Director

CITY OF PORTLAND

December 19, 1991

Dahlgren Construction 20 U.S. Rte #1 Yarmouth, ME 04096

Re: 40 Auburn Street

Dear Sia,

Your application to make exterior renovations (for an addition for a cooler) at 40 Auburn Street has been reviewed and a permit is herewith issued subject to the following requirements:

No certificate of occupancy can be issued until all requirements of this letter are met.

Fire Department - LT W. Garroway

Dumpster is recommended to be 10% away from overbang embuilings winthever

Planning/Public Works - M. Estaberg

Access plan per Bill Bray (DPW) if use is expanded to on site dining.

Building Inspections

The required roof extension over the cooler must be designed for a 50 lb. snow load.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Marge Schmuckal

Asst. Chief of Inspection Services

389 Congress Street · Portland, Maine 04101 · (207) 874-8704

Dahlgren Construction, Inc.

20 U.S. ROUTE 1 YARMOUTH, MAINE 04096 (207) 846-3505

December 3, 1991

City of Portland Planning Department 389 Congress Street Portland, Maine 04101

We are hereby requesting site plan review to install an exterior cooler, as shown on the enclosed plans. The property is located at 40 Auburn Screet in Portland, Maine and is owned by Joseph Esposito. It is the former site of the Radio Snack facility, and that portion of the building will be leased to Fizza Hut Corporation. This establishment will be take out only — there will be no inside seating.

Solid waste will be collected in a dumpster and disposed of by a commercial waste disposal company. The project will take approximately sixty (60) days from commencement to complete. Time is of the essence since there is ground work and utility installation to be performed before freezing.

We are enclosing photographs which indicate the buffering between this site and the residential building across Washington Street. Also enclosed are three (3) drawings of elevations, data sheets of the refrigeration equipment and a site plan for your review.

Please do not hesitate to contact us if you have any questions.

Very truly yours

Leland R. Dahlgren

President

Planning Department City of Portland City Hall Portland, Maine 04101

Site Plan, Proposed Building Expansion, 40 Auburn S

Gentlamen:

On behalf of Joseph Esposito, 44 Belfort St., Portland, we are pleased to submit the attached site plan for a 3120 square foot building addition at 40 Auburn St. in Portland. This expansion is proposed for the 0.9 acre parcel that currently hosues a Radio Shack store. The use of the proposed expansion will be office space.

Solid waste disposal will be accomplished by private hauler for final disposal at the City's solid waste baling facility. Public water and sewer are available at the site. Drainage from the site will be directed to the City's storm drainage system located in Auburn Street, and will follow the existing drainage patterns on the site. We do not actionate any versual drainage patterns. on the site. We do not anticipate any unusual drainage or topographic problems to be associated with this development.

Construction of the expanded facility is expected to commence late fall, 1984, with completion anticipated by March 31, 1985. Total cost is projected to be about \$250,000.00. Owner of Record is Joseph Esposito, Book 4219, Page 317, Cumberland County Registry of Doods Registry of Deeds.

Please contact me if there are any questions or comments regarding this proposal.

Sincerely,

Walter P. Stinson, PE

President

Inspection Services Samuel P. Hoffses Chief

Planning and Urban Development Joseph E. Gray Jr.

CITY OF PORTLAND

December 18, 1991

Capital Pizza Hut 25 Oak Hill Terrace #19 Scarborough, ME 04074 Oi

Dear Sir,

Your application to make interior renovations as per plans has been-reviewed and a permit is herewith issued subject to the following requirements:

No certificate of occupancy can be issued until all requirements of this letter are met.

- 1. The builder of a facility to which Section 4594-C of the Maine State

 Human Rights Act, Title 5 M.R.S.A. refers, shall obtain a certification

 from a design professional that the plans of the facility meet the

 standards of construction required by this section. Prior to commencing construction of the facility, the builder shall submit the certification to the revision of Inspection Services.
- All exit signs and lights shall meet the requirements of Article 8, Section 822.0 and 823.0 of the 1990 BOCA National Building Code.
- Fire extinguishers shall be installed as N.F.P.A. 10.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

ander Hoffses

REPLY:		

PENALTY FOR MISREPRESENTATION OF PERFORMANCE

It it is de nonstrated that a manufacturer has misrepresented the rating or other performance requirements of the ARI Standard, and has falled to make proper correction, the right to use the Symbol will be withdrawn, not only for the specific model concerned, but for all models produced by that manufacturer, and the manufacturer's name and listing will be removed from the Directory.

CERTIFIED SOUND-FLATED OUT DOOR UNITARY EQUIPMENT SCOPE OF PROGRAM

The program is also a voluntary program and is independent of the above mentioned thermal rating program.

The program. Includes all eligible thermally rated outdoor units y equipment rated below 135,000 Bluh cooling capacity at ARI Standard Rating Conditions shown in Table 1.

