CITY OF PORTLAND, MAINE
Department of Building Inspection

Certificate of Occupancy

LOCATION 35-37 Cypress St.

Issued to Hayden & Notis

Date of Issue April 24, 1972

This is to certify that the building, premises, or part thereof, at the above location, built--altered--changed as to use under Building Permit No. 71/966, has had final inspection, has been found to conform substantially to requirements of Zoning Ordinance and Building Code of the City, and is hereby approved for occupancy or use, limited or otherwise, as indicated below.

PORTION OF BUILDING OR PREMISES

APPROVED OCCUPANCY

Entire

Construct 1½ story frame
dwelling 24' x 34'

Limiting Conditions:

This certificate supersedes
certificate issued

Approved:

(Date)

Inspector

Inspector of Buildings

Notice: This certificate identifies lawful use of building or premises, and ought to be transferred from owner to owner when property changes hands. Copy will be furnished to owner or lessee for one dollar.

35-37 Cypress Street

April 6, 1972

Hayden & Notis
97A Exchange Street

cc to: Mary J. Latini
35-37 Cypress Street

Gentlemen:

Upon inspection of the above job on April 5th, the following defects were found which prevent us from issuing the certificate of occupancy--required by law to be in possession of the owner before the building may be lawfully occupied:

2x2 nailers used on main girder to support floor joists.
Section 1503.2.6.1c of the City of Portland Building Code requires 2x3 nailers on metal joists hangers.

It is important that the above conditions be corrected before April 14, 1972, and that you notify this office of readiness for another inspection, so that, if all is found in order, the certificate of occupancy required by law may be issued.

Very truly yours,

Malcolm G. Ward
Plan Examiner

CITY OF PORTLAND

DEPARTMENT OF PLANNING & URBAN DEVELOPMENT
INSPECTION SERVICES DIVISION

October 21, 1986

RE: 35 Cypress Street

Ms. Mary Welch
35 Cypress Street
Portland, Maine 04103

Dear Ms. Welch:

Due to an inadequate plot plan, a building permit for a deck 15' X 24' was issued in error by this office on October 10, 1986. Permit #001460 is hereby amended to show that a deck only 7 feet in width should have been granted.

This amended plan as above guarantees that there will be an 8 foot side yard setback from the side property line, insuring 16 feet of open space between your deck and the neighboring residence.

The plot plan was produced in pencil on yellow paper, which did not show the exact distance from the property line to the side of your deck. We regret that it will be necessary to cut back your deck to allow this 8 foot side yard setback.

Sincerely,

Warren J. Turner

NOTES

10/20/86.

The side deck shows it has been built over from the original when the house was built and it is built up to the lot line.

If zoning approves this I have no problem with it. The deck plans do not show the side yard from deck to lot line.

We need a plot plan. We are receiving complaints constantly.

10/21/86 Will follow up.

11/86 Pool in place as per code - entire area fenced in. Turner has been in & discussed the deck problem with Warren Turner Zoning.

Re: Fire at 35 Cypress St.

Ms. Young;

On Jan. 18, 1988 a fire occurred in the building listed above, of which you are reported to be the owner (x).

If permanent repair work is required for this building, you must obtain a permit from the Building & Inspection Dept. in City Hall before starting such work.

Very Truly Yours,

Joseph E. McDonough

Re: 38 Cypress Street, Portland

Dear Sir:

Your application to construct a duplex dwelling at 38 Cypress Street has been reviewed and a building permit is herewith issued subject to the following requirements.

Site Plan Requirements

Inspection Services

Approved

Mr. W. J. Turner

09/17/87

Public Works

Approved with conditions

1. Building sewer service shall be 4" diameter.
2. Existing drainage patterns shall not be altered or disturbed.

Building Code Requirements

1. All lot lines and the lot shall be clearly marked before calling for a foundation inspection.
2. Walls, partitions and floor/ceiling assemblies separating dwelling units from each other or from public or service areas shall have a sound transmission class (STC) of not less than 45.
3. Cantilevered roofs: The wall is permitted to terminate at the underside of the roof deck in Types 3, 4 and 5 construction where all of the following conditions below are met.
 - a. The wall is properly firestopped at the deck.
 - b. The roof sheathing or deck is constructed of approved noncombustible materials, or fire-retardant treated wood, for a distance of 4 feet (1219 mm) on either side of the wall.

36 Cypress Street
September 3, 1987
Page 2

c. combustible material does not extend through the wall.
d. the roof covering has a minimum of a Class C rating.

4. Multiple single-family dwellings: Single-family dwelling units (use Group R-3) located above or adjacent to other single-family dwelling units (use Group R-3) shall be considered as one building classification for the purpose of determining the applicable provisions of this code, provided each dwelling unit is completely separated from the adjacent dwelling unit(s) by fire separation walls and floor/ceiling assemblies of not less than 1-hour fire resistance rated construction and each unit has independent means of egress.
5. Please read and implement items 5 and 6 of the attached building permit report.
If you have any questions regarding these requirements, please do not hesitate to contact this office.

