INSTRUCTIONS

First - The applicant is to complete front of this form. The Tax Map Reference can be found on your Real Estate Tax Bill directly following the owner name and address in the center of your property Tax Bill. Billing name and address should be copied from your water or sewer Bill as well as the Portland Water District Account Number or in the lower left corner of the Water and Sewer Bill.

Second - Mail completed application form to:

City of Portland
Dept. of Public Works
424 City Hall
Portland, Maine 04101

ATTN: MR. WILLIAM GOODWIN

Third - The Public Works Department will call the person indicated on front side to schedule pre-installation inspection. During this inspection the Public Works section of this form (below) will be completed. Following this inspection Public Works will make copies of the application form. If the application is approved 3 copies will be made, one will be mailed to the Portland Water District, one will be forwarded to the City Plumbing Inspector and one will be mailed back to the Applicant. If the application is denied, one copy will be made and mailed to the applicant showing reason for denial.

Fourth - Upon receipt of a copy of the approved application, the applicant can purchase and install the sub-meter as approved. Following installation the applicant or his plumber must call the Chief Plumbing Inspector at 775-5451 Ext. 253 for an inspection of the completed installation. Following inspection by the Chief Plumbing Inspector, the Meter District will be requested to seal the sub-meter and arrange to have an automatic reading system (if applicable - See General Information page) instituted where by the volume shown by the sub-meter will be credited on the Sewer User Charge of the Bill.

GENERAL INFORMATION

Section 322.6C of the "Municipal Code of the City of Portland, Maine" reads as follows:

"Submetering of Water Volume. Any person who feels that recorded water records are not a reliable index of his discharge volume may install an additional water meter of a type approved by the Director to measure the volume of water which can be shown not to enter the sewerage system. The person installing such a meter shall immediately notify the Director of such installation and shall be responsible to the Director for reporting water readings not less often than every three months. Such person shall be credited with the volume charges for the volume shown by such meter, which meter shall be accessible for reading by the City or its agents at all reasonable times."

The City and the District have arranged to relieve the customer from the recurring responsibility required above if both meters can be read simultaneously by the District Meter Readers during their regularly scheduled visits to read pre-existing service meters. This can be accomplished by locating the sub-meter directly adjacent to the pre-existing service meter or by equipping the sub-meter and elsewhere with a remote reading register located so both readings can be made at the same time.

Approved meters are Neptune and Rodwell meters, conforming to the following specifications:

- 1 shall meet or exceed ANSI accuracy test requirements and be accompanied by a certificate of test accuracy.
- 2 the meters shall have straight reading, cubic foot registers.
- 3 the meters shall have the meter number stamped into the main case.
- 4 the meters shall be magnetic drive.
- 5 shall have either a rotating disc or oscillating piston.
- 6 shall have a bronze case.

Approved meters are available from the Water District, which sells them for the price the District buys them from the manufacturers. If you wish to purchase a sub-meter from the District you must bring your copy of an approved application with you at time of purchase.

TO BE COMPLETED BY PUBLIC WORKS

Pre-installation inspection by Norman Twaddel

on July 30, 1980

Automatic reading system requested YES NO

A Watts #8A N.F Back Flow Preventer or equal shall be

installed on hose bibb of each outside sillcock or a Watts #9 installed in line to the three outside sillcocks
