RE: 367 Palmer Avenue

Vincent Coleman Builders
126 Mass Avenue
Portland, Maine 04102

Dear Sir:

Your application to construct a single family dwelling with attached garage has been reviewed and a permit is herewith issued subject to the following requirements:

No certificate of occupancy can be issued until all requirements of this letter are met.

Site Plan Review Requirements

Inspection Services Approved W. Giroux 8-2-91
Public Works Field inlet to be removed by applicant. Drainage swales to be approved prior to issuance of Certificate of Occupancy. See attached PPW conditions of approval.

Building Code Requirements

1. Please read and implement items 1,6,7,8 and 9 of the attached building permit report.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
Chief of Inspection Services

/e1

cc: William Giroux, Zoning Administrator

BUILDING PERMIT REPORT

ADDRESS: 367 Palmer Ave. DATE: 2/AUGUST/91

REASON FOR PERMIT: To Construct a single family dwelling with attached garage.

BUILDING OWNER: Vincent Coleigan Builders
William - Beth Welsh

CONTRACTOR: 11

PERMIT APPLICANT: 11

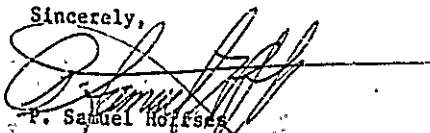

APPROVED: *1 *6 *7 *8 *9

CONDITION OF APPROVAL:

- 1.) Before concrete for foundation is placed, approvals from Public Works and Inspection Services must be obtained.
- 2.) Precaution must be taken to protect concrete from freezing.
- 3.) All vertical openings shall be enclosed with construction having a fire rating of at least one (1) hour, including fire doors with self-closers.
- 4.) Each apartment shall have access to two (2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
- 5.) The boiler shall be protected by enclosing with one (1) hour fire rated construction including fire doors and ceiling, or by providing automatic extinguishment. Sprinkler piping serving not more than six sprinklers may be connected to a domestic water supply system having a capacity sufficient to provide 0.15 gallons per minute, per square foot of floor throughout the entire area. An INDICATING shut-off valve shall be installed in an accessible location between the sprinkler and the connection to the domestic water supply. Minimum pipe size shall be 3/4 inch copper or 1 inch steel. Maximum coverage area of a residential sprinkler is 144 square feet per sprinkler.
- 6.) Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches (1118 mm) above the floor. All egress or rescue windows from sleeping rooms must have minimum net clear openings of 5.7 square feet (0.53m²). The minimum net clear opening height dimension shall be 24 inches (610 mm). The minimum net clear opening width dimension shall be 20 inches (508 mm).
- 7.) All single and multiple-station smoke detectors shall be of an approved type and shall be installed in accordance with the provisions of the building code (BOCA National Building Code 1990, and N.F.P.A. 74).

- X 8.) Private garages located beneath rooms in buildings of Use Groups R-1, R-2, R-3 or I-1 shall have walls, partitions, floors and ceilings separating the garage space from the adjacent interior spaces constructed of not less than 1-hour fireresistance rating. Attached private garages shall be completely separated from the adjacent interior spaces and the attic area by means of 1/2-inch gypsum board or equivalent applied to the garage side. The sills of all door openings between the garage and adjacent interior spaces shall be raised not less than 4 inches (102 mm) above the garage floor. The door opening protectives shall be 1 3/4-inch solid core wood doors or approved equivalent.
- X 9.) A guardrail system located near the open side of deck or elevated walking surfaces shall be constructed. Guards in buildings of Use Group R-3 shall be not less than 36 inches in height. Open guards shall have intermediate rails, balusters or other construction such that a sphere with a diameter of 4 inches cannot pass through any opening.
- 10.) Section 25-135 of the Municipal Code for the City of Portland states: "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year.
- 11.) The builder of a facility to which Section 4594-C of the Maine State Human Rights Act, Title 5 M.R.S.A. refers, shall obtain a certification from a design professional that the plans of the facility meet the standards of construction required by this section. Prior to commencing construction of the facility, the builder shall submit the certification to the Division of Inspection Services.

