Dear Mr. Dinsmore:

This is in reference to the proposed building planned for 460 Riverside Street for George W. Crockett of Turner, Barker Realty. The proposed building will be used for tenant office space and a warehouse.

We have received an approved site plan for the proposed development and are now awaiting the details for the building plan before we can issue a building permit. If this is a pre-engineered building, may we please have a copy of the pamphlet or booklet which describes the type of construction to be used in erecting the proposed building?

The building permit is being held up pending receipt of this information

Sincerely,

Warren J. Turner  
Zoning Enforcement Inspector
