REGARDING: Warehousing Facility-Bangor Drug Industrial  
Parkway, Portland

Dear Sirs:

O  
P  
Y  
I believe that site development work for the subject project includes the extension of a large diameter City owned culvert and the placing of earth fill in the gully lying in front of your building and westerly of the Parkway. The culvert, along with a 12-inch diameter sanitary sewer, is located in a City owned right-of-way, 100' in width. As you probably know; the sub-soils in this area are poor and of low bearing capacity. Special design concepts were considered and applied at the time of initial construction of the existing structures and the placement of fill. The City is very concerned that the new work now proposed will not endanger or damage the existing City owned structures.

Please; submit a detailed plan and profile to this department showing the existing structures; the new proposed extension; the height of fill proposed; protection proposed for the sanitary sewer and method of construction.

Very truly yours,

Joseph P. Beaulieu

RE: 220 Riverside Industrial

Dorler Communications  
220 Riverside Industrial Parkway  
Portland, Maine 04102

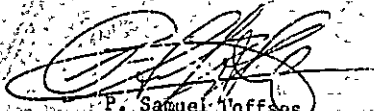

Dear Sir:

Your application to erect a 275' radio tower and to construct a 20' X 20' building to be used for radi transmitter for radio tower has been reviewed and a permit is herewith issued subject to the following requirements:

1. This permit is herewith issued subject to FAA approval;
2. Your plan did not show roof truss design. The City of Portland Building Code requires design live load for this truss to be 50 PSF;
3. The towers shall be so located and equipped with step bolts and ladders to be readily accessible for inspection purposes. Guy wires or other accessories shall not cross or encroach upon any street or other public spaces, or over any electric power lines, or encroach upon any other privately owned property without written consent of the owner;
4. Towers shall be designed for the dead load plus ice load in regions where ice formation is likely to occur.
5. Adequate foundation and anchorage shall be provided to resist two times the calculated wind uplift; and,
6. All towers shall be permanently and effectively grounded.

If you have any questions on these requirements, please call this office.

Sincerely,

  
P. Samuel Toffses  
Chief of Inspection Services

Dear Mayor Dorler:

This will acknowledge receipt of your firm's application for a building permit for a 275 foot high radio tower at 220 Riverside Industrial Parkway. We have inquired in the Office of the Jetport Manager, Mr. Thomas F. Valteau, and ascertained that structures of more than 224 feet in height in your firm's location should have FAA approval from the Regional Headquarters Office, 12 New England Executive Park, Burlington, Massachusetts, 01803.

We have asked Mr. Rooney of the Jetport Manager's Office to send you a copy of the FAA application form to your office. Upon receipt of the approved application from the FAA, with a copy furnished to this office, the processing of this permit will be continued.

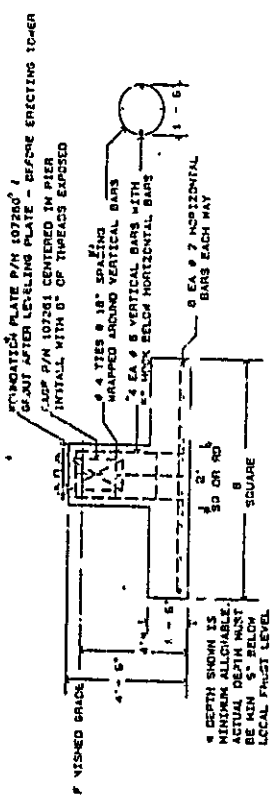

Sincerely,

Warren J. Turner

FOR FAA USE ONLY

Supplemental Notice of Construction FAA Form 7460-2 is required any time the project is abandoned, or

At least 45 days before the start of construction

Within five days after the construction reaches its greatest height.

This determination expires on February 25, 1988 unless

(a) extended, revised or terminated by the issuing office;

(b) the construction is subject to the licensing authority of the Federal Communications Commission and an application for a construction permit is made to the FCC on or before the above expiration date. In such case the determination expires on the date prescribed by the FCC for completion of construction, or on the date the FCC denies the application.

NOTE: Request for extension of the effective period of this determination must be postmarked or delivered to the issuing office at least 15 days prior to the expiration date.

If the structure is subject to the Licensing authority of the FCC, a copy of this determination will be sent to that Agency.

The Proposal:

Does not require a notice to FAA.

Is not identified as an obstruction under any standard of FAR, Part 77, Subpart C, and would not be a hazard to air navigation.

Is identified as an obstruction under the standards of FAR, Part 77, Subpart C, but would not be a hazard to air navigation.

Should be obstruction marked, lighted per FAA Advisory Circular 70-450-1, Chapter(s) 3, 4, 5, & 9

Obstruction marking and lighting are not necessary.
