April 15, 1964

Hr. Andrew R. Gedaro 28 Horwood Street

Dear Hr. Gedaro:

Upon inspection of the above job on April 14, 1964, the following emission was found which prevent us from issuing the certificate of occupancy—required by law to be in possession of the owner before the building may be lawfully occupied.

"Nole in flooring tenenth tub not closed off with incombustible material."

It is important that the above conditions be corrected before April 22, 1964 and that you notify this office of readiness for another inspection, so that, if all is found in order, the certificate of occupancy required by law may be issued.

If additional information relative to the above is desired, please phone Inspector Earle Smith at 774-8221, extension 236, any week day but Saturday between 8:00 and 8:30 A. M.

Very truly yours,

Earle S. Smith Field Inspector