Sincerely,

P. Samuel Hoffers
Chief of Inspection Services

PUBLIC WORKS CONDITIONS OF APPROVAL

APPLICANT: William & Beth Walsh
ADDRESS: 73 Vesper St. Portland, ME 04101
SITE ADDRESS/LOCATION: # 367 Palmer Ave. (Lot 66 Draining Run)
DATE: 7/30/91

Review by Parks and Public Works is for General Conformance with ordinances and standards only and does not relieve the applicant, his contractors or agents from the responsibility to provide a completely finished site, including but not limited to increasing or concentrating of all surface runoff onto adjacent or downstream property, issues regarding vehicle site distance, location of public utilities and foundation elevations.

CONDITIONS CHECKED OFF BELOW ARE IN FORCE FOR YOUR SITE PLAN

- All damage to sidewalk, curb, street, or public utilities shall be repaired prior to issuance of a Certificate of Occupancy.
- Two (2) City of Portland approved species and size trees must be planted on your street frontage prior to issuance of a Certificate of Occupancy.
- Your new street address is now 367 Palmer Ave., the number must be displayed on the street frontage of your house prior to issuance of a Certificate of Occupancy.
- The Engineering Division of Parks and Public Works (874-8300 Ext. 8838) must be notified five (5) working days prior to date required for final site inspection. Please make allowances for completion of site plan requirements determined to be incomplete or defective during the inspection. This is essential as all site plan requirements must be completed and approved by Parks and Public Works prior to issuance of a Certificate of Occupancy. Please schedule any property closings with these requirements in mind.
- The Sewer Division of Parks and Public Works (Jackie Wurslin at 797-5302) must be notified five (5) working days prior to sewer connection to schedule an inspector for your site.
- As-built record information for sewer and storm service connections must be submitted to Parks & Public Works Engineering Division (55 Portland St.) and approved prior to issuance of a Certificate of Occupancy.
- A street opening permit(s) is required for your site. Please contact Carol Poliskey at 874-8300, ext. 8822. (Only excavators licensed by the City of Portland are eligible).

INSPECTION SERVICES DIVISION

Lot #66, Deering Run
Palmer Avenue

January 9, 1989

Mrs. Julie DeRice
c/o Andrew DeRice Construction
2 Flintlock Lane
Falmouth, Maine 04105

Dear Mrs. DeRice:

This is in reference to your application for a building permit for a single family ranch to be constructed on Lot #66, on Palmer Avenue in Deering Run Subdivision.

Upon review of the plot plan, it appears that the building is being oriented toward West Lane Avenue, with only 14 feet between the garage and Palmer Avenue. The City Zoning Ordinance, as amended for the R-2 Residence Zone in July 1988 now requires a twenty (20) foot side yard setback on a side street.

Please advise this office if you therefore wish to revise your plot plan so as to conform to the side yard setback on a side street. It appears that due to the width of the lot, it may be possible to face the proposed ranch toward Palmer Avenue and still meet the zoning requirements.

Sincerely,

Warren J. Turner

DEPARTMENT OF PLANNING & URBAN DEVELOPMENT

March 6, 1989

Mr. Andrew DeRice
2 Flintlock Lane
Falmouth, Maine

Re: Lot #66 Palmer Avenue, Portland, Maine

Dear Sir:

Your application to construct a new single family dwelling has been reviewed and a permit is herewith issued subject to the following requirements:

Site Plan Review

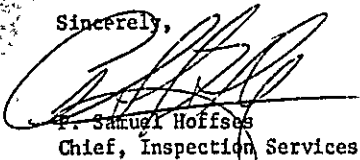

Public Works	Approved	S. Harris	February 27, 1989
Inspection Services	Approved	W. Turner	March 3, 1989

