for the following reasons:

1. The property is located in an I-1 Industrial Zone where the proposed use is not allowable under the provisions of Section 11-A of the Ordinance.
2. The lot does not abut a street as required by Section 18-B of the Ordinance, but is to be reached by a right-of-way 12 feet wide across land of other ownership.

We understand that you would like to exercise your appeal rights concerning these discrepancies. Accordingly we are certifying the case to the Corporation Counsel, to whose office in Room 208, City Hall, an authorized representative should go to file the appeal.

It is also necessary that approval be secured from the Municipal Officers (City Council) for the proposed right-of-way access to the lot. Information can be secured at the Corporation Counsel's office as to the procedure to be followed to obtain such approval.

Very truly yours,

Albert J. Sears
Building Inspection Director

CITY OF PORTLAND, MAINE
BOARD OF APPEALS

VARIANCE APPEAL

June 25, 1962

Casco Broadcasting Corporation, owner of property at 695-789 Warren Avenue Rear of
under the provisions of Section 24 of the Zoning Ordinance of the City of Portland, hereby respect-
fully petitions the Board of Appeals for a variance from the provisions of said Ordinance to permit:
Erection of three radio towers and a one-story studio and transmitter building about
50 feet by 70 feet at this location. This permit is presently not issuable for the
following reasons: (1) The property is located in an I-1 Industrial Zone where the
proposed use is not allowable under the provisions of Sec. 11-A of the Ordinance.
(2) The lot does not abut a street as required by Sec. 18-B of the Ordinance, but is
to be reached by a right-of-way 12 feet wide across land of other ownership.

LEGAL BASIS OF APPEAL: Such variance may be granted if the Board of Appeals finds that the
strict application of the provisions of the Ordinance would result in hardship in the
development of property which is inconsistent with the intent and purpose of the Ordinance; that
there are exceptional or unique circumstances relating to the property which do not generally
apply to other property in the same zone or neighborhood, which would be the result of
action of the applicant subsequent to the adoption of this Ordinance, whether in violation of
the provisions of the Ordinance or not; that property in the same zone or neighborhood will not
be adversely affected by the granting of the variance; and that the granting of the variance
will not be contrary to the intent and purpose of the Ordinance.

Casco Broadcasting Corporation
By: William R. Stone
APPELLANT Exec Vice Pres.

DECISION

After public hearing held July 12, 1962, the Board of Appeals finds that all of the above
conditions do exist with respect to this property and that a variance should be granted
in this case.

It is, therefore, determined that a variance from the provisions of the Zoning Ordinance
should be granted in this case.

Gentlemen

July 12, 1962

CITY OF PORTLAND, MAINE
IN THE BOARD OF APPEALS

July 2, 1962

TO WHOM IT MAY CONCERN:

The Board of Appeals will hold a public hearing in the Council Chamber at City Hall, Portland, Maine, on Thursday, July 12, 1962, at 4:00 P.M. to hear the appeal of Casco Broadcasting Corporation requesting an exception to the Zoning Ordinance to permit erection of three radio towers and a one-story studio and transmitter building about 50 feet by 70 feet on the property at the rear of 695-789 Warren Avenue.

This permit is presently not issuable for the following reasons:

- (1) The property is located in an I-1 Industrial Zone where the proposed use is not allowable under the provisions of Section 11-A of the Ordinance.
- (2) The lot does not abut a street as required by Section 18-B of the Ordinance and is to be reached by a right-of-way 12 feet wide across land of other ownership.

This appeal is taken under Section 24 of the Zoning Ordinance which provides such variance may be granted only if the Board of Appeals finds that the strict application of the provisions of the Ordinance would result in undue hardship in the development of property which is inconsistent with the intent and purpose of the Ordinance; that there are exceptional or unique circumstances relating to the property that do not generally apply to other property in the same zone or neighborhood, which have not arisen as a result of action of the applicant subsequent to the adoption of this Ordinance whether in violation of the provisions of the Ordinance or not; that property in the same zone or neighborhood will not be adversely affected by the granting of the variance; and that the granting of the variance will not be contrary to the intent and purpose of the Ordinance.

All persons interested either for or against this appeal will be heard at the above time and place, this notice of required public hearing having been sent to the owners of property within 500 feet of the premises in question as required by the Ordinance.

BOARD OF APPEALS

Franklin G. Hinckley

Chairman

ALBERT J. SEARS
INSPECTOR OF BUILDINGS

CITY OF PORTLAND, MAINE
Department of Building Inspection

Varian

AP-Rear of 695-789 Warren Ave.

June 22, 1962

Casco Broadcasting Corporation
645a Congress Street

cc to: Corporation Counsel

Gentlemen:

Building permit for erection of three radio towers and a one story studio and transmitter building about 50 feet by 70 feet at the above named location is not issuable under the Zoning Ordinance for the following reasons:

1. The property is located in an I-1 Industrial Zone where the proposed use is not allowable under the provisions of Section 11-A of the Ordinance.
2. The lot does not abut a street as required by Section 18-B of the Ordinance, but is to be reached by a right-of-way 12 feet wide across land of other ownership.

We understand that you would like to exercise your appeal rights concerning these discrepancies. Accordingly we are certifying the case to the Corporation Counsel, to whose office in Room 208, City Hall, an authorized representative should go to file the appeal.

It is also necessary that approval be secured from the Municipal Officers (City Council) for the proposed right-of-way access to the lot. Information can be secured at the Corporation Counsel's office as to the procedure to be followed to obtain such approval.

Very truly yours,

Albert J. Sears
Building Inspection Director