A. Rating Standards

The program references ARI. Standard 270-84 for Sound Fating of Outdoor, Unitary Ecolomont. This Standard was developed in order to provide the industry and the public with a procedure for rating and evaluating the sound power level of outdoor or tary equipment.

The rating of equipment is designated as the ARI Sound, Ruting (SR). SR is a tone corrected. Aweighted sound, power level, expressed in bels. The Sound Rating is based on lests performed at Stendard Rating Conditions (per Table 1 cooling).

The SR is an indicator of the sound power level of the equipment; the lower the SR, the lower the sound power, emitted by the outdoor equipment.

B. Application Standards

ARI Standard 275-84 for Application of Sound-Raied Childoor Unitary Equipment provides a means or utilizing the sound rating (SR) of outdoor unitary equipment to predict expected sound pressure levels when the equipment is installed in a specific acoustical environment.

C. Basis of Participation

Participation in the same as that outlined above except units tested are those previously tested under the requirements of Unitary Air-Conditioner or Air-Source Heat Pump Contilication Program.

THE SYMBOL

The Cartification Symbols, as required to cover the governing Standard, are illustrated below:

CERTIFICATION APPLIES ONLY WHEN THE COMPLETE SYSTEM COMPLETE SYSTEM

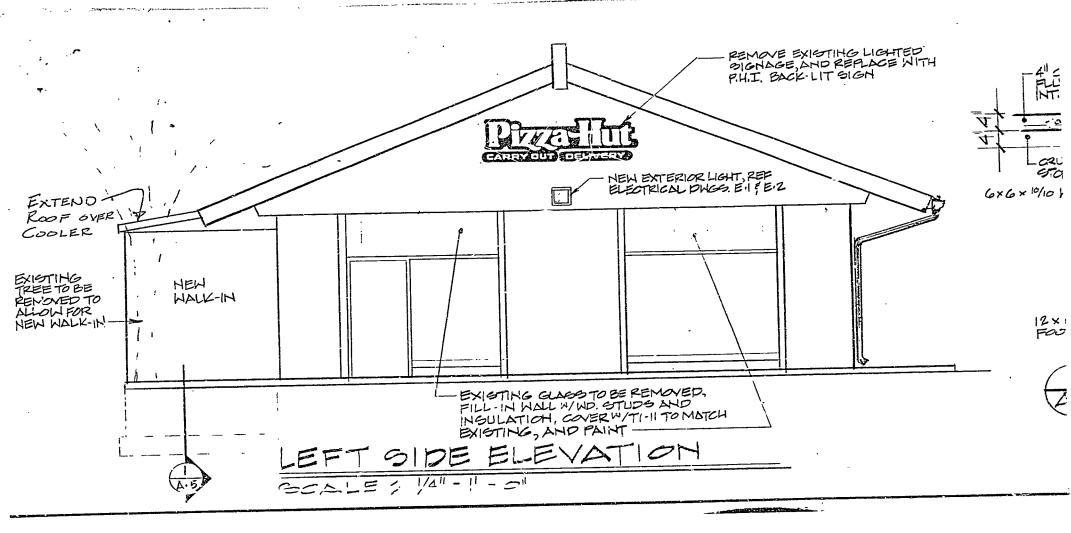

Single-Package

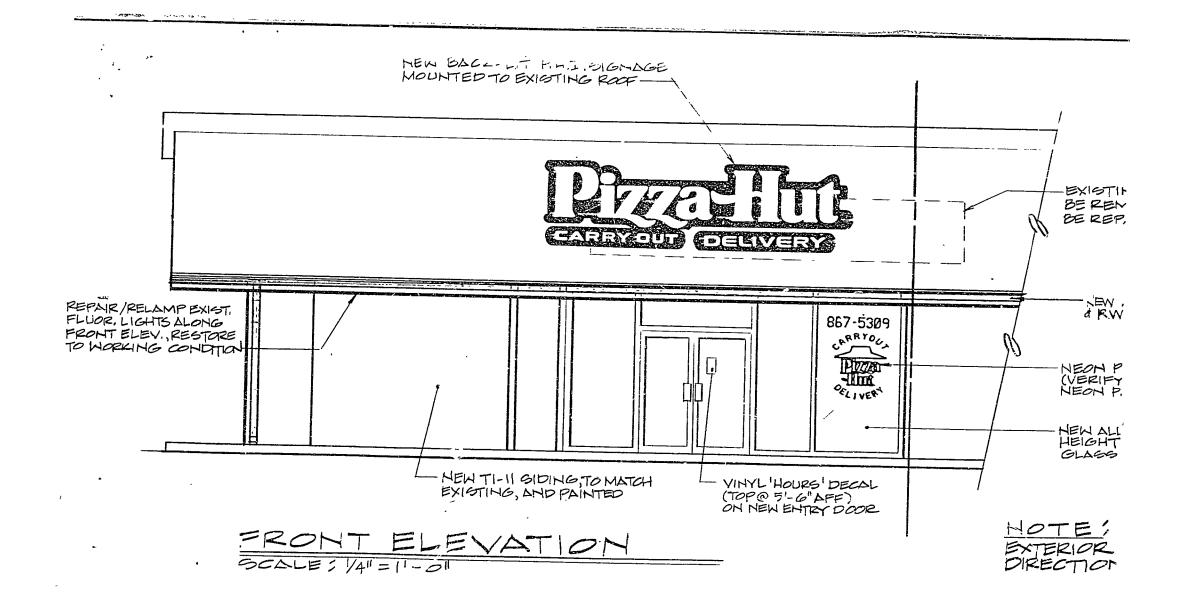

Split-System