Building Code Requirements

- 1.) Please read and implement items 1,2,6,7,8,9 and 10 of the attached Building Permit Report.
- 2.) Plan same as Lot #64.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses
Chief, Inspection Services

cc: S. Harris, Public Works

P. SAMUEL HOFFSES, CHIEF
INSPECTION SERVICES DIVISION

BUILDING PERMIT REPORT

ADDRESS: LOT # 66 Palmer Ave. (Deering Run) DATE: 6/mar/89

REASON FOR PERMIT: single Family dwelling

BUILDING OWNER: Andrew De Rice

CONTRACTOR: A.R. De Rice

PERMIT APPLICANT: 11

APPROVED: *1 *2 *6 *7 *8 *9 *10 ~~11~~

CONDITION OF APPROVAL OR COMMENT:

- *1.) Before concrete for foundation is placed, approvals from Public Works and Inspection Services must be obtained.
- *2.) Precaution must be taken to protect concrete from freezing.
- 3.) All vertical openings shall be enclosed with construction having a fire rating of at least one(1) hour, including fire doors with self-closers.
- 4.) Each apartment shall have access to two(2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
- 5.) The boiler shall be protected by enclosing with one(1) hour fire rated construction including fire doors and ceiling, or by placing over the boiler, two(2) residential sprinkler heads supplied from the domestic water.
- *6.) Every sleeping room below the fourth story, in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside opening without the use of separate tools. Where windows are provided as a means of egress or rescue, they shall have a sill height not more than 44 inches (1118 mm) above the floor. All egress or rescue windows from sleeping rooms must have minimum net clear openings of 5.7 square feet (0.53m²). The minimum net clear opening height dimension shall be 24 inches (610 mm). The minimum net clear opening width dimension shall be 20 inches (508 mm).
- *7.) In addition to any automatic fire alarm system required by Sections 1018.3.5, a minimum of one single station smoke detector shall be installed in each guest room, suite of sleeping area in buildings of Use Groups R-1 and I-1 and in dwelling units in the immediate vicinity of the bedrooms in buildings of Use Group R-2 or R-3. When actuated, the detector shall provide an alarm suitable to warn the occupants within the individual unit (see Section 1717.3.1).

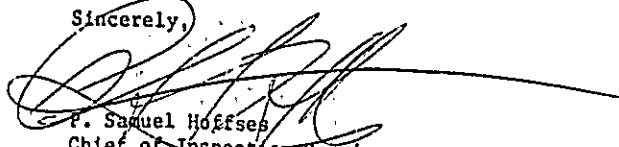

In buildings of Use Groups R-1 and R-2 which have basements, an additional smoke detector shall be installed in the basement. In buildings of Use Group R-3, smoke detectors shall be required on every story of the dwelling unit, including basements.

In dwelling units with split levels, a smoke detector installed on the upper level shall suffice for the adjacent lower level provided the lower level is less than one full story below the upper level. If there is an intervening door between the adjacent levels, a smoke detector shall be installed on both levels.

All detectors shall be installed in an approved location. Where more than one detector is required to be installed within an individual dwelling unit, the detectors shall be wired in such a manner that the actuation of one alarm will actuate all the alarms in the individual unit.

- *8.) Private garages located beneath rooms in buildings of Use Groups R-1, R-2, R-3 or I-1 shall have walls, partitions, floors and ceilings separating the garage space from the adjacent interior spaces constructed of not less than 1-hour fire resistance rating. Attached private garages shall be completely separated from the adjacent interior spaces and the attic area by means of 1/2-inch gypsum board or equivalent applied to the garage side. The sills of all door openings between the garage and adjacent interior spaces shall be raised not less than 4 inches (102 mm) above the garage floor. The door opening protectives shall be 1 3/4-inch solid core wood doors or approved equivalent.
- *9.) A guardrail system located near the open side of deck or elevated walking surfaces shall be constructed. Guards in buildings of Use Group R-3 shall be not less than 36 inches in height. Open guards shall have intermediate rails, balusters or other construction such that a sphere with a diameter of 6 inches cannot pass through any opening.
- *10.) Section 25-135 of the Municipal Code for the City of Portland states: "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year."

