Dear Mr. Salamone:

Fermit and certificate of occupancy for establishing restaurant, includion sale of malt liquor, in first story of building at the above property is located in a B-1 Business Zone where a restaurant use is not allowable and the proposed use will increase the degree of non-conformity trary to the provisions of Section 17-B of the Ordinance.

We understand that you would like to exercise your appeal rights in this metter. Accordingly you should come to the office to file the appeal on forms which are available here. The appeal will need to be made out in the name of and signed by the actual owner of the property.

In order to comply with requirements of the Koning Ordinance, it will be presently to provide not less than 13 off-street parking spaces at spaces for only 10 cars but it seems likely that more than this number can be cared for on the lot. A plot plan indicating how the required number of spaces is to be provided in locations specing Zoning Ordinance requirements is to be furnished this office before the data of the appending the special contents.

Very truly yours,

Dear Mr. Salamone:

Permit and certificate of occupancy for establishing restaurant including sales of malt liquor in first story of building at the above named location are not issuable under the Zoning at the above named location are not issuable under the zoning Ordinance because the property is located in a B-l Business Zone where a restaurant use is not allowable and the proposed use will increase the degree of non-conformity of the use previously authorized in the first story of the building.

We understand that you would like to exercise your appeal rights in this matter. However, more information concerning the proposed use is needed before a certification letter on which an appeal may be based can be written. For this purpose a layout plan of the restaurant showing seating and kitchen arrangements, means of egress, etc. will be needed, as well as a plot plan showing location of off-street purking arrangements to meet requirements of the Zoning Ordinance.

permit will need to be approved by the Municipal Officers (City Council) before 't can be issued even though the zoning appeal is austained.

CITY OF PORTLAND, MAINE MEMORANDUM

To: Graham W. Watt, City Manager

DATE: Dec. 15, 1964

FROM: Albert J. Sears, Building Inspection Director

SUBJECT: Approval of building permit by Municipal Officers

Attached herewith is copy of an order approving a building permit for establishment of a restaurant in which beer and alcoholic beverages are to be sold for consumption on the premises at 15-19 Auburn Street.

Approval of the permit by the Municipal Officers is required before its issuance because the sale of beer and alcoholic beverages for consumption on the premises is to be newly commenced. The purpose of this requirement as I understand it is to permit the Municipal Officers to consider the situation before the license comes before them for action so that, if it seems likely that the license will not be approved, approval of the permit will not be granted. This affords protection for the proprietor of the business in that work will not be done under a building permit only to have issuance of a license refused.

The property is located in a B-1 Business Zone where a restaurant is an excluded use, and an appeal under the Zoning Ordinance is scheduled for hearing at the meeting of the Appeal Board this next Thursday, December 17th. Of course, if the zoning appeal is denied, no action on this order will need to be taken. However, it seems best to have it in readiness in case the zoning appeal is granted.

CITY OF PORTLAND, MAINE BOARD OF APPEALS

VARIANCE APPEAL

October 16, 1981

Carl Jordan , owner of property at 15-19 Auburn Street under the provisions of Section 24 of the Zoning Ordinance of the City of Portland, hereby respectfully petitions the Board of Appeals for a variance from the provisions of said Ordinance to permit: Changing use of first-story of building at this location from a retail store to the manufacture and selling at retail of doughnuts, including the sale of doughnuts, coffee, and soft drinks for consumption of the premises. This permit is presently not issuable because the serving of food and drink for consumption of the premises constitutes a restaurant use which is not allowable under Sec. 8-A-8 of the Ordinance applying to the B-1 Business Zone in which the property is located.

LEGAL BASIS OF APPEAL: Such variance may be granted only if the Board of Appeals finds that the strict application of the provisions of the Ordinance would result in undue hardship in the development of property which is inconsistent with the intent and purpose of the Ordinance; that there are exceptional or unique cirsumstances relating to the property that do not generally apply to other property in the same zone or neighborhood, which have not arisen as a result of action of the applicant subsequent to the adoption of this Ordinance whether in violation of the provisions of the Ordinance or not; that property in the same zone or neighborhood will not be adversely affected by the granting of the variance; and that the granting of the variance will not be contrary to the intent and purpose of the Ordinance,

DECISION

After public hearing held November 2, 1961, the Board of Appeals finds that all of the above conditions do exist with respect to this property and that a variance should be granted in this case.

It is, therefore, determined that a variance from the provisions of the Zoning Ordinance

be granted in this case.

Centlemen:

Duilding permit and certificate of occupancy for changing use of first story of building at the above named location from a retail store to the manufacture and selling at retail of doughnuts, including the sele of doughnuts, coffee, and soft drinks for consumption on the presises, is not iosuable under the Zoning Grifmance because the serving of food and drink for consumption on the premises constitutes a restaurant use which is not allowable under Section 8-1-2 of the Ordinance applying to the B-1 Business Zone in which the property is located.

We understand that you would like to exercise your appeal rights concerning this discrepancy. Accordingly we are certifying the case to the Corporation Counsel, to whose office in Room 200, City Nall, the owner or his authorized representative should go to file the appeal.

Very truly pours,

Mr. Sears:

Mr. Carl Jordan called you in answer to your letter of Oct. 16th, regarding application for amendment to permit #55/931 at 15-19 Auburn St.

He answered your questions as follows:

- 1. One suite will consist of living and dining room (one room).
 The other to consist of 2 bedrooms and kitchen.
- Toilet facilities for second floor tenants flush toilet, wash stand and shower right off main hall.
- 3. He said he tought stairways were about 41" wide. He would provide handrails.
- 4. He will eliminate doorways that open onto both stairways.
- 5. He said there would be no more than 10 people in second story at any one time.

He said if there were any questions he could be reached at his home 2-6668.

More information is needed before Amendment #1 to Permit #55/931 covering the change of use of living quarters in second story of building at the above location to office space can be issued. A check of the plans filed with original permit for building against Building Code requirements for office use raises the following questions:-

- 1. Application for amendment indicates that there are to be two suites of offices, information is needed as to what rooms are to constitute each suite.
- 2. What toilct facilities are to be provided for second floor tenants?
- 3. If front and rear stairways are more than 40 inches wide, handrails are required on both sides and on at least one side if width is under 40 inches.
- 4. Doors shown opening directly onto both stairways are not allowable. It will be necessary either to eliminate these doors or to set them back so as to provide at least 3 feet between the doors and the head of the stairs in each case.
- 5. If there will ever be more than 20 people in the second story at any one time, vestibule latchests are required on all doors to be used as a means of egress from the building and exit signs are needed to show location of rear means of egress.

Very truly yours,

Albert J. Sears Deputy Inspector of Buildings