RE: Basement apartment - 35 Cypress Street

Dear Mrs. Young:

Recent inspection of the basement apartment at the above location showed this dwelling unit to be in violation of several building codes, and a Certificate of Occupancy cannot be issued at this time.

1. The dwelling unit does not have sufficient living space. A minimum of 600 square feet is required.
2. There must be 7'6" headroom in the habitable rooms.
3. There must be a one hour fire separation between the dwelling unit and the common cellar areas.
4. A smoke detector must be installed.

Please take the necessary steps within 30 days of receipt of this letter to comply with these specifications or vacate the basement dwelling unit. If these requirements cannot be met, the apartment must be vacated and the kitchen removed.

Please feel free to contact me with your plans regarding this matter Monday through Friday, 8:00-8:30 a.m. or 3:00-3:30 p.m. at 775-5451, ext. 378.

Sincerely,

Kathleen A. Taylor

35 Cypress St.
Portland, ME

Dear Ms. Young,

Your application to change the use of 35 Cypress from a one family to a two family dwelling, has been reviewed and a permit is herewith issued subject to the following requirements:

- 1) The new dwelling unit has a minimum of 600 square feet of living space.
- 2) There is 7'6" headroom in a new apartment.
- 3) You read and implement items 2,3,4 and 5 of the attached building permit report.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
Chief, Inspection Services

BUILDING PERMIT REPORT

DATE: 2 July 1988

ADDRESS: 35 Cypress ST. PTLD, MA

REASON FOR PERMIT: Change of use From single Family To Two Family dwelling

BUILDING OWNER: Joelle Young

CONTRACTOR: " "

PERMIT APPLICANT " "

APPROVED: *2*3*4*5 DENIED

CONDITION OF APPROVAL OR DENIAL:

- 1.) All vertical openings shall be enclosed with construction having a fire rating of at least one(1) hour, including fire doors with self-closers.
- *2.) Each apartment shall have access to two(2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
- *3.) The boiler shall be protected by enclosing with one(1) hour fire-rated construction including fire doors and ceiling, or by placing over the boiler, two(2) residential sprinkler heads supplied from the domestic water.
- *4.) Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches (1118 mm) above the floor. All egress or rescue windows from sleeping rooms must have minimum net clear openings of 5.7 square feet (0.53m²). The minimum net clear opening height dimension shall be 24 inches (610 mm). The minimum net clear opening width dimension shall be 20 inches (508 mm).
- *5.) In addition to any automatic fire alarm system required by Sections 1018 3.5, a minimum of one single station smoke detector shall be installed in each guest room, suite of sleeping area in buildings of Use Groups R-1 and I-1 and in dwelling units in the immediate vicinity of the bedrooms in buildings of Use Group R-2 or R-3. When actuated, the detector shall provide an alarm suitable to warn the occupants within the individual unit (see Section 1717.3.1).

In buildings of Use Groups R-1 and R-2 which have basements, an additional smoke detector shall be installed in the basement. In buildings of Use Group R-3, smoke detectors shall be required on every story of the dwelling unit, including basements.

In dwelling units with split levels, a smoke detector installed on the upper level shall suffice for the adjacent lower level provided the lower level is less than one full story below the upper level. If there is an intervening door between the adjacent levels, a smoke detector shall be installed on both levels.

All detectors shall be installed in an approved location. Where more than one detector is required to be installed within an individual dwelling unit, the detectors shall be wired in such a manner that the actuation of one alarm will actuate all the alarms in the individual unit.

- 6.) Private garages located beneath rooms in buildings of Use Groups R-1, R-2, R-3 or I-1 shall have walls, partitions, floors and ceilings separating the garage space from the adjacent interior spaces constructed of not less than 1-hour fire-resistance rating. Attached private garages shall be completely separated from the adjacent interior spaces and the attic area by means of 1/2-inch gypsum board or equivalent applied to the garage side. The sills of all door openings between the garage and adjacent interior spaces shall be raised not less than 4 inches (102 mm) above the garage floor. The door opening protectives shall be 1 3/4-inch solid core wood doors or approved equivalent.
- 7.) A guardrail system located near the open side of deck or elevated walking surfaces shall be constructed. Guards in buildings of Use Group R-3 shall be not less than 36 inches in height. Open guards shall have intermediate rails, balusters or other construction such that a sphere with a diameter of 6 inches cannot pass through any opening.
- 8.) Section 25-135 of the Municipal Code for the City of Portland states: "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year."

Sincerely,

P. Samuel Hoff
