File R.4925B-I

August 9, 1935

Mr. Hugh McLean,
244 Auburn Street,
Portland, Maine.

Dear Sir:-

On August 3rd you applied for a building permit to construct a poultry house about 24 feet by 40 feet at 244 Auburn Street.

While you were in the office the question arose about how the roof was to be framed and how the concrete piers under the building were to be located.

As I understood it you were to go home and talk with others about the matter and come in later to give us the framing of the roof and the location of the concrete piers. Having heard nothing from you since I am wondering if there has been some misunderstanding.

We are awaiting the additional information about the framing and the concrete piers. It is of course unlawful for you to proceed with any of the work until you actually have the permit card in your possession.

Very truly yours,

McD/H

Inspector of Buildings.