Sincerely,

F. Samuel Hoffses
Chief of Inspection Services

P. SAMUEL HOFFSES, CHIEF
INSPECTION SERVICES DIVISION

Lot #66, Deering Run
Palmer Avenue

January 9, 1989

Mrs. Julie DeRice
c/o Andrew DeRice Construction
2 Flintlock Lane
Falmouth, Maine 04105

Dear Mrs. DeRice:

This is in reference to your application for a building permit for a single family ranch to be constructed on Lot #66, on Palmer Avenue in Deering Run Subdivision.

Upon review of the plot plan, it appears that the building is being oriented toward West Lyme Avenue, with only 14 feet between the garage and Palmer Avenue. The City Zoning Ordinance, as amended for the R-2 Residence Zone in July 1988 now requires a twenty (20) foot side yard setback on a side street.

Please advise this office if you therefore wish to revise your plot plan so as to conform to the side yard setback on a side street. It appears that due to the width of the lot, it may be possible to face the proposed ranch toward Palmer Avenue and still meet the zoning requirements.

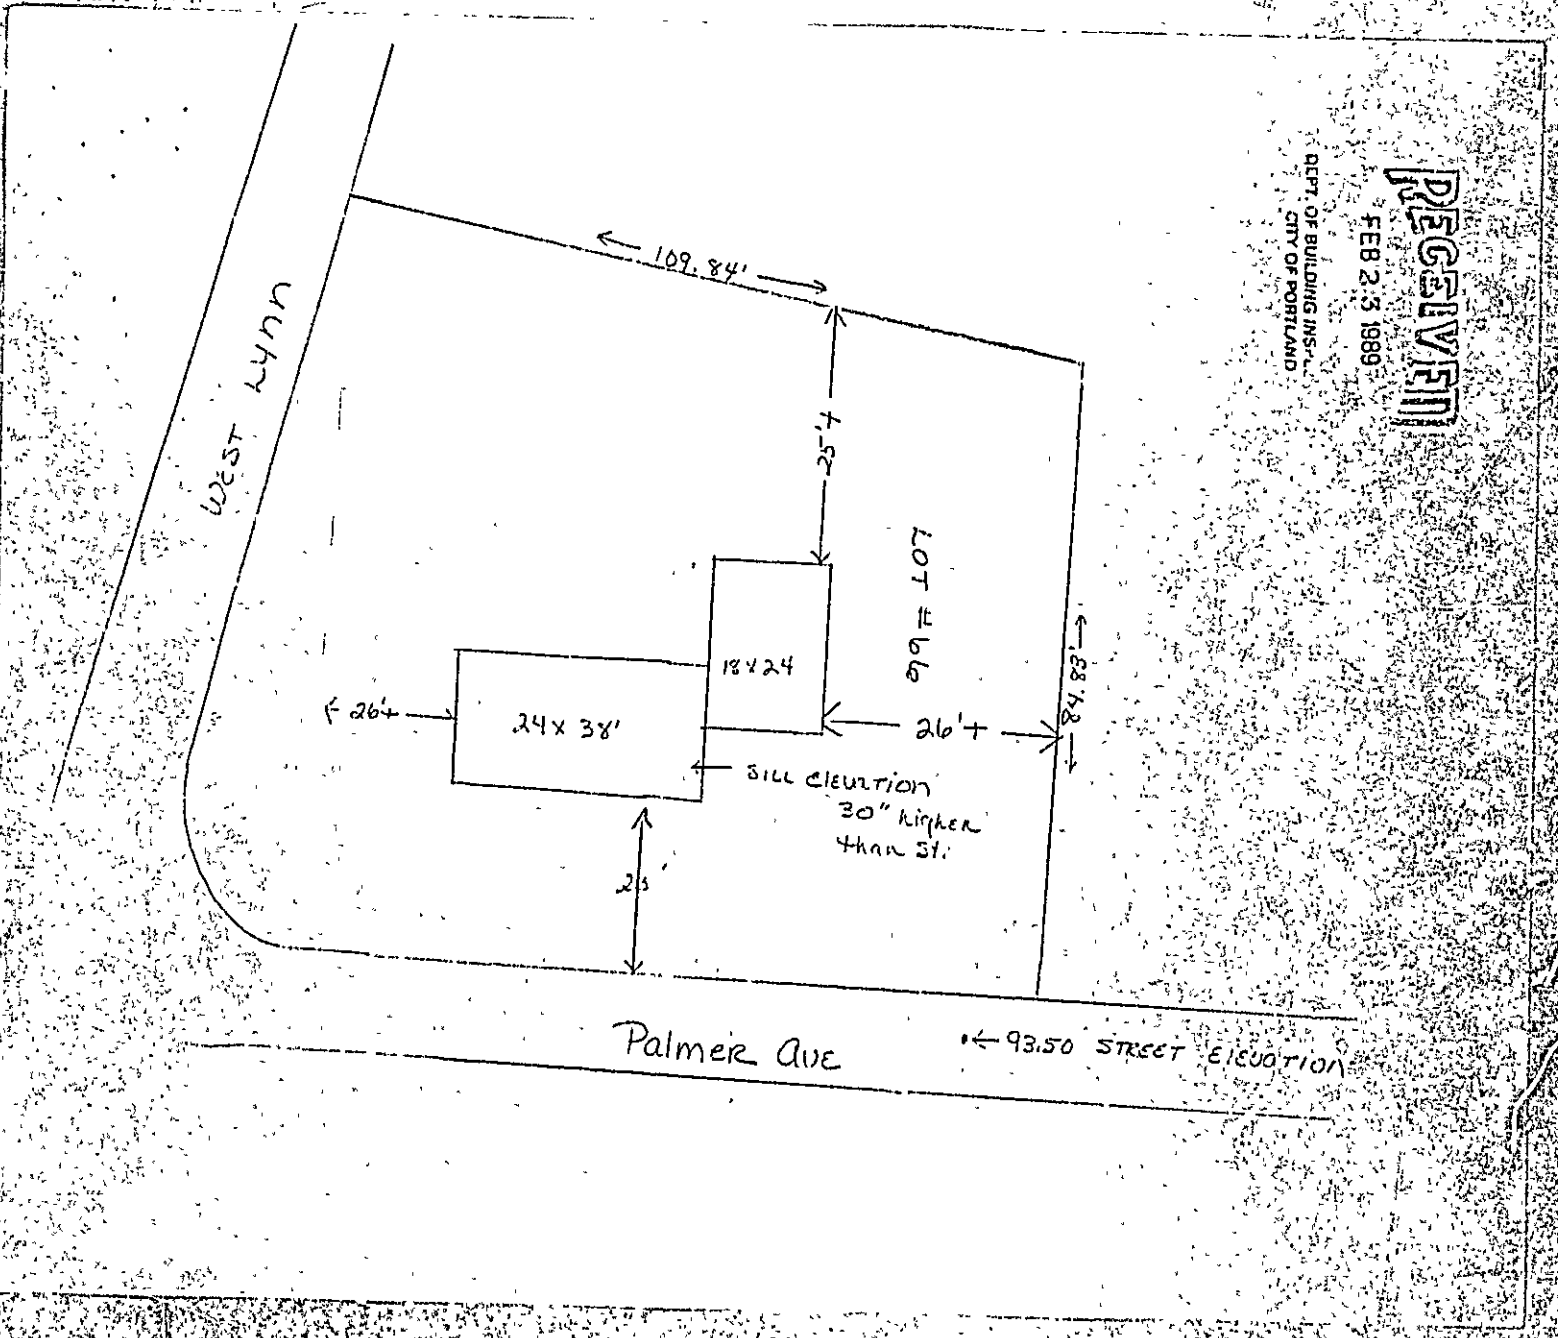

Sincerely,
Warren J. Turner