These Symbols have been registered in the United States Patent, Office, The Symbols may not be reproduced or a copled jaxcept by permission of ARI. The Symbols may be claplayed on qualified units in the form of a label wobtained from ARI, or may be an integral part of the nameptate.

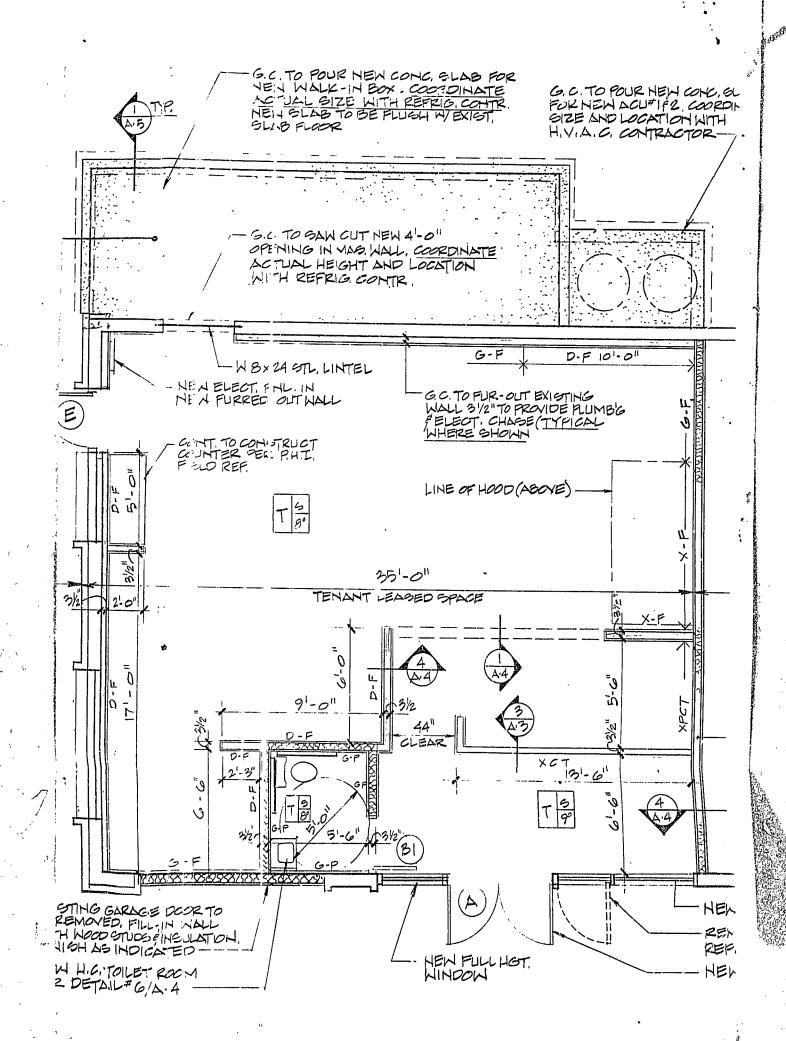

INDOOR COIL MANUFACTURERS'

Manufacturers of Indoor evaporator cells match their cells with condensing units of content representations. These flatings are certified by the Indoor cell manufacturers and the listed systems are subject to the same verification testing as all other confilled unitary alr-conditioner equipment in this section.

CITY OF PORTLAND

July 26, 1993

RE: 40 Auburn Street.

Tony's Donut Shop, Inc. 40 Auburn St. Portland, ME 04103

Dear Mr. Fournier:

Your application to change the use of 40 Auburn Street from candy store to retail food take out has been reviewed and a permit is herewith issued subject to the following requirements:

No Certificate of Occupancy can be issued until all requirements of this letter are met.

- Portable fire extinguishers shall be provided. Commercial cooking equipment shall be installed in accordance with NFPA $\,$
- All kithen exhaust equipment must be installed as per Article 5 of the City's Mechanical Code. (The BOCA National Mechanical Cole/1990.)
- All exit signs, lights and means of egress lighting shall be installed in accordance with Article 8, sections and subsection of the City's Building Code. (The BOCA National Building Code/1990)

If you have any questions regarding these requirements, please do not hesitate to contact this office.
