CITY OF PORTLAND

ATTN: Mr. Samuel Hoffses
Chief Inspection Services

Dear Sam:

In talking with Warren Turner last Friday, he suggested I write to you and describe the use we plan for the Danforth building located in the Riverside Industrial Park. Our plan is to move gradually beginning the middle of September and not be completely transferred until November or December.

ITT Vulcan Electric established the original operation in 1978, after obtaining city permission and sold the business to us in 1980. We have been operating in the same facility on Warren Avenue in an I2 zone for the past three years and have grown to the point where we need more space.

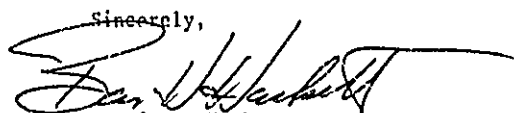

Our company is part of a larger corporation out of Maryland and produces electro-mechanical devices, specifically electric heating pads and controls for the water-bed industry. Products are distributed nationally from coast to coast through eight distributorships.

The manufacturing process involves procedures characteristic of a printed circuit industry. Thin stainless steel foil is laminated between sheets of vinyl film to create the heating pad and electrical components are assembled to produce temperature controls similar to electric blanket thermostats.

Approximately 80 people are employed here now and this number is expected to expand to 100 or more by next July. We hire mostly inexperienced and untrained people who are trained on the job to acquire the necessary skills.

The building will be used only for the manufacturing of our product and the storage of raw materials and finished goods.

Please advise our next step involved in obtaining permission to occupy the building. If you need more detail or have questions, please call. I would be happy to meet with you to discuss the matter more thoroughly.

Sincerely,

Barrie H. Hackett
Vice President of Manufacturing

DIRECTOR OF PLANNING & URBAN DEVELOPMENT

June 11, 1984

Delta Realty Co., Inc.
999 Forest Avenue
Portland, Maine 04102

Re: 400 Riverside Street

Dear Sir:

Your application to construct an 11,650 square foot warehouse has been reviewed and a building permit is herewith issued subject to the following requirements:

Site Plan Requirements

Inspection Services	None	Mr. M. Ward, 6/7/84
Public Works	None	Mr. R. Roy, 5/15/84
Fire Department	None	Lt. J. Collins, 3/7/84

Planning Division

1. Although three Marshall's Seedless Ash Trees are listed in the plant list, only two have been depicted in the drawing. A third Marshall's Seedless Ash tree needs to be added. The size of these deciduous trees should be increased to 2½-3 inch caliper, and the City Arborist is available to inspect plant material prior to their planting.

Building and Fire Code Requirements

1. All electrical and plumbing permits must be obtained by masters of their trade.
2. An H.H.E. 200 form must be completed to obtain your subsurface sewage permit. This also must be submitted to this office before work begins.
3. Your plan shows only one means of egress in the office area. A minimum of two must be provided and so located to be as remote as practicable, and shall be arranged and constructed to provide direct access in separate directions from any point in the area sewed so as to minimize the possibility that both may be blocked by any one fire or other emergency condition (submit new plan showing changes).

Re: 390 Riverside St, Portland

Dear Sir:

Your application to install a trailer for field office and business use during the construction of your proposed new office building has been reviewed and a permit is herewith issued subject to the following requirements:

1. This is a temporary office and shall be removed at the completion of your new building.
2. Public Works must be contacted to give you the location of your temporary driveway.

If you have any questions on the requirements, please call this office.

Sincerely,

P. Samuel Hoffses
Chief of Inspection Services

400 Riverside St.
Portland, ME 04103

RE: 410 Riverside Street

Gentlemen:

Your application to construct a 20,000 sq. ft. building to be used as a warehouse has been reviewed, and a building permit is herewith issued subject to the following requirements:

Site Plan Review Requirements

Inspection Services Division:

Approved. M. Ward 6/3/85

Fire Department:

Approved with condition. Lt. Collins 4/18/85

1. Hydrants not shown on plan. Building must be within 800 ft. along route of access to a hydrant.

Parks/Public Works Department:

Approved with condition. R. Roy 5/5/85

1. No filling or grading shall occur outside the limits of construction.

Planning Division:

Approved with condition. K. Connor 5/28/85

1. The electrical line from the building to the primary electrical line must be underground.

Building Code Requirements

Have all lot lines clearly marked before calling for a foundation inspection.

Sincerely,

E. Samuel Hoffses
Chief of Inspection Services
