June 19, 1967

Robert Chase
179 Lambert Street

Dear Mr. Chase:

Permit to construct 1-story frame dwelling 24'8" x 42' at the above named location is being issued subject to plans received with the application and in compliance with Zoning Ordinance and Building Code restrictions as follows:

1. The setback of this house as it faces street shall not be less than 25 feet as measured from the street line to the front wall of the dwelling at its closets point.

2. We understand that the Anderson window in the living room has stud pockets. If this is not so we will need to know what will be used for a header over this window before form inspection is called for.

Very truly yours,

A. Allan Soule

CITY OF PORTLAND, MAINE

DEPARTMENT of BUILDING INSPECTION

NOTICE RELATING TO SEWAGE DISPOSAL

x means copy sent to the parties (date) June 14, 1967

Location Lot 10 Greenough Lane Description Single family dwelling house.

Owner and Address Robert Chase, 179 Lambert St.

Contractor and Address " " " " "

Architect or Engineer and Address _____

Actual Area of Lot 11,493 s. ft. Sq. Ft. Zone R-3 Residence

Area required by Zoning Ord. if sewer were available 6500 sq. ft.

Where septic tank systems are required for sewage disposal, the Zoning Ordinance provides that the least allowable area of the lot shall be determined by the rate of percolation of the soil, this being the capacity of the soil to allow liquids to pass through as determined by tests. The Building Code directs that, where a septic tank is to be used, a building permit shall not be issued unless the proposed method of sewage disposal has been approved by the Director of Health.

Since application for the above permit indicates that connection to a sewer is not possible, it is necessary for the owner or his agent to file a site plan with the Health Department, to explain the method of sewage disposal proposed, and to make arrangements for a percolation test to be made under supervision of that department.

After the rate of percolation has been determined, the Director of Health will notify this department of the area of lot required on the basis of the results of the test. If the lot area required by the tests is equal to or less than the actual area of the lot and not less than the minimum lot area required in the zone in which the property is located for cases where connection to a sewer is available, the building permit can be issued; otherwise the permit cannot be issued unless authorization is secured from the Board of Appeals.

Gerald E. Mayberry
Director of Building Inspections

2 copies to Health Director

(This space for Health Department use)

Inspector of Buildings

Rate of Percolation is 10 minutes. On this basis area required by Zoning Ordinance is 10500 sq. feet.

Comments in event zoning appeal is filed: Bel 100' x 3
